PHILOSOPHY/GOALS:

1. Students will understand the purposes of accounting, the nature of an accountant's work and an appreciation of the professional aspects of accounting.
2. Students will understand the basic accounting statements and their purposes.
3. Students will understand and be able to work with the basic books and records used in both service and merchandising businesses.
4. Students will be able to use the bookkeeping techniques required for matching revenues and expenditures and for assigning revenues and expenditures to their correct time periods.
5. Students will be introduced to Balance Sheet classification by the study of the account "Cash" and will also be introduced to accounting controls and studying "Cash Control".
6. This course will prepare the student for additional and in-depth accounting studies.
7. Students will become familiar with the "accounting cycle".

METHOD OF ASSESSMENT (GRADING METHOD):

During the semester, students will write three tests. The scores achieved will be averaged equally and will amount to 85% of the semester grade. Also, during the semester students will complete two practice sets which will make up 15% of the semester grade.

Final grades will be assigned as follows:

GRADE	AVERAGE MARKS
"A+"	90-100%
"A"	80- 89%
"B"	70- 79%
"C"	55- 69%
"R"	under 55%

MAKE-UP TEST

One make-up test will be given at the end of the semester. This test will cover all the material studied in the semester. It will replace the lowest failed test or one missed test. **A student will qualify to write this only if they attended 80% of the classes and have completed all assignments.**
