20 copies

## Student Objectives :-

The student will be expected to acquire the following skills and knowledge:

1. The factors involved in fiscal and monetary policies and events.
2. The mechanics of Central banking, foreign exchange and international economy.
3. The effects of government fiscal and monetary policies on the corporation.
- ~~4. How the American financial system does affect...~~
4. The basics of the Canadian banking system; including procedure, financial instruments and terminology.

## Method

The course will be developed through lectures, discussions, readings and research.

## Evaluation :-

The student will be evaluated on the basis of achievement of course objectives. Participation in classroom discussions and comprehension of assigned readings as well as satisfactory completion of a research project and two written tests will determine student grades.

|                  |     |
|------------------|-----|
| Participation    | 30% |
| Tests (2)        | 40% |
| Research Project | 30% |

Week

Subject

Material or assignment.
