

**SAULT COLLEGE OF APPLIED ARTS AND TECHNOLOGY**

**SAULT STE. MARIE, ONTARIO**

Sault College

**COURSE OUTLINE**

**COURSE TITLE:** Electrical / Electronic and Emission Systems

**CODE NO. :** AST608 **LEVEL:** 1

**PROGRAM:** Automotive Service Technician Apprenticeship  
(6067)

**AUTHOR:** Jamie Schmidt

**DATE:** June 2009 **PREVIOUS OUTLINE DATED:** June 08

**APPROVED:**

*"Corey Meunier"*

CHAIR

\_\_\_\_\_  
DATE

**TOTAL CREDITS:** 12

**PREREQUISITE(S):**

**HOURS/WEEK:**

**Copyright ©2009 Sault College of Applied Arts & Technology**

*Reproduction of this document by any means, in whole or in part, without prior written permission of Sault College of Applied Arts & Technology is prohibited.*

*For additional information, please contact Corey Meunier, Chair  
School of The Natural Environment, Technology & Skilled Trades  
(705) 759-2554, Ext. 2610*

**I. COURSE DESCRIPTION:**

Students completing this course will gain a working knowledge of the purpose, principles of operation and applications of electrical and electronic concepts. Students will be introduced to electrical diagnostic equipment and procedures.

Intake and exhaust systems will be covered as well as an introduction to gasoline and diesel fuel systems. Vehicle emissions and emission control systems will be studied.

The curriculum for AST Level I apprenticeship training and has been approved by the Ministry of Training, Colleges and Universities.

**II. LEARNING OUTCOMES AND ELEMENTS OF THE PERFORMANCE:**

Upon successful completion of this course, the student will demonstrate the ability to:

**1. *Demonstrate a working knowledge of the purpose, principles of operation and applications of electrical concepts.***

***Demonstrate a working knowledge of the purpose, construction and principles of operation of electromagnetic devices.***

***Demonstrate a working knowledge of the purpose, construction and applications of electronic devices.***

Potential Elements of the Performance:

- Define the purpose, fundamentals and principles of electricity.
- Describe the application of electrical concepts.
- Define the purpose and fundamentals of electromagnetic devices.
- Describe the construction, types, styles and application of electromagnetic devices.
- Explain the principles of operation of electromagnetic devices.

**2. *Demonstrate a working knowledge of the purpose, construction, principles of operation, performing inspection and testing of diagnostic test equipment.***

Potential Elements of the Performance:

- Define the purpose and fundamentals of diagnostic test equipment
- Describe the construction, types and application of diagnostic test equipment.
- Explain the principles of operation of diagnostic test equipment.
- Perform inspection and testing procedures using diagnostic

test equipment following manufacturers' recommendations.

- Define the purpose and fundamentals of electronics.
- Describe the function, construction and application of electronic devices.

**3. *Demonstrate a working knowledge of the purpose, construction, principles of operation, inspection and testing for batteries.***

Potential Elements of the Performance:

- Define the purpose and fundamentals of batteries.
- Describe the construction, types, styles and application of batteries.
- Explain the principles of operation of batteries.
- Perform inspection and testing procedures on batteries following manufacturers' recommendations.
- Perform assigned operations on batteries following manufacturers' recommendations.

**4. *Demonstrate a working knowledge of performing circuit calculations to verify Ohm's, Watts and Kirchhoff's Laws.***

Potential Elements of the Performance:

- Define the purpose and fundamentals of electrical circuits.
- Describe the function, construction and application of electrical circuits.
- Perform circuit calculations to verify Ohm's, Watts and Kirchhoff's Laws.
- Perform assigned operations with meters for voltage, amperage and resistance tests.

**5. *Demonstrate a working knowledge of the application of wiring schematics, locating electrical components and tracing electrical circuits.***

***Demonstrate a working knowledge of the purpose, construction, principles of operation of circuit protection devices and their inspection and testing.***

Potential Elements of the Performance:

- Define the purpose and fundamentals of electrical wiring schematics.
- Describe the function, construction, styles and application of manufacturers' wiring diagrams.
- Locate electrical components and trace electrical circuits of vehicle systems with the prescribed manufacturers' wiring diagrams.
- Describe the construction, types and application of circuit repair and protection devices.
- Explain the principles of operation of circuit protection devices.

- Perform inspection and testing procedures on circuit repair and protection devices with the prescribed service tools and equipment following manufacturers' recommendations.

6. ***Demonstrate a working knowledge of the purpose, function and properties of fuels and the combustion of fuels.  
Demonstrate a working knowledge of the purpose, construction, principles of operation, inspection and testing for intake and exhaust systems.  
Demonstrate a working knowledge of the purpose, construction, applications of emission control systems. Locate and identify emission control components.***

Potential Elements of the Performance:

- Define the purpose and fundamentals of fuels.
- Describe the function, composition and properties of fuels.
- Explain the combustion principles of fuels.

