

I. COURSE DESCRIPTION:

To provide CICE students with a basic working knowledge of the theory behind the procedures that are used in the heat treating and machining of carbon steels, aluminum and its alloys. Practical lab/shop activities will be used to enhance and/or demonstrate theoretical concepts where possible.

II. LEARNING OUTCOMES AND ELEMENTS OF THE PERFORMANCE:

Upon successful completion of this course, the CICE student, with the assistance of a Learning Specialist will demonstrate the basic ability to:

1. *Understand Metals and Alloys*Potential Elements of the Performance:

- Identify and describe properties of metals and alloys
- Identify and describe the effects of temperature on metals and alloys.

2. *Define the following properties of metals and alloys:*Potential Elements of the Performance:

- Define and describe each of the following mechanical and physical properties and / or terms:
 - Elasticity
 - Yield Point / Strength
 - Tensile ,Compressive, Shear, Bearing strength
 - Conductivity
 - Corrosion
 - Ductility
 - Malleability
 - Hardness
 - Impact Strength
 - Temperature effects

3. *Describe the purpose for adding the following to steel:*Potential Elements of the Performance:

- Carbon
- Sulphur
- Phosphorus
- Silicon
- Manganese
- copper

4. *Identify and describe the uses of non-metallic materials:*

Potential Elements of the Performance

- rubber
- plastic
- nylon

5. Bolts, Fasteners and Gasket MaterialsPotential Elements of the Performance:

- Identify the types, applications and qualities of fasteners including
 - Unified - American - National - Acme
 - Metric and Pipe thread systems
- Identify and select bolts, nuts, clips, chemical fasteners and adhesives as well as their potential use and application
- Describe methods of securing machinery and components using bolts, anchors, fasteners, grouting and epoxy resins

III. TOPICS:

1. Metals and Alloys
2. Mechanical and physical Properties of Metals
3. Additive materials in steel
4. Non-metallic materials
5. Bolts, Fasteners and Gasket Materials

IV. REQUIRED RESOURCES/TEXTS/MATERIALS:

Machining Fundamentals, Millwright Manual, Handouts/Resource Material

V. EVALUATION PROCESS/GRADING SYSTEM:

Tests	70%
Assignments	20%
Student personal performance	10%

(Attendance, performance, attitude (Will be explained in detail in class)

Note: 1% of final mark deducted for every inexcusable missed hour of class.)

The following semester grades will be assigned to students in other than post-secondary courses:

<u>Grade</u>	<u>Definition</u>	<u>Grade Point Equivalent</u>
A+	90 - 100%	4.00
A	80 - 89%	4.00
B	70 - 79%	3.00
C	60 - 69%	2.00
D	50 - 59%	1.00
F (fail)	49% and below	0.00
CR (Credit)	Credit for diploma requirements has been awarded.	
S	Satisfactory achievement in field /clinical placement or non-graded subject area.	
U	Unsatisfactory achievement in field/clinical placement or non-graded subject area.	
X	A temporary grade limited to situations with extenuating circumstances giving a student additional time to complete the requirements for a course.	
NR	Grade not reported to Registrar's office.	
W	Student has withdrawn from the course without academic penalty.	

If a faculty member determines that a student is at risk of not being successful in their academic pursuits and has exhausted all strategies available to faculty, student contact information may be confidentially provided to Student Services in an effort to offer even more assistance with options for success. Any student wishing to restrict the sharing of such information should make their wishes known to the coordinator or faculty member.

VI SPECIAL NOTES:Attendance:

Sault College is committed to student success. There is a direct correlation between academic performance and class attendance; therefore, for the benefit of all its constituents, all students are encouraged to attend all of their scheduled learning and evaluation sessions. This implies arriving on time and remaining for the duration of the scheduled session.

It is the departmental policy that once the classroom door has enclosed, the learning process has begun. Late arrivers will not be granted admission to the room.

VII. COURSE OUTLINE ADDENDUM:

The provisions contained in the addendum located in D2L and on the portal form part of this course outline.

Addendum:

Further modifications may be required as needed as the semester progresses based on individual student(s) abilities and must be discussed with and agreed upon by the instructor.

CICE Modifications:**Preparation and Participation**

1. A Learning Specialist will attend class with the student(s) to assist with inclusion in the class and to take notes.
2. Students will receive support in and outside of the classroom (i.e. tutoring, assistance with homework and assignments, preparation for exams, tests and quizzes.)
3. Study notes will be geared to test content and style which will match with modified learning outcomes.
4. Although the Learning Specialist may not attend all classes with the student(s), support will always be available. When the Learning Specialist does attend classes he/she will remain as inconspicuous as possible.

A. Tests may be modified in the following ways:

1. Tests, which require essay answers, may be modified to short answers.
2. Short answer questions may be changed to multiple choice or the question may be simplified so the answer will reflect a basic understanding.
3. Tests, which use fill in the blank format, may be modified to include a few choices for each question, or a list of choices for all questions. This will allow the student to match or use visual clues.
4. Tests in the T/F or multiple choice format may be modified by rewording or clarifying statements into layman's or simplified terms. Multiple choice questions may have a reduced number of choices.

B. Tests will be written in CICE office with assistance from a Learning Specialist.***The Learning Specialist may:***

1. Read the test question to the student.
2. Paraphrase the test question without revealing any key words or definitions.
3. Transcribe the student's verbal answer.
4. Test length may be reduced and time allowed to complete test may be increased.

C. Assignments may be modified in the following ways:

1. Assignments may be modified by reducing the amount of information required while maintaining general concepts.
2. Some assignments may be eliminated depending on the number of assignments required in the particular course.

The Learning Specialist may:

1. Use a question/answer format instead of essay/research format
2. Propose a reduction in the number of references required for an assignment
3. Assist with groups to ensure that student comprehends his/her role within the group
4. Require an extension on due dates due to the fact that some students may require additional time to process information
5. Formally summarize articles and assigned readings to isolate main points for the student
6. Use questioning techniques and paraphrasing to assist in student comprehension of an assignment

D. Evaluation:

Is reflective of modified learning outcomes.
