

COURSE OUTLINE: MPF122 - BRAKES

Prepared: Dan Tregonning Approved: Corey Meunier, Chair, Technology and Skilled Trades

Course Code: Title	MPF122: BRAKES		
Program Number: Name	4041: AUTOMOTIVE REPAIR 4044: MOT POWER ADV REPAIR		
Department:	MOTIVE POWER		
Academic Year:	2022-2023		
Course Description:	This course deals with the study and interrelationship of essential basic fundamentals, composition, construction and operating principles of hydraulic and pneumatic brake systems. The student will also inspect and service hydraulic and pneumatic brake assemblies using manufacturer's maintenance procedures.		
	Students will be required to follow proper safety procedures when performing the above tasks according to both Sault College Motive Power Department Standards and Vehicle Manufacturers safety regulations and specifications.		
Total Credits:	4		
Hours/Week:	8		
Total Hours:	56		
Prerequisites:	MPF103		
Corequisites:	There are no co-requisites for this course.		
This course is a pre-requisite for:	MPT202, MPT230		
Vocational Learning	4041 - AUTOMOTIVE REPAIR		
Outcomes (VLO's) addressed in this course:	VLO 1 Identify basic motive power system problems by using critical thinking skills and strategies and by applying fundamental knowledge of motor vehicle operation, components, and their interrelationships.		
Please refer to program web page for a complete listing of program outcomes where applicable.	VLO 5 Identify, inspect, and test basic suspension, steering, and brake components and systems in compliance with manufacturers recommendations.		
	VLO 6 Disassemble and assemble components to required specifications by applying workshop skills and knowledge of basic shop practices.		
	VLO 7 Use a variety of test equipment to assess basic electronic circuits, vehicle systems, and subsystems.		
	VLO 8 Apply basic knowledge of hydraulics and pneumatics to the testing and inspection of basic motive power systems and subsystems.		
	VLO 9 Communicate information effectively, credibly, and accurately by producing supporting documentation to appropriate standards.		
	VLO 10 Use information technology and computer skills to access data concerning repair procedures and manufacturer's updates.		

		IOT POWER ADV REPAIR		
	VLO 1	Analyse, diagnose, and solve various motive power system problems by using problem-solving and critical thinking skills and strategies and by applying fundamental knowledge of motor vehicle operation, components, and their interrelationships.		
	VLO 6	Diagnose and repair suspension, steering, and brake components and systems in compliance with manufacturer's recommendations.		
	VLO 7	Disassemble and assemble components to required specifications by applying workshop skills and knowledge of basic shop practices.		
	VLO 9	Apply knowledge of hydraulics and pneumatics to the testing and analysis of motive power systems and subsystems.		
	VLO 10	Communicate information effectively, credibly, and accurately by producing supporting documentation to appropriate standards.		
	VLO 11	Use information technology and computer skills to support work in a motive power environment.		
	VLO 16	Complete all assigned work in compliance with occupational, health, safety, and environmental law; established policies and procedures; codes and regulations; and in accordance with ethical principles.		
Essential Employability Skills (EES) addressed in this course:	EES 1	Communicate clearly, concisely and correctly in the written, spoken, and visual form that fulfills the purpose and meets the needs of the audience.		
	EES 2	Respond to written, spoken, or visual messages in a manner that ensures effective communication.		
	EES 3	Execute mathematical operations accurately.		
	EES 4	Apply a systematic approach to solve problems.		
	EES 5	Use a variety of thinking skills to anticipate and solve problems.		
	EES 6	Locate, select, organize, and document information using appropriate technology and information systems.		
	EES 7	Analyze, evaluate, and apply relevant information from a variety of sources.		
Course Evaluation:	Passing Grade: 50%, D			
	A minimum program GPA of 2.0 or higher where program specific standards exist is required for graduation.			
Other Course Evaluation & Assessment Requirements:	 EVALUATION PROCESS/GRADING SYSTEM: The final grade for this course will be based on the results of classroom, assignments and shop evaluations weighed as indicated: Classroom - 35% of the final grade is comprised of term tests Assignments - 10% of the final grade is comprised of a number of technical reports Shop - 45% of the final grade is comprised of attendance, punctuality, preparedness, student ability, work organization and general attitude Employability Skills - 10% of final grade is comprised of attendance, class participation, show ability to follow direction and being a team player. (Student will be given notice of test and assignment dates in advance) 			
	(Sindent	will be given notice of test and assignment dates in advance)		

