PROGMM: MENTAL RETARDATION COUNSELLOR

COURSE TITLE: Mental Retardation II

COURSE NUMBER: MRC 201

INSTRUCTOR: Karen Cameron

Part I

Course Philosophy

This course is designed to give the student an understanding of the mentally retarded in relation to today's society. With the trends of normalization and the focus on the needs of the mentally retarded, it is important that the M.R.C. student view the influences in the communit and the services available to meet these needs. This environmental awareness will facilitate the student's ability to improve the quality of living for the developmentally handicapped in his environment.

Part II

Course Goals

This course will study the relationship of the retarded to his family, peers and community and his position to these at various levels of development. Content will include sociological influences affecting the mentally retarded. The principles of normalization, institutionalization, the rights and laws, and comprehensive services will be investigated. Present day areas of controvery dealing with marriage and euthanasia are discussed in relation to developmentally handicapped people.

Part III

Terminal/Behavioural Objectives

- A. The students will develop an understanding of the needs of the mentally retarded person and his family.
- B. The students will be able to compare traditional institutional service to developmental models.
- C. The students will be able to identify problems that occur with institutional change.
- D. The students will be able to analyze the normalization process.
- E. The students will have an orientation to the laws which affect the developmentally handicapped.
- F. The students will be able to discuss both the myths and society's attitude toward sexuality and mental retardation.
