

COURSE OUTLINE: SUR101 - SURVEYING

Prepared: Marc Pilon

Approved: Corey Meunier, Chair, Technology and Skilled Trades

Course Code: Title	SUR101: SURVEYING			
Program Number: Name	4080: CIVIL ENG TECHNICIAN			
Department:	CIVIL/CONSTRUCTION			
Academic Year:	2023-2024			
Course Description:	Surveying plays a key role with our built environment. As a civil technician you may have responsibilities at the initial planning, layout or construction phases of a project.			
	This course introduces you to basic surveying principles. The topics will deal with theory, application and care of the level, distance measurement equipment and total stations. The theory is enhanced with practical field exercises.			
Total Credits:	4			
Hours/Week:	4			
Total Hours:	56			
Prerequisites:	There are no pre-requisites for this course.			
Corequisites:	There are no co-requisites for this course.			
Substitutes:	OEL810, SUR100, SUR109			
This course is a pre-requisite for:	SUR201			
Vocational Learning	4080 - CIVIL ENG TECHNICIAN			
Outcomes (VLO's) addressed in this course:	VLO 2 comply with workplace health and safety practices and procedures in accordance with current legislation and regulations.			
Please refer to program web page for a complete listing of program outcomes where applicable.	VLO 6 collect, process and interpret technical data to produce written and graphical project-related documents.			
	VLO 7 use industry-specific electronic and digital technologies to support civil engineering projects.			
	VLO 8 participate in the design and modeling phase of civil engineering projects by applying engineering concepts, basic technical mathematics and principles of science to the review and production of project plans.			
	VLO 11 apply teamwork, leadership and interpersonal skills when working individually or within multidisciplinary teams to complete civil engineering projects.			
Essential Employability Skills (EES) addressed in this course:	EES 1 Communicate clearly, concisely and correctly in the written, spoken, and visual form that fulfills the purpose and meets the needs of the audience.			
	EES 2 Respond to written, spoken, or visual messages in a manner that ensures effective communication.

	FF0.0	-				
	EES 3	cal operations accurately.				
	EES 4	,	approach to solve problems.			
	EES 5	•	nking skills to anticipate and solve problems.			
	EES 6	6 Locate, select, organize, and document information using appropriate technology and information systems.				
	EES 8	Show respect for th others.	e diverse opinions, values, belief systems, and contributions of			
	EES 9		in groups or teams that contribute to effective working e achievement of goals.			
	EES 10	Manage the use of	time and other resources to complete projects.			
	EES 11	Take responsibility for ones own actions, decisions, and consequences.				
Course Evaluation:	Passing Grade: 50%, D					
	A minimum program GPA of 2.0 or higher where program specific standards exist is required for graduation.					
Other Course Evaluation & Assessment Requirements:						
Course Outcomes and	Course	Outcome 1	Learning Objectives for Course Outcome 1			
Learning Objectives:	Upon su complet be able	ccessful ion, the student will	1.1 Define geomatics and surveying. 1.2 List the various branches of surveying. 1.3 Define and identify systematic and random errors. 1.4 Define and identify mistakes or blunders.			

SAULT COLLEGE | 443 NORTHERN AVENUE | SAULT STE. MARIE, ON P6B 4J3, CANADA | 705-759-2554

demonstrate basic surveying concepts from a historical and procedural perspective.	1.5 Identify the basic components of a surveyor's level, chain and total station.1.6 Describe the proper care and handling of survey equipment.1.7 Identify and demonstrate suitable formats for note taking			
Course Outcome 2	Learning Objectives for Course Outcome 2			
Upon successful completion, the student will be able to: 2. Comply with health and safety practices and procedures while performing field activities.	2.1 Conduct self in safe manner and in accordance with the requirements of work situation. 2.2 Identify unsafe situations in the field. 2.3 Apply best safety practices when working outdoors.			
Course Outcome 3	Learning Objectives for Course Outcome 3			
Upon successful completion, the student will be able to: 3. Use industry-specific automatic level, digital level, taping and total stations and technologies to support the survey field activities.	3.1 Select and use standard survey equipment such as automatic level, digital level, tapes and total station. 3.2 Apply survey techniques and use survey equipment such as automatic level, digital level, chains, tapes and total station.			
Course Outcome 4	Learning Objectives for Course Outcome 4			
Upon successful completion, the student will be able to: 4. Participate as a member of a survey team by applying surveying concepts and basic technical mathematics to review and produce leveling, taping and total station activities.	 4.1 Collect, interpret and check survey data by using systematic approaches in accordance to recognized standards and practices. 4.2 Perform a differential, benchmark and profile leveling filed activity. 4.3 Preform a taping activity on level and sloping ground in the field. 4.4 Measure and record the horizontal angles of a closed traverse. 4.5 Present a field book that is complete, neat and illustrated with appropriate sketches at the mid-term and end of semester timeframes. 4.6 Apply known and routine calculations to check the closure of a leveling route. 4.7 Implement checks to ensure that field work is accurate. 4.8 Determine elevation differences by trigonometric leveling and level circuit adjustments. 4.9 Perform calculations of right angle triangles. 4.10 Convert horizontal angles to azimuths and bearings for a closed traverse. 4.11 Perform computations of open traverse by determining the azimuth and bearing of each segment of the traverse. 4.12 Seek assistance to resolve situations that are beyond the student's scope of training or knowledge. 			
Course Outcome 5	Learning Objectives for Course Outcome 5			

SAULT COLLEGE | 443 NORTHERN AVENUE | SAULT STE. MARIE, ON P6B 4J3, CANADA | 705-759-2554

	Upon successful completion, the student will be able to: 5.
