

COURSE OUTLINE: MOT100 - INTRO/MOTIVE POWER

Prepared: Sylvain Belanger

Approved: Corey Meunier, Chair, Technology and Skilled Trades

Course Code: Title	MOT100: INTRODUCTION TO MOTIVE POWER		
Program Number: Name	4005: PRE-TRADES TECHNOLGY		
Department:	PRE-TRADES & TECHNOLOGY		
Academic Year:	2022-2023		
Course Description:	In this course the student will learn basic aspects of four different but related trade areas: Automotive, Marine and Small Engines, Heavy Equipment and Truck Coach. The course will cover the shop and safety practices related to all of the trades and the student will learn to use the appropriate tools used in a safe working manner. The student will learn about the types of internal combustion engines used in these trade areas and learn to do basic maintenance to the engines. He or she will also learn about the, fuel, , suspension steering and braking systems used in the different types of vehicles and equipment used in the Motive Power Trades Areas. The student will be introduced to the computerized aspects involved in the Motive Power Trades from ordering of parts and supplies to the electronic computerized controls and diagnostics used on todays vehicles and equipment.		
Total Credits:	3		
Hours/Week:	3		
Total Hours:	42		
Prerequisites:	There are no pre-requisites for this course.		
Corequisites:	There are no co-requisites for this course.		
Vocational Learning Outcomes (VLO's) addressed in this course: Please refer to program web page for a complete listing of program outcomes where applicable.	 4005 - PRE-TRADES TECHNOLGY VLO 7 Obtain basic technical skills and introduce students to the theory and lab content of a variety of technical disciplines. VLO 9 Work with others 		
Essential Employability Skills (EES) addressed in this course:	 EES 3 Execute mathematical operations accurately. EES 4 Apply a systematic approach to solve problems. EES 5 Use a variety of thinking skills to anticipate and solve problems. EES 6 Locate, select, organize, and document information using appropriate technology and information systems. EES 7 Analyze, evaluate, and apply relevant information from a variety of sources. EES 10 Manage the use of time and other resources to complete projects. 		
General Education Themes:	Science and Technology		
Course Evaluation:	Passing Grade: 50%, d		

SAULT COLLEGE | 443 NORTHERN AVENUE | SAULT STE. MARIE, ON P6B 4J3, CANADA | 705-759-2554

	A minimum program GPA of 2.0 or higher where program specific standards exist is required for graduation.		
Other Course Evaluation & Assessment Requirements:			
Books and Required Resources:	handouts handouts will be provided		
Course Outcomes and Learning Objectives:	Course Outcome 1	Learning Objectives for Course Outcome 1	
	1. Use the appropriate shop equipment and hand tools associated with the Motive Power Trade areas taught in a safe and proper manner.	1.1 demonstrate the ability to use shop hoists1.2 choose the proper tool for the task to be performed1.3 demonstrate the ability to work safely in a Motive PowerShop environment	
	Course Outcome 2	Learning Objectives for Course Outcome 2	
	2. Demonstrate basic theoretical knowledge of the topic areas covered in the four Motive Power Trade Areas listed,	 2.1 identify the differences between the types of engines used in the Motive Power Trade areas 2.2 locate and identify the vehicles or equipments transmission and drive axles 2.3 list and identify the steering system and suspension system of different types of equipment and vehicles 2.4 identify the type of braking system relative to the vehicle or equipment used in each trade area 2.5 compare the sub-systems of each trade related vehicle or equipment and identify the similar mechanical and electrical components and their intended use 	

SAULT COLLEGE | 443 NORTHERN AVENUE | SAULT STE. MARIE, ON P6B 4J3, CANADA | 705-759-2554

		electrical and electronic components on various types of equipment and vehicles 2.7 use electronic parts and service system to provide identification and service procedures for automotive systems
	Course Outcome 3	Learning Objectives for Course Outcome 3
	3. Perform basic shop tasks associated with the theory related to each topic area in a safe working manner according to manufactures service procedures	3.1 perform vehicle maintenance3.2 perform simple visual and mechanical tests to ensure that the sub systems, suspension, steering and brakes are working in a safe manner
Evaluation Process and Grading System:	Evaluation Type	Evaluation Weight
	Practical Application Testing	
	Theory Testing	40%
Date:	August 15, 2022	
Addendum:	Please refer to the course out information.	line addendum on the Learning Management System for further
