

## COURSE OUTLINE: MPF0127 - DRIVE TRAIN SYSTEMS

Prepared: Stephen Kent

Approved: Martha Irwin, Dean, Community Services and Interdisciplinary Studies

<b>Course Code: Title</b>	MPF0127: MOTIVE POWER DRIVE TRAIN SYSTEMS-CICE
<b>Program Number: Name</b>	1120: COMMUNITY INTEGRATN
<b>Department:</b>	C.I.C.E.
<b>Academic Year:</b>	2022-2023
<b>Course Description:</b>	In this course the CICE student, with the assistance of a learning specialist, will be able to describe the construction, basic operating principles, servicing and testing techniques of the following gear train systems, clutch assemblies, manual transmission, differentials, rear wheel drive, drive shafts and PTO shafts and rear wheel drive axle, wheel hub assemblies. The CICE student, with the assistance of a learning specialist, will also demonstrate their ability to disassemble, test and inspect manual transmissions, differentials, wheel hubs and drivelines including backlash, preload, gear patterns, driveline angle measurement and phasing.
<b>Total Credits:</b>	4
<b>Hours/Week:</b>	8
<b>Total Hours:</b>	56
<b>Prerequisites:</b>	There are no pre-requisites for this course.
<b>Corequisites:</b>	There are no co-requisites for this course.
<b>Vocational Learning Outcomes (VLO's) addressed in this course:</b>	<b>1120 - COMMUNITY INTEGRATN</b> VLO 1 Integrate fully in academic, social and community activities. VLO 2 Develop and apply transferrable learning strategies to promote self-determination, life satisfaction, and lifelong learning. VLO 5 Further develop confidence, self-awareness, and self-advocacy skills related to independence, employment, and personal well-being.
<b>Essential Employability Skills (EES) addressed in this course:</b>	EES 1 Communicate clearly, concisely and correctly in the written, spoken, and visual form that fulfills the purpose and meets the needs of the audience. EES 2 Respond to written, spoken, or visual messages in a manner that ensures effective communication. EES 3 Execute mathematical operations accurately. EES 4 Apply a systematic approach to solve problems. EES 5 Use a variety of thinking skills to anticipate and solve problems. EES 6 Locate, select, organize, and document information using appropriate technology and information systems. EES 7 Analyze, evaluate, and apply relevant information from a variety of sources. EES 8 Show respect for the diverse opinions, values, belief systems, and contributions of others. EES 9 Interact with others in groups or teams that contribute to effective working

relationships and the achievement of goals.

EES 10 Manage the use of time and other resources to complete projects.

EES 11 Take responsibility for ones own actions, decisions, and consequences.

**Course Evaluation:**

Passing Grade: 50%, D

A minimum program GPA of 2.0 or higher where program specific standards exist is required for graduation.

**Other Course Evaluation & Assessment Requirements:**

**EVALUATION PROCESS/GRADING SYSTEM:**

The final grade for this course will be based on the results of classroom, assignments and shop evaluations weighed as indicated:

- Classroom - 40% of the final grade is comprised of term tests
- Assignments - 10% of the final grade is comprised of a number of technical reports
- Shop - 50% of the final grade is comprised of attendance, punctuality, preparedness, student ability, work organization and general attitude

(Student will be given notice of test and assignment dates in advance)

(Student will be given notice of test and assignment dates in advance)

The following semester grades will be assigned to students:

**Grade**

Definition Grade Point Equivalent

A+ 90 - 100% 4.00

A 80 - 89%

B 70 - 79% 3.00

C 60 - 69% 2.00

D 50 - 59% 1.00

F (Fail) 49% and below 0.00

CR (Credit) Credit for diploma requirements has been awarded.

S Satisfactory achievement in field /clinical placement or non-graded subject area.

U Unsatisfactory achievement in field/clinical placement or non-graded subject area.

**Books and Required Resources:**

Heavy Duty Truck Systems by Bennett  
Publisher: Cengage Learning Edition: 7th ed

Automotive Technology: A Systems Approach by Erjavec  
Publisher: Thomson Nelson Learning Canada Edition: 4th Canadian Edition

**Course Outcomes and Learning Objectives:**

Upon successful completion of this course, the CICE student, with the assistance of a Learning Specialist will acquire varying levels of skill development relevant to the following learning outcomes:

<b>Course Outcome 1</b>	<b>Learning Objectives for Course Outcome 1</b>
Explain the construction, operating principles, testing and service techniques required to repair single and double disc clutch assemblies.	<ul style="list-style-type: none"><li>• Compare &amp; contrast static and sliding friction.</li><li>• State the effects of centrifugal force.</li><li>• Describe the construction of single and double disc push and pull type clutch assemblies.</li><li>• Test and inspect push and pull type clutch assemblies with prescribed service tools and equipment.</li></ul>

