OPE300

EVALUATION; (cont'd)

<u>Accuracy</u> - the total number of accurate words typed (total - not per minute rate) will be divided by the number of words typed.

ESTIMATED TIME TO ACHIEVE:

15 periods of 30 minutes each

Note: These timings are given once a week for 30 minutes during a class held in the VAX computer lab.

TOPIC THREE: ANSLEY IN-BASKET SIMULATIONS (MEDIUM DIFFICULTY)

Given in/out-of-class In-Basket work, the student will demonstrate the ability to employ medium levels of cognitive abilities through the completion of accurate finished work using WordPerfect 5.1.

Cognitive abilities include:

- an understanding of assigned task
- using previously learned competencies in new situations
- gathering facts from various sources and determining course of action
- judging which data or action is appropriate for a given situation

LEARNING ACTIVITIES AND APPLICATIONS

Instructor will review and provide ongoing assistance as Ansley House Associates In-Basket simulations are completed. Instructor will provide feedback after In-Baskets have been turned in.

Students are recommended to complete the major portion of In-Basket work in class so instructor can observe work and make last-minute changes (as is normal in the work environment - onus is on student to be aware of any changes). Also, remember that **quality** of finished product will be judged. If material is completed on poor equipment, it will be judged that the student assumes this to be business quality and marks will be deducted accordingly. The majority of In-Basket assignments must be completed using WordPerfect 5.1 word processing software.

EVALUATION

In-Basket work will be evaluated per Work Evaluation Check Sheet(s) in work package and the average of the (5) packets will count towards final mark. The grades for In-Basket assignments will be included with the miscellaneous assignments section worth 45 percent of the final grade. Three tests will also be given consisting of material similar to that contained in the In-Baskets:

- Test #1 Based on In-Baskets 1 and 2
- Test #2 Based on In-Baskets 3 and 4
- Test #3 Based on In-Basket 5
- The three tests represent 50 percent of the final OPE300 mark

ESTIMATED TIME TO ACHIEVE

(40) in-class periods (50-minute periods)

(3) 120-minute test periods

Testing will be done in Room A217, using WordPerfect 5.1.

NOTE: Out-of-class work will be required to complete these in-basket simulations.

Students will then be responsible for transcribing the minutes using an established format.

GUIDELINES RE GRADING

Attendance:

If a student is not able to write a test because of illness or a legitimate emergency, that student <u>must</u> contact the instructor <u>prior</u> to the test and provide an explanation which is acceptable to the instructor (medical certificates or other appropriate proof may be required). In cases where the student has contacted the instructor, and where the reason is not classified as an emergency, i.e. slept in, forgot, etc., the highest achievable grade is a "C". In cases where the student has not contacted the instructor, the student will receive a mark of 0" on that test. **THERE WILL BE NO REWRITES OF TESTS OR QUIZZES.**

The student will demonstrate the ability to attend functions during Semester III {examples listed below).

In the event of an absence, notice (prior or post) shall be given to the instructor. If pre-notice, instructor will indicate acceptance or non-acceptance of cause for absenteeism, Also, valid post-notice should be supported by a record of the student's attempt to contact instructor by one of the following methods: in person, by telephone (school - 759-6774, ext. 487; residence, 779-2925) message left with Secretarial Centre, main switchfaoard operator, or switchboard message recording device (1-min. message may be left between 5:15 p.m. - 8:15 p.m.). OPE300

APPLICATIONS

Group I: - tours/field trips/seminars as arranged by instructor - guest speakers, presentations, etc. - films, videos, slide presentations, (in or out of class)

Group II: - tests

EVALUATION

Attendance will be monitored through the use of absenteeism reports in instructor record book.

- Group I: any absence without authorization or just cause will result in a) the loss of 10 percent of the total semester cumulative mark for miscellaneous assignments or b) preparing a paper relating to the field trip or topic under discussion - particulars to be approved by instructor.
- GROUP II: the highest mark assigned to a delayed test will be a minimum "C" to offset the increased preparation time factor.
 - there will be no opportunity to write tests in advance of the test day. A student who wishes to write in advance will automatically fall into the delayed test category.
- 3. Individual segments of the Miscellaneous Assignments final grade are calculated according to the evaluation procedures listed in the individual objectives for OPE300.
- 4. Marking Deductions:

-5 points for each proofreading, spelling or major format error -2 points each for all other types of errors (poor corrections, alignment problems, word division, minor format errors, run-on sentences, pronoun/contraction errors. -1/2 to -5 points for each punctuation error

5. Due Dates - 100 percent completion of all assignments is expected. Any class assignment submitted 1-5 days after due date* will be subject to a loss of 10 percent of the assignment value. No mark will be assigned after the 5th consecutive day the assignment is late *unless a valid reason is provided in advance to instructor

and instructor approval is received or the instructor deems the reason given after the due date to be a legitimate basis for postponement.

Each student will be required to keep a file in a designated classroom. This will facilitate the return of assignments, grades, and any messages the Office Administration faculty need to relay to the student.
