**VI. SPECIAL NOTES:**

1. Special Needs:  
If you are a student with special needs (e.g. physical limitations, visual impairments, hearing impairments, or learning disabilities), you are encouraged to discuss required accommodations with your instructor and/or the Special Needs office. Visit Room E1204 or call Extension 493 so that support services can be arranged for you.
2. Retention of Course Outlines:  
It is the responsibility of the student to retain all course outlines for possible future use in acquiring advanced standing at other post secondary institutions.
3. Plagiarism:  
Students should refer to the definition of “academic dishonesty” in the “Statement of Student Rights and Responsibilities”. Students who engage in “academic dishonesty” will receive an automatic failure for that submission and/or such other penalty, up to and including expulsion from the course, as may be decided by the professor/dean. In order to protect students from inadvertent plagiarism, to protect the copyright of the material referenced, and to credit the author of the material, it is the policy of the department to employ a documentation format for referencing source material.
4. Course Outline Amendments:  
Substitute course information is available in the Registrar's office.
5. The Professor reserves the right to change the information contained in this course outline depending on the needs of the learner and the availability of resources.
6. Students are expected to be present to write all tests during regularly scheduled classes. In the event of a failed course grade, a supplementary test based on the semester’s work will be administered to the lowest failed test.

7. A disk labeled with the student's, professor's, and the course name MUST be available with the assignment. At the professor's discretion, disks will be checked. Students are advised to maintain at LEAST one backup of all files. A lost or damaged diskette will not be an acceptable reason for a late or incomplete assignment.
8. It is expected that 100 percent of classroom work be completed and submitted on time. A late assignment with an attached Extension form will be accepted if submitted within 72 hours of the due date and time. Twenty-five percent will be deducted from late/incomplete assignments automatically. Failure to follow this procedure will result in a zero grade for the assignment.
9. All work must be labeled with the student's name and the project information on each page. All work must be submitted in a labeled folder complete with a plastic disk pocket.
10. During testing, the program's on-line help may be available. Tests will not be "open book". Students must ensure that they have the appropriate tools to do the test (i.e. diskettes, pencil, pen, etc.).
11. Proofreading is an integral part of this course. Marks will be deducted for all proofreading and spelling errors. Refer to attached departmental grading scheme.
12. Regular attendance is expected to ensure course information is communicated to all students. In-class observation of student work and guidance by the professor aids student success. Lectures will not be repeated in subsequent classes.
13. Test papers will be returned to the student after grading in order to permit verification of the results and to review the tests. However, the student will be required to return all test papers to the instructor who will keep them on file until the end of the next module. Any questions regarding grading of individual tests must be brought to the professor's attention within two weeks of the test paper being returned.
14. Keyboarding proficiency is stressed and is an essential component of this course. Students who are unable to keyboard with a touch type technique are encouraged to use (or purchase) the *All the Right Type* typing tutor software located on the E-wing network and in The Learning Centre.