	<ul style="list-style-type: none"> <li>Perform clutch adjustments following manufactures maintenance procedures.</li> </ul>
<b>Course Outcome 2</b>	<b>Learning Objectives for Course Outcome 2</b>
Demonstrate a thorough understanding of the construction, operation, testing and servicing of rear wheel drive single countershaft manual transmissions.	<ul style="list-style-type: none"> <li>Describe the basic operating principles of various manual shift gear boxes.</li> <li>Discuss the common customer complaints related to various power train component failures.</li> <li>Dismantle and trace power flows in manual shift transmissions.</li> <li>Inspect gears and synchronizers for wear and proper operation.</li> <li>Describe manufacturers` system maintenance procedures of manual transmission lubricating fluids.</li> </ul>
<b>Course Outcome 3</b>	<b>Learning Objectives for Course Outcome 3</b>
Describe the function, composition and construction of single reduction differentials and drive shafts.	<ul style="list-style-type: none"> <li>Identify the differential and drive axle assemblies employed within the motive power field.</li> <li>Describe the function and interrelationship of the components of differentials and drive axle assemblies.</li> <li>Measure driveline angle and phasing using prescribed tools and equipment.</li> <li>Compare and contrast gears used in motive power drivelines (e.g.) bevel gear, spur gear, helical and hypoid.</li> </ul>
<b>Course Outcome 4</b>	<b>Learning Objectives for Course Outcome 4</b>
Explain the fundamentals, construction, composition and types of wheel hub assemblies.	<ul style="list-style-type: none"> <li>Explain sliding and rolling friction.</li> <li>Outline load carrying bearings.</li> <li>Describe the importance of proper fluid types and specified levels.</li> <li>Identify bearing types, tapered roller and ball bearing.</li> <li>Describe seals and seal types used.</li> </ul>
<b>Course Outcome 5</b>	<b>Learning Objectives for Course Outcome 5</b>
Perform removal, installation and inspection of wheel hub assemblies.	<ul style="list-style-type: none"> <li>Remove and install a wheel hub assembly following manufacturer`s recommendations.</li> <li>Inspect bearing match, endplay, bearing fit and hub &amp; spindle condition.</li> <li>Adjust bearing preload / endplay following *TMC and OEM procedures.</li> </ul> <p>*Technical and maintenance council ( TMC )</p>

**Evaluation Process and Grading System:**

<b>Evaluation Type</b>	<b>Evaluation Weight</b>
Assignments	10%
Employability Skills	10%
shop	45%
Theory Tests	35%

## **CICE Modifications:**

### **Preparation and Participation**

1. A Learning Specialist will attend class with the student(s) to assist with inclusion in the class and to take notes.
2. Students will receive support in and outside of the classroom (i.e. tutoring, assistance with homework and assignments, preparation for exams, tests and quizzes.)
3. Study notes will be geared to test content and style which will match with modified learning outcomes.
4. Although the Learning Specialist may not attend all classes with the student(s), support will always be available. When the Learning Specialist does attend classes he/she will remain as inconspicuous as possible.

**A.** Further modifications may be required as needed as the semester progresses based on individual student(s) abilities and must be discussed with and agreed upon by the instructor.

#### **B. Tests may be modified in the following ways:**

1. Tests, which require essay answers, may be modified to short answers.
2. Short answer questions may be changed to multiple choice or the question may be simplified so the answer will reflect a basic understanding.
3. Tests, which use fill in the blank format, may be modified to include a few choices for each question, or a list of choices for all questions. This will allow the student to match or use visual clues.
4. Tests in the T/F or multiple choice format may be modified by rewording or clarifying statements into layman's or simplified terms. Multiple choice questions may have a reduced number of choices.

#### **C. Tests will be written in CICE office with assistance from a Learning Specialist.**

##### ***The Learning Specialist may:***

1. Read the test question to the student.
2. Paraphrase the test question without revealing any key words or definitions.
3. Transcribe the student's verbal answer.
4. Test length may be reduced and time allowed to complete test may be increased.

#### **D. Assignments may be modified in the following ways:**

1. Assignments may be modified by reducing the amount of information required while maintaining general concepts.
2. Some assignments may be eliminated depending on the number of assignments required in the particular course.

##### ***The Learning Specialist may:***

1. Use a question/answer format instead of essay/research format
2. Propose a reduction in the number of references required for an assignment
3. Assist with groups to ensure that student comprehends his/her role within the group
4. Require an extension on due dates due to the fact that some students may require additional time to process information
5. Formally summarize articles and assigned readings to isolate main points for the student
6. Use questioning techniques and paraphrasing to assist in student comprehension of an

assignment

**E. Evaluation:**

Is reflective of modified learning outcomes.

**NOTE:** Due to the possibility of documented medical issues, CICE students may require alternate methods of evaluation to be able to acquire and demonstrate the modified learning outcomes

**Date:**

December 20, 2022

**Addendum:**

Please refer to the course outline addendum on the Learning Management System for further information.
