

COURSE OUTLINE: CJS428 - INTRO TO FIRE SCIEN

Prepared: Justice Studies Faculty Approved: Martha Irwin, Chair, Community Services and Interdisciplinary Studies

Course Code: Title	CJS428: INTRODUCTION TO FIRE SCIENCE			
Program Number: Name	1225: PROTECTION SECURITY			
Department:	CRIMINAL JUSTICE			
Academic Year:	2022-2023			
Course Description:	This course will cover material from a scientific perspective. Elements of Chemistry, Physics and Math, discussed to develop an understanding of the chemistry of fires and the operation of firefighting equipment. Characteristics of matter exposed to heat will be introduced to study the reaction that heat has on all forms of matter during firefighting operations. Included in this course are the principles of hydraulics and formulas related to pump operation and water flow. This course will also introduce the student to the realities of dealing with hazardous materials. The fundamentals NFPA training and the recognition, control and evaluation of hazards are examined. Students will develop skills to interpret safety data sheets and to determine the appropriate course of action to take for the hazard present.			
Total Credits:	3			
Hours/Week:	3			
Total Hours:	42			
Prerequisites:	There are no pre-requisites for this course.			
Corequisites:	There are no co-requisites for this course.			
Substitutes:	OEL595			
Vocational Learning Outcomes (VLO's) addressed in this course:	1225 - PROTECTION SECURITY			
	VLO 1 Work in compliance with established standards and relevant legislation in the protection, security and investigation fields.			
Please refer to program web page for a complete listing of program outcomes where applicable.	VLO 2 Make decisions in a timely, effective and legally defensible manner to uphold protection and security.			
	Carry out delegated duties and responsibilities in compliance with organizational policies and procedures.			
	VLO 4 Act equitably and justly with diverse populations.			
	VLO 5 Work effectively as a member of a protection and security team.			
	VLO 6 Prevent and resolve crisis, conflict and emergency situations by applying effective techniques.			
	VLO 7 Conduct and/or contribute to investigations by collecting, preserving and presenting admissible evidence.			
	VLO 8 Monitor, evaluate and accurately document behaviours, situations and events.			
	VLO 9 Develop and implement ongoing effective strategies for personal and professional development.			

Essential Employability Skills (EES) addressed in this course:	that ful EES 2 Respo comm EES 3 Execut EES 4 Apply 3 EES 5 Use a EES 6 Locate and int EES 7 Analyz	 that fulfills the purpose and meets the needs of the audience. Respond to written, spoken, or visual messages in a manner that ensures effective communication. Execute mathematical operations accurately. Apply a systematic approach to solve problems. Use a variety of thinking skills to anticipate and solve problems. Locate, select, organize, and document information using appropriate technology and information systems. Analyze, evaluate, and apply relevant information from a variety of sources. 		
	EES 9 Interactive relation EES 10 Management	 Show respect for the diverse opinions, values, belief systems, and contributions of others. Interact with others in groups or teams that contribute to effective working relationships and the achievement of goals. Manage the use of time and other resources to complete projects. Take responsibility for ones own actions, decisions, and consequences. 		
Course Evaluation:	Passing Grade: 60%, C A minimum program GPA of 2.0 or higher where program specific standards exist is required for graduation.			
Course Outcomes and Learning Objectives:	Course Outcon			
	Course Outcon	2 Learning Objectives for Course Outcome 2		
	2. Fire Safety Le Ontario (www.gov.on.ca	2.2 List and describe pertinent Occupation Health and Safety		
	Course Outcon	7		

Fire	 3.1 Define and describe the fire triangle and fire tetrahedron 3.2 Describe what constitutes an oxidizer 3.3 Describe what constitutes a fuel 3.4 Describe the three states of matter 3.5 Describe the properties or characteristics that affect solid liquids and gas 3.6 Describe the differences between heat and temperature 3.7 Describe the four methods of heat transfer 3.8 Describe the four classifications of fire 3.9 Describe the fire extinguishment theory as it applies to each class of fire 3.11 Define and explain fire terminology 		
Course Outcome 4	Learning Objectives for Course Outcome 4		
4. Fire Protection Systems and Equipment	 4.1 Describe the components of a water supply system 4.2 Describe fire detection equipment and their use 4.3 Describe various types of fire extinguishments systems a components 4.4 Describe the types of extinguishments agents and their uses 4.5 Explain how various types of extinguishment agents work extinguish fire 4.6 List and describe fire protection equipment used for personal protection of a firefighter 4.7 List and describe the comprehensive fire safety effectiveness model and its sub-components 4.8 List and discuss the 10 rules of engagement for structura fires 4.9 Define and describe types of fire apparatus and equipme 		
Course Outcome 5	Learning Objectives for Course Outcome 5		
5. Fire Prevention	 5.1 Describe the importance of prevention 5.2 Describe typical fire prevention activities 5.3 List and describe methods of public education as they relate to prevention 5.4 List and describe the uses of fire-related statistics 5.5 Describe leading causes of fire in industrial and domicile locations 5.6 List and describe arson characteristics to determine fire cause 		
Course Outcome 6	Learning Objectives for Course Outcome 6		
6. Fire Prevention Surveys	6.1 Define the term fire risk analysis6.2 List and describe the components of a fire prevention/inspection survey6.3 Complete a fire prevention survey		

Evaluation Process and		
Grading System:		

Evaluation Type	Evaluation Weight
Final Examination	40%
Mid Term Examination	30%

	Quizzes	30%		
Date:	December 15, 2022			
Addendum:	Please refer to the course outline addendum on the Learning Management System for further information.