SAULT COLLEGE | 443 NORTHERN AVENUE | SAULT STE. MARIE, ON P6B 4J3, CANADA | 705-759-2554

	NOTE: All assignments will be in typed format. NO hand written assignments will be accept			
	(Students will be given notice	of test and assignment dates in advance)		
	The following semester grades will be assigned to students:			
	Grade Definition Grade Point Equivalent A+ 90 - 100% 4.00 A 80 - 89% B 70 - 79% 3.00 C 60 - 69% 2.00 D 50 - 59% 1.00 F (Fail)49% and below 0.00 CR (Credit) Credit for diploma requirements has been awarded. S Satisfactory achievement in field /clinical placement or non-graded subject area. U Unsatisfactory achievement in field/clinical placement or non-graded subject area. X A temporary grade limited to situations with extenuating circumstances giving a student additional time to complete the requirements for a course. NR Grade not reported to Registrar's office. W Student has withdrawn from the course without academic penalty.			
Books and Required Resources:	Automotive Technology: A Systems Approach by Erjavec Publisher: Thomson Nelson Learning Canada Edition: 4th Canadian Heavy Duty Truck Systems by Bennet Publisher: Thomson Nelson Learning Canada Edition: 7th			
Course Outcomes and Learning Objectives:	Course Outcome 1	Learning Objectives for Course Outcome 1		
	Define the essential basic information and fundamentals of standard hydraulic and air brake systems.	 Pascal's Law, mechanical advantage Effect of heat co-efficient of friction Brake fluid composition Self -energization Weight transfer affecting brake designs for light and heavy-duty off road equipment brakes Laws of levers Pressure volume relationships Boyles and Charles law 		
	Course Outcome 2	Learning Objectives for Course Outcome 2		
	Explain the basic function, composition and construction of drum and disc brake system assemblies as applied to hydraulic and air brakes.	 Master cylinder, drum, shoes, wheel cylinders, discs, pads, calipers, lines and hoses Slack adjusters Air brake chambers Control valves Lines and hoses SAHR Multi disc wet brakes 		

SAULT COLLEGE | 443 NORTHERN AVENUE | SAULT STE. MARIE, ON P6B 4J3, CANADA | 705-759-2554

	Driveline brakes Parking brakes	
Course Outcome 3	Learning Objectives for Course Outcome 3	
Explain the basic principals of operation of drum and disc brake system assemblies as applied to hydraulic and air brakes.	 Master cylinder, drums and shoes Wheel cylinders, discs, pads ,caliper Control devices Air supply system and subsystems Air brake chambers Slack adjusters Parking brakes 	
Course Outcome 4	Learning Objectives for Course Outcome 4	
Identify, inspect and service drum and disc brake system assemblies as applied to hydraulic and air brakes.	 Clean, lubricate and adjust hydraulic drum brake assemblies Clean, lubricate and adjust air drum and disc brake assemblies Inspect and test disc brake assemblies Service caliper slides and bushings Perform steel brake line fabrication, ISO and double inverted Bleed and flush hydraulic brake systems Inspect and adjust parking brakes Functional tests of air brake supply systems Inspect Heavy Duty wet multi disc brake assemblies 	

Evaluation Process and Grading System:	Evaluation Type	Evaluation Weight
Orading Oystem.	Assignments	10%
	Employability Skills	10%
	Shop	35%
	Tests	45%
Date:	January 5, 2023	

Addendum:

Please refer to the course outline addendum on the Learning Management System for further information.
