This course is designed for the Office Administration student who has a prior basic understanding of manual accounting principles and procedures including special journals and subsidiary ledgers. The course will review these basics with the view of converting this knowledge into practices to learn how to maintain a set of books using a popular computerized accounting package in a WINDOWS environment.

II. LEARNING OUTCOMES AND ELEMENTS OF THE PERFORMANCE:

Upon successful completion of this course, the student will demonstrate the ability to:

1. Relate to accounting theory with emphasis on how a computerized system can be used to increase operational efficiencies.

Potential Elements of the Performance:

- recognize and prepare source documents for accounting
- demonstrate the use of special journals
- analyze and prepare posting to General Ledger
- prepare a trial balance
- prepare a balance sheet and an income statement
- Differentiate between transactions requiring further processing to subsidiary ledger and those that do not.
- Maintain and balance both an Accounts Receivable and Accounts Payable subsidiary ledger on a manual system.

This learning outcome will constitute 20 % of the course's grade.

2. Demonstrate an understanding of the layout of a popular automated accounting package (SIMPLY ACCOUNTING) for use in small and medium sized organizations.

Potential Elements of the Performance:

- become familiar with Simply Accounting terminology
- explain the dates used and their significance
- explore the main window and home menu and icons
- identify various ledgers and journal icons
- display the balance sheet and the income statement
- enter data in the general journal
- post to the general ledger
- display posted entries for a range of dates
- save the work on a disk
- backup the data disk

This learning outcome will constitute 15 % of the course's grade.
