SAULT COLLEGE OF APPLIED ARTS AND TECHNOLOGY					
SAULT STE. MARIE, ONTARIO					
SAULT COLLEGE					
COURSE OUTLINE					
COURSE TITLE:	Building and	Construction Estimating			
CODE NO. :	ARC 101	SEMESTER:	2		
PROGRAM:	Civil Engine Construction	ering Technician Carpentry Techniques			
AUTHOR:	Barry Sparro	w			
DATE:	January	PREVIOUS OUTLINE DATED:	January		
APPROVED:	2014 "	Corey Meunier"	2013		
		CHAIR	DATE		
TOTAL CREDITS:	5				
PREREQUISITE(S):	none				
HOURS/WEEK:	4

### I. COURSE DESCRIPTION:

This course introduces the student to the fundamental principles of construction estimating. The topics covered will deal with the measurement of construction work, reading construction documents (prints and specifications) as well as records management. Emphasis is placed on estimating site work, concrete, masonry, steel and wood, using detailed and systematic methods. Computer-based spreadsheets will be used to prepare estimates and assignments. Students will learn to assemble and sort estimate information for a complex project in a logical and manageable manner and develop organizational and time management skills. Students will also become familiar with issues relating to construction waste management and reduction as well as environmental controls as it relates to construction estimating.

#### II. LEARNING OUTCOMES:

- 1. Assist in preparing construction specifications, material and cost estimates.
- 2. Assist in planning, scheduling and monitoring construction and civil engineering projects.
- 3. Apply sound environmental practices and policies in civil engineering/construction projects.
- 4 Demonstrate relevant mathematical, computer and technical problem solving skills as it relates to civil engineering/construction projects.
- 5 Demonstrate an understanding of the working roles and inter-relationships required to adhere to the objectives of the project and work in accordance to labour-management principles and practices.

#### III. REQUIRED RESOURCES/TEXTS/MATERIALS:

<u>Estimating in Building Construction</u> Frank R. Dagostino/Leslie Feigenbaum/Clint Kissoon Canadian Edition Pearson Prentice Hall T ISBN 978-0-13-223137-4

#### IV. EVALUATION PROCESS/GRADING SYSTEM:

Assignments and Activities (8	-10) 50%
Mid-term Test	25%
Final Test	25%
Total	100%

The following semester grades will be assigned to students:

Grade	Definition	Grade Point Equivalent
A+	90 – 100%	4.00
Α	80 - 89%	4.00
В	70 - 79%	3.00
С	60 - 69%	2.00
D	50 – 59%	1.00
F (Fail)	49% and below	0.00
CR (Credit)	Credit for diploma requirements has been awarded.	
S	Satisfactory achievement in field /clinical	

J placement or non-graded subject area. Unsatisfactory achievement in

- U Unsatisfactory achievement in field/clinical placement or non-graded subject area.
- X A temporary grade limited to situations with extenuating circumstances giving a student additional time to complete the requirements for a course.
- NR Grade not reported to Registrar's office. W Student has withdrawn from the course

without academic penalty.

#### V. SPECIAL NOTES:

#### Attendance:

Sault College is committed to student success. There is a direct correlation between academic performance and class attendance; therefore, for the benefit of all its constituents, all students are encouraged to attend all of their scheduled learning and evaluation sessions. This implies arriving on time and remaining for the duration of the scheduled session. Late arrivers may not be granted admission to the room.

#### Assignments and Examination Policy:

If a student is unable to write a test or exam at the scheduled time the following procedure shall apply:

- The student shall provide the professor with advance notice (in writing) of the need to miss the test
- The student shall provide documentation as to the reason for the absence and the make-up will be at the discretion of the professor.
- Upon return the student is responsible to make arrangements for the writing of the test. This arrangement shall be made prior to the next schedule class.
- In the event of an emergency, the student shall telephone the professor as soon as possible at 759-2554, to notify of the absence.
   If the professor is not available, the college has a 24 hour voice mail system.
- In the event of an test missed due to emergency, the student shall provide documentation from a professional such as doctor or lawyer.
- The student shall write both the mid-term and final exams to be eligible to pass the course.

All late assignments (without documentation) will receive a maximum grade of C (60%). Assignments more than one week late may receive a grade of zero.

