Course Name

Course Number

PHILOSOPHY/GOALS:

1. Students will understand the purposes of accounting, the nature of an accountant's work and an appreciation of the professional aspects of accounting.
2. Students will understand the basic accounting statements and their purposes.
3. Students will understand and be able to work with the basic books and records used in both service and merchandising businesses.
4. Students will be able to use the bookkeeping techniques required for matching revenues and expenditures and for assigning revenues and expenditures to their correct time periods.
5. Students will be introduced to Balance Sheet classification by the study of the account "Cash" and will also be introduced to accounting controls and studying "Cash Control".
6. This course will prepare the student for additional and in-depth accounting studies.
7. Students will become familiar with the "accounting cycle".

METHOD OF ASSESSMENT (GRADING METHOD):

During the semester students will write 3 one-period tests. The first test will represent 10% of the student's final grade and the other 2 will represent 15% each towards the final grade.

There will be no re-write of these tests. Also, during the semester students will complete 2 practice sets which will represent a total of 15% of the final grade.

At the conclusion of the semester a 2-hour final examination will be held and will be worth 45% of the student's final grade.

METHOD OF ASSESSMENT (GRADING METHOD):

Grades will be assigned as follows:

A+	-	per departmental policy
A	-	85 - 100%
B	-	70 - 84%
*C	-	55 - 69%
R	-	under 55%

* Students with less than a "C" grade but with 40% or more and who have completed their practice sets and assigned work satisfactorily may write a supplementary final exam. This will be on a date determined by the accounting instructors. A mark of 55% or more on the supplementary exam will earn the student a final grade of "C".
