Apply a systematic approach to solve problems.<br>#6. Locate, select, organize, and document information using appropriate technology and   |

information systems.  
 #7. Analyze, evaluate, and apply relevant information from a variety of sources.  
 #8. Show respect for the diverse opinions, values, belief systems, and contributions of others.  
 #9. Interact with others in groups or teams that contribute to effective working relationships and the achievement of goals.  
 #10. Manage the use of time and other resources to complete projects.

**Course Evaluation:** Passing Grade: 50%,

**Other Course Evaluation & Assessment Requirements:**  
 A+ = 90-100%  
 A = 80-89%  
 B = 70-79%  
 C = 60-69%  
 D = 50-59%  
 F < 50%

**Evaluation Process and Grading System:**

| Evaluation Type                           | Evaluation Weight |
|---|-------------------|
| Assignments                               | 25%               |
| Final Comprehensive Exam (on all content) | 35%               |
| Tests                                     | 40%               |

**Books and Required Resources:**

Intermediate Accounting Volume 2 PLUS Access Codes by Kieso/Weygandt  
 Publisher: Wiley Publishing Edition: 11  
 ISBN: 978-1-119-04854-1

**Course Outcomes and Learning Objectives:**

### Course Outcome 1.

Analyze and record transactions related to non-financial and current liabilities.

### Learning Objectives 1.

- 1.1 Understand the importance of non-financial and current liabilities from a business perspective.
- 1.2 Define liabilities, distinguish financial liabilities from other liabilities, and identify how they are measured.
- 1.3 Define current liabilities and identify and account for common types of current liabilities.
- 1.4 Identify and account for the major types of employee-related liabilities.
- 1.5 Explain the recognition, measurement, and disclosure requirements for decommissioning and restoration obligations.
- 1.6 Explain the issues and account for unearned revenues.
- 1.7 Explain the issues and account for product guarantees and other customer program obligations.
- 1.8 Explain and account for contingencies and uncertain commitments, and identify the accounting and reporting requirements for guarantees and commitments.
- 1.9 Indicate how non-financial and current liabilities are presented and analyzed.

### Course Outcome 2.

Account for long-term financial liabilities.

### Learning Objectives 2.

- 2.1 Understand the nature of long-term debt financing arrangements.
- 2.2 Understand how to measure and account for long-term debt.
- 2.3 Understand when long-term debt is recognized and derecognized, including how to account for troubled debt restructurings.
- 2.4 Explain how long-term debt is presented on the statement of financial position.
- 2.5 Identify disclosure requirements.
- 2.6 Calculate and interpret key ratios related to solvency and liquidity.

### **Course Outcome 3.**

Apply accounting and reporting practices related to corporations including accounting for contributed capital and retained earnings.

### **Learning Objectives 3.**

- 3.1 Discuss the characteristics of the corporate form of organization.
- 3.2 Identify the rights of shareholders.
- 3.3 Describe the major features of preferred shares.
- 3.4 Explain the accounting procedures for issuing shares.
- 3.5 Explain the accounting for the re-acquisition and retirement of shares.
- 3.6 Explain the accounting for various forms of dividend distributions.
- 3.7 Explain the effects of different types of dividend preferences.
- 3.8 Distinguish between stock dividends and stock splits.
- 3.9 Describe the nature of other components of shareholders' equity.
- 3.10 Indicate how shareholders' equity is presented.
- 3.11 Analyze shareholders' equity.
- 3.12 Identify the major reason for repurchasing shares.

### **Course Outcome 4.**

Identify and discuss the methods of determining the value of earnings per share under different capital structures and the related impact this has on the income statement.

### **Learning Objectives 4.**

- 4.1 Explain why earnings per share (EPS) is an important number.
- 4.2 Determine when and how earnings per share must be presented.
- 4.3 Identify potential common shares.
- 4.4 Calculate earnings per share in a simple capital structure.
- 4.5 Calculate diluted earnings per share using the if-converted and treasury stock method.
- 4.6 Identify antidilutive potential common shares.

### **Course Outcome 5.**

Apply accounting and reporting practices related to complex financial instruments.

### **Learning Objectives 5.**

- 5.1 Describe whether an instrument issued for financing purposes represents a liability, equity, or both.

- 5.2 Explain the accounting for the issuance, conversion and retirement of convertible securities.
- 5.3 Explain what derivatives are and why they exist.
- 5.4 Explain the various types of financial risks, and how they arise.
- 5.5 Explain what options, forwards, and futures are and describe the recognition, measurement and presentation issues for each.
- 5.6 Describe the various types of stock compensation plans.
- 5.7 Explain the differences between employee and compensatory option plans and other options.
- 5.8 Describe the accounting for compensatory stock option plans.

## **Course Outcome 6.**

Analyze and record transactions related to income taxes.

