Books and Required Resources:	Introduction to Psychology by Rod Plotnik and Haig Kouyoumdjian Publisher: Nelson Education Canada Edition: 10th ISBN: 9781133939535		
Course Outcomes and Learning Objectives:	Upon successful completion of this course, the CICE student, with the assistance of a Learning Specialist will acquire varying levels of skill development relevant to the following learning outcomes:		
	Course Outcome 1.		

Evaluate research methods

Learning Objectives 1.

- · Discuss the different perspectives from which psychologists examine behavior and mental processes
- Explain the importance of proper sampling and ethics in research
- · Contrast case study, survey, naturalistic observation, correlation, and experimental methods

Course Outcome 2.

Describe the neural and hormonal systems

Learning Objectives 2.

- Describe the structure of neurons and explain how they communicate
- · Identify the major divisions of the nervous system and describe their functions
- · Describe the nature and function of the endocrine system
- · Identify the structures of the brain and discuss their respective functions

Course Outcome 3.

Prepared: Social Sciences Department Approved: Martha Irwin

Contrast processes of sensation and perception

Learning Objectives 3.

- · Describe the senses of vision hearing touch taste smell and the movement and position of the body
 - Explain the basic principle of perceptual organization
- State the claims of ESP and explain why research psychologists remain sceptical

Course Outcome 4.

Describe various states of consciousness

Learning Objectives 4.

- · Discuss the nature of consciousness
- · Describe the cyclical nature, functions and disorders of sleep
- · Identify the content and functions of dreams and day dreams
- Explain the nature and uses of hypnosis
- · Describe the physiological and psychological effects of specific drugs and the factors that contribute to their use

Course Outcome 5.

Compare learning methods

Learning Objectives 5.

- Explain the processes of classical conditioning including acquisition, extinction, spontaneous recovery, generalization and discrimination
- Explain the processes of operant conditioning including shaping, extinction and reinforcement.
 - · Discuss the effects of punishment on behavior
- · Explain cognitive learning theory

Prepared: Social Sciences Department Approved: Martha Irwin

Course Outcome 6.

Discuss basic concepts of motivation

Learning Objectives 6.

- · Identify several theories of motivation
- · Contrast extrinsic and intrinsic achievement motivation

Course Outcome 7.

Compare theories of personality development

Learning Objectives 7.

- Describe the psychoanalytical, trait, humanistic and social-cognitive perspectives on personality and evaluate their strengths and weaknesses
- Examine the techniques utilized to assess personality

Course Outcome 8.

Describe various psychological disorders and their treatment

Learning Objectives 8.

- Discuss the prevalence of psychological disorders and the controversy surrounding the use of diagnostic labels
 - · Compare and contrast the current perspectives on the causes of abnormal behaviour
- Describe the causes, symptoms and treatment of anxiety, somatoform, dissociative, mood, schizophrenia personality, cognitive and sexual and gender identity disorders
 - Evaluate the effectiveness of the major psycho-therapies and biomedical therapies

CICE Modifications:

Preparation and Participation

1. A Learning Specialist will attend class with the student(s) to assist with inclusion in the class

Prepared: Social Sciences Department Approved: Martha Irwin

and to take notes.

- 2. Students will receive support in and outside of the classroom (i.e. tutoring, assistance with homework and assignments, preparation for exams, tests and guizzes.)
- 3. Study notes will be geared to test content and style which will match with modified learning outcomes.
- 4. Although the Learning Specialist may not attend all classes with the student(s), support will always be available. When the Learning Specialist does attend classes he/she will remain as inconspicuous as possible.

A. Further modifications may be required as needed as the semester progresses based on individual student(s) abilities and must be discussed with and agreed upon by the instructor.

B. Tests may be modified in the following ways:

- 1. Tests, which require essay answers, may be modified to short answers.
- 2. Short answer questions may be changed to multiple choice or the question may be simplified so the answer will reflect a basic understanding.
- 3. Tests, which use fill in the blank format, may be modified to include a few choices for each question, or a list of choices for all questions. This will allow the student to match or use visual clues.
- 4. Tests in the T/F or multiple choice format may be modified by rewording or clarifying statements into layman's or simplified terms. Multiple choice questions may have a reduced number of choices.

C. Tests will be written in CICE office with assistance from a Learning Specialist.

The Learning Specialist may:

- 1. Read the test question to the student.
- 2. Paraphrase the test question without revealing any key words or definitions.
- 3. Transcribe the student's verbal answer.
- 4. Test length may be reduced and time allowed to complete test may be increased.

D. Assignments may be modified in the following ways:

- 1. Assignments may be modified by reducing the amount of information required while maintaining general concepts.
- 2. Some assignments may be eliminated depending on the number of assignments required in the particular course.

Prepared: Social Sciences Department Approved: Martha Irwin

The Learning Specialist may:			
1. Use a question/answer format instead of essay/research format 2. Propose a reduction in the number of references required for an assignment 3. Assist with groups to ensure that student comprehends his/her role within the group 4. Require an extension on due dates due to the fact that some students may require additional time to process information 5. Formally summarize articles and assigned readings to isolate main points for the student 6. Use questioning techniques and paraphrasing to assist in student comprehension of an assignment			
E. Evaluation:			
Is reflective of modified learning outcomes.			
NOTE: Due to the possibility of documented medical issues, CICE students may require alternate methods of evaluation to be able to acquire and demonstrate the modified learning outcomes			
Wednesday, September 6, 2017			
Please refer to the course outline addendum on the Learning Management System for further information.
