Field placement provides the student with exposure to real life situations. It enables them to gain self-confidence in their abilities, become aware of their motivations, and share experiences with professionals in various disciplines involved with caring for and teaching both emotional growth and physical health.  - c) Help the student evaluate his own work and attitudes in specific situations and with particular children.
2. To improve the student's observation skills and the way in which his/her observations are communicated.
3. Demonstrate the ability to identify and use professional development resources and activities which promote professional growth.