## **Learning Objectives 6.**

- 6.1 Explain the difference between accounting income and taxable income.
- 6.2 Identify the difference between timing and permanent differences and calculate taxable income and current income taxes.
- 6.3 Explain what a taxable temporary difference is and why a deferred tax liability is recognized.
- 6.4 Explain what a deductible temporary difference is and why a deferred tax asset is recognized.
- 6.5 Prepare analyzes of deferred income tax balances and record future income tax expense.
- 6.6 Apply accounting procedures for a tax loss carryback and a tax loss carryforward.

## **Course Outcome 7.**

Analyze and record transactions related to pensions and other employee future benefits.

## **Learning Objectives 7.**

- 7.1 Explain what a defined contribution plan is and what a defined benefit plan is.
- 7.2 Distinguish between accounting for the employer's pension costs and accounting for the pension fund.
- 7.3 Explain what the employer's benefit obligation is and identify alternative measures for valuing this obligation.
- 7.4 Distinguish between accounting for the employer's pension costs and accounting for the pension fund.
- 7.5 Identify transactions and events that change the amount of the employer's accrued benefit obligation and calculate the balance of the obligation.
- 7.6 Identify transactions and events that change the amount of the plan assets and calculate the balance of the asset.
- 7.7 Explain what a benefit plan's funded status is, calculate it, and identify what transactions and events change its amount.
- 7.8 Identify the components of pension expense, and account for a defined benefit pension plan under the immediate recognition approach.
- 7.9 Identify the financial reporting and disclosure requirements for defined benefit plans.

## **Course Outcome 8.**

Analyze and record transactions related to leases.

## **Learning Objectives 8.**

- 8.1 Understand the importance of leases from a business perspective.
- 8.2 Explain the conceptual nature, economic substance, and advantages of lease transactions.
- 8.3 Identify and apply the criteria that are used to determine lessee right-of-use assets under IFRS and leases under ASPE classification approach.
- 8.4 Calculate the lease payment that is required for a lessor to earn a specific return.
- 8.5 Account for right-of-use assets by lessees under IFRS or a capital lease under ASPE.
- 8.6 Determine the effect of, and account for, residual values and purchase options for a lessee right-of-use asset (IFRS) or a capital lease (ASPE).
- 8.7 Account for operating leases by lessees under ASPE (short-term leases and low-value leases under IFRS) and compare the operating and capitalization methods of accounting for leases.
- 8.8 Determine the statement of financial position presentation of right-to-use assets (and ASPE capital leases) and identify other disclosures required.
- 8.9 Identify and apply the criteria that are used to determine the type of lease for a lessor under the classification approach.
- 8.10 Account for and report financing and manufacturer/dealer or sales-type leases by a lessor.
- 8.11 Account for and report operating leases by lessor.

## **Course Outcome 9.**

Identify, analyze and record the various types of accounting changes and errors utilizing the appropriate application method.

## **Learning Objectives 9.**

- 9.1 Identify and differentiate among the types of accounting changes.
- 9.2 Identify and explain alternative methods of accounting for accounting changes.
- 9.3 Identify the accounting standards for each type of accounting change under ASPE and IFRS.
- 9.4 Apply the retrospective application method of accounting for a change in accounting policy and correction of an accounting error and identify disclosure requirements.
- 9.5 Apply the prospective application method for an accounting change and identify the disclosure requirements for change in an accounting estimate.
- 9.6 Identify economic motives for changing accounting methods and interpret financial statements where there have been retrospective changes to previously reported results.

## **Course Outcome 10.**

Prepare, interpret and analyze the statement of cash flows.

## **Learning Objectives 10.**

- 10.1 Understand the business importance of cash flows and describe the purpose and uses of the statement of cash flows.
- 10.2 Define cash and cash equivalents.
- 10.3 Identify the major classifications of cash flows and explain the significance of each classification.
- 10.4 Prepare a statement of cash flows using the direct method.
- 10.5 Prepare a statement of cash flows using the indirect method.
- 10.6 Prepare a more complex statement of cash flows using both methods.

10.7 Identify the financial presentation and disclosure requirements for the statement of cash flows.

10.8 Read and interpret a statement of cash flows.

### **Course Outcome 11.**

Discuss other financial statement and disclosure methods.

### **Learning Objectives 11.**

11.1 Review the full disclosure principle and describe problems of implementation.

11.2 Explain the use of accounting policy notes in financial statement preparation.

11.3 Describe the disclosure requirements for major segments of a business.

11.4 Describe the accounting problems associated with interim reporting.

11.5 Discuss the accounting issues for related-party transactions.

11.6 Identify the difference between the two types of subsequent events.

11.7 Identify issues related to financial forecasts and projections.

**Date:**

Friday, March 16, 2018