## VII. COURSE OUTLINE ADDENDUM:

The provisions contained in the addendum located on the portal form part of this course outline.

# VI. TOPIC OUTLINE

Outcome		Topic and Content	Reading	Week
1,4	1.	<ul> <li>Estimating Mathematics and Measurement</li> <li>1.1. Plane geometry formulas</li> <li>1.2. Volume formulas</li> <li>1.3. Sample calculations and assignment</li> <li>1.4. SI units in construction</li> <li>1.5. Assignment 1 – Math Review</li> </ul>	LMS Handout	1
1,2,5,3	2.	<ul> <li>Estimating Strategies and Organization</li> <li>2.1. Types of estimates</li> <li>2.2. Direct and indirect costs</li> <li>2.3. Waste reduction and management strategies</li> <li>2.4. Developing a work breakdown from drawings and specifications</li> <li>2.5. Organizing using the CSI format</li> <li>2.6. Estimates and contract types</li> <li>2.7. Bid Documents and bidding procedures</li> </ul>	Chapter 1 Chapter 2 Chapter 3 LMS Handout	2
1,4	3.	<ul> <li>Using Computers and Spreadsheets in Estimating</li> <li>3.1. Computer-based estimating and bidding</li> <li>3.2. Spreadsheet Overview – Workbooks and Worksheets</li> <li>3.3. Formatting and forms</li> <li>3.4. Formulas</li> <li>3.5. Using goal seek</li> </ul>	Chapter 19 LMS Handout	3,4
1,4	4.	<ul> <li>Estimating Earth and Site Work</li> <li>4.1. Contour and spot elevation review</li> <li>4.2. Calculating cut and fill volumes (grid method)</li> <li>4.3. Calculating volumes (average end area method)</li> <li>4.4. Balancing cut and fill using goal seek</li> <li>4.5. Estimating general excavation and material handling volumes</li> <li>4.6. Estimating tonnage for asphalt paving</li> <li>4.7. Environmental considerations for earthwork</li> </ul>	Chapter 8 LMS Handout	5,6
1,4	5.	Estimating Reinforced Concrete 5.1. Review of types of concrete work	Chapter 9 LMS Handout	7

Building and Construction Estimating

Outcome		Topic and Content	Reading	Week
		<ul><li>5.2. Using the 'centre line length' concept</li><li>5.3. Formwork estimation (footings, walls, slabs)</li><li>5.4. Concrete accessories and finishing</li><li>5.5. Estimating reinforcing steel</li></ul>		
	6.	Mid-term Exam		8
1,4	7.	Estimating Masonry	Chapter 10 LMS	9
		<ul><li>7.1. Review of types of masonry construction</li><li>7.2. Estimating concrete block</li><li>7.3. Estimating brick</li><li>7.4. Masonry accessories</li><li>7.5. Scaffolding requirements</li></ul>	Handout	
1,4	8.	Estimating Steel and Metals	Chapter 11	10
		<ul><li>8.1. Estimating structural steel</li><li>8.2. Estimating steel joists and deck</li><li>8.3. Miscellaneous metals</li></ul>	LIVIO	
1,4	9.	Estimating Wood	Chapter 12 LMS	11,12
		<ul> <li>9.1. Review of wood frame construction</li> <li>9.2. Estimating floor and platform framing</li> <li>9.3. Estimating frame wall construction</li> <li>9.4. Estimating roof framing and trusses</li> <li>9.5. Estimating panel area quantity</li> <li>9.6. Using roof factors to determine slope length</li> </ul>	Handout	
1,4	10.	Estimating Thermal and Moisture Protection	Chapter 13 LMS	13
		<ul><li>10.1. Review foundation waterproofing and damp-proofing</li><li>10.2. Estimating asphalt shingles</li><li>10.3. Estimating membrane roofing</li><li>10.4. Estimating foundation, roof and wall insulation</li></ul>	Handout	
1,4	11.	Estimating Doors, Windows and Finishes	Chapter 14 LMS	14
		<ul><li>11.1. Residential doors and windows</li><li>11.2. Curtain wall frame and window systems</li><li>11.3. Estimating hardware and accessories</li><li>11.4. Estimating finishes (walls, floors and ceilings)</li></ul>		

12. Final Exam

15
