Assignments:

Refer to the description and grading criteria for each of the course requirements distributed under separate cover.

1. Creative Scrounge:

Budgetary constraints in Child and Youth Work settings have implications on the number of arts and crafts material available. This lack of material need not impact significantly on a therapeutic A & C program. The purpose of this assignment is to provide the experience of working with inexpensive materials, cast-offs, etc.

Students are responsible for "scrounging" enough material for all participants and then leading the activity. Students are also responsible for discussion and clean up following the activity.

The student must identify the therapeutic value of both the content and process of the activity and submit same along with a written self evaluation within a week of conducting the activity.

2. Therapeutic Aid

Each student will construct and present a therapeutic aid to be utilized in a play therapy context. Aids may include self designed puppets, toys, posters, games etc. which have therapeutic applications (helping children to explore emotions, learn problem solving strategies, facilitate self disclosure, teach survival skills etc.) Due date will be provided in class.

3. Gym Activities:

In pairs, students will plan and lead a 40-minute gym session. The requirement for this also includes attention to therapeutic values.

4. Session Plan:

Each student will prepare a detailed session plan as part of an overall program initiative. Details will be provided in class. Due in March – date to be announced.

5. Paper:

Students will write a paper on recreation theory and text material. Date to be announced. Further instructions will be provided in class.

6. Children's Literature Presentation:

Participants will work in small groups to present a sample and discussion of the therapeutic value of children's literature.

In order to protect students from inadvertent plagiarism, to protect the copyright of the material referenced, and to credit the author of the material, it is the policy of the department to employ a documentation format for referencing source material.