**III. TOPICS:**

1. ELECTRICAL FUNDAMENTALS, ELECTROMAGNETIC DEVICE FUNDAMENTALS, ELECTRICAL / ELECTRONIC DIAGNOSTIC TEST EQUIPMENT, ELECTRICAL CIRCUIT CALCULATION
2. BATTERY FUNDAMENTALS, AND TESTING
3. APPLIED ELECTRICAL SCHEMATICS
4. CIRCUIT REPAIR AND PROTECTION DEVICES
5. FUEL SYSTEM FUNDAMENTALS, INTAKE AND EXHAUST SYSTEMS, EMISSION CONTROL SYSTEMS
6. DIESEL FUEL SYSTEMS

**IV. REQUIRED RESOURCES/TEXTS/MATERIALS:**

**Automotive Technology**  
A Systems Approach

**V. EVALUATION PROCESS/GRADING SYSTEM:**

Theory Testing	60%
Practical Application Exercises	30%
Notebook and Organizational Skills	10%

The following semester grades will be assigned to students:

<b>Grade</b>	<b><u>Definition</u></b>	<i>Grade Point Equivalent</i>
A+	90 – 100%	4.00
A	80 – 89%	
B	70 - 79%	3.00
C	60 - 69%	2.00
D	50 – 59%	1.00
F (Fail)	49% and below	0.00
CR (Credit)	Credit for diploma requirements has been awarded.	
S	Satisfactory achievement in field /clinical placement or non-graded subject area.	
U	Unsatisfactory achievement in field/clinical placement or non-graded subject area.	
X	A temporary grade limited to situations with extenuating circumstances giving a student additional time to complete the requirements for a course.	
NR	Grade not reported to Registrar's office.	
W	Student has withdrawn from the course without academic penalty.	

**VI. SPECIAL NOTES:**Course Outline Amendments:

The professor reserves the right to change the information contained in this course outline depending on the needs of the learner and the availability of resources.

Retention of Course Outlines:

It is the responsibility of the student to retain all course outlines for possible future use in acquiring advanced standing at other postsecondary institutions.

Prior Learning Assessment:

Students who wish to apply for advance credit transfer (advanced standing) should obtain an Application for Advance Credit from the program coordinator (or the course coordinator regarding a general education transfer request) or academic assistant. Students will be required to provide an unofficial transcript and course outline related to the course in question. Please refer to the Student Academic Calendar of Events for the deadline date by which application must be made for advance standing.

Credit for prior learning will also be given upon successful completion of a challenge exam or portfolio.

Substitute course information is available in the Registrar's office.

Disability Services:

If you are a student with a disability (e.g. physical limitations, visual impairments, hearing impairments, or learning disabilities), you are encouraged to discuss required accommodations with your professor and/or the Disability Services office. Visit Room E1101 or call Extension 2703 so that support services can be arranged for you.

Communication:

The College considers **WebCT/LMS** as the primary channel of communication for each course. Regularly checking this software platform is critical as it will keep you directly connected with faculty and current course information. Success in this course may be directly related to your willingness to take advantage of the **Learning Management System** communication tool.

Plagiarism:

Students should refer to the definition of “academic dishonesty” in *Student Code of Conduct*. A professor/instructor may assign a sanction as defined below, or make recommendations to the Academic Chair for disposition of the matter. The professor/instructor may (i) issue a verbal reprimand, (ii) make an assignment of a lower grade with explanation, (iii) require additional academic assignments and issue a lower grade upon completion to the maximum grade “C”, (iv) make an automatic assignment of a failing grade, (v) recommend to the Chair dismissal from the course with the assignment of a failing grade. In order to protect students from inadvertent plagiarism, to protect the copyright of the material referenced, and to credit the author of the material, it is the policy of the department to employ a documentation format for referencing source material.

Student Portal:

The Sault College portal allows you to view all your student information in one place. **mysaultcollege** gives you personalized access to online resources seven days a week from your home or school computer. Single log-in access allows you to see your personal and financial information, timetable, grades, records of achievement, unofficial transcript, and outstanding obligations, in addition to announcements, news, academic calendar of events, class cancellations, your learning management system (LMS), and much more. Go to <https://my.saultcollege.ca>.

Electronic Devices in the Classroom:

Students who wish to use electronic devices in the classroom will seek permission of the faculty member before proceeding to record instruction. With the exception of issues related to accommodations of disability, the decision to approve or refuse the request is the responsibility of the faculty member. Recorded classroom instruction will be used only for personal use and will not be used for any other purpose. Recorded classroom instruction will be destroyed at the end of the course. To ensure this, the student is required to return all copies of recorded material to the faculty member by the last day of class in the semester. Where the use of an electronic device has been approved, the student agrees that materials recorded are for his/her use only, are not for distribution, and are the sole property of the College.

Attendance:

Sault College is committed to student success. There is a direct correlation between academic performance and class attendance; therefore, for the benefit of all its constituents, all students are encouraged to attend all of their scheduled learning and evaluation sessions. This implies arriving on time and remaining for the duration of the scheduled session.

It is the departmental policy that once the classroom door has enclosed, the learning process has begun. Late arrivers will not be granted admission to the room.

Eye, Face and Foot Personal Protection Equipment (PPE)

Students are required to wear appropriate Personal Protection Equipment (PPE) in designated areas at all times. The designated areas for eye and foot protection in the Motive Power areas are: C1073 (Automotive), C1000, C1010, and C1040 (Truck/Coach and Heavy Equipment) and C1120 (Marine and Small Engines). Appropriate PPE must also be worn when facing hazards outside of these designated areas.

## Eye Protection:

**All protective eye wear shall meet the requirements of:**

**C.S.A. - Z94.3 or A.N.S.I. - Z87.1 +.**

**Approved safety glasses (lens and frames) shall have side protection such as wrap around design or fixed side shields.**

The minimum acceptable eye protection is a spectacle (class 1A on chart Z94.3). Dark tinted spectacles will not be accepted for general indoor use. Additional eye and face protection is required for specific hazards. Chart Z94.3 outlines the appropriate PPE for specific hazards.

## Foot Protection:

- 1. Boot height- minimum 5 1/2" uppers, measured from the top of the sole.**
- 2. CSA Green Patch rating.**

Safety boots must be properly laced and not be worn or damaged as to impair their effectiveness.
