- A. Students must maintain a weekly "diary" on their progress through the placement. Students are required to supply a notebook for this purpose. Diary needs to be signed weekly by placement supervisor.
- B. Personal and performance objectives will be established with the instructor and in accordance with the CSAC guidelines. The agency supervisor will be aware of the expectations and will have considerable input into the evaluation process.
- C. Students will be required to maintain College Placement time sheets. This procedure will be explained in class.
- D. Regular supervision meetings with the student, agency supervisor, and instructor will afford the opportunity to monitor the individual student's progress. The instructor will also be prepared to use this opportunity to demonstrate such things as treatment methodologies, methods of professional conduct, or treatment theories as applicable to the situation.
- E. Students will be required to complete the compendium of skills as part of a self-evaluation.
- F. Students are expected to comply with the CYW Code of Ethics

Following are a number of rules pertaining to the student's relationship to the field placement location he or she will be working in. It is imperative that each student comprehend fully and follow closely these rules so as to get the maximum educational value from his or her field placement experience.

1. Find out all you can about your field placement setting, its policies, functions, and general philosophy taking care to ask pertinent questions.
2. Find out your designated role at your field placement location and follow it well. Remember, you are not on field placement in the capacity of diagnosticians but as students to follow through on the instruction of the field contact personnel. New approaches to your assignments must first be approved by the field contact.
3. Do not be afraid to ask the staff for guidance. Do not plunge into something you know nothing about.
4. Be polite, courteous, and attentive. Remember, you are there to learn, observe, and work.

5. Try to avoid premature judgmentalism on the program carried out by a specific field placement setting. Remember you are a student learning and not someone there to assess the relative merits of the program. Be careful about being openly critical. Concerns of the service delivery can be discussed in the confidence of the supervision meeting, or with the instructor.
6. Dress and personal deportment are according to acceptable norms of the placement setting.
7. Be willing to share any pertinent information you have learned in the setting with the staff who work there.
8. Any problems encountered in your field placement should be taken to your field work supervisor. Never confront the staff with the problem in front of clients - wait for a private, appropriate time. Be diplomatic.
9. Make sure you are always on time for your placement and contact the field work supervisor and the field placement well in advance if it is necessary for you to be absent.
10. Remember that the experiences you have in your field placement are part of a learning experience and are to be held in the strictest confidence. The students will not discuss cases with others who have no direct relationships to the client. This is applied to other staff within your field placement as well as to any correspondence that is accessible to you.
