I. COURSE DESCRIPTION

Upon successful completion of the reportable subject, the student is able to demonstrate a working knowledge of basic food theory in preparation of the practical application of culinary techniques.

II LEARNING OUTCOMES AND ELEMENTS OF THE PERFORMANCE

Upon successful completion of this course, the student will demonstrate the ability to:

1. **Demonstrate a working knowledge of cookery fundamentals** <u>Potential Elements of the Performance:</u>

- Define the meaning and purpose of cookery fundamentals
 - List and describe major cooking methods and categorize under moist heat, dry heat
 - Describe the three ways of applying heat in cooking
- Describe vegetable cuts and their uses:
 - Julienne
 - Brunoise
 - Macédoine
 - Bâton-bâtonnet
 - Jardinière
 - Paysanne
 - Diced onion
 - Sliced onion
 - Onion ring
 - Turned vegetables
- Describe flavouring vegetables and their uses
- Describe the composition of flavouring agents and their uses
 - Mirepoix
 - Bouquet garni
 - Sachet
 - Matignon
 - Onion pique
- List and define elementary culinary terms
- Describe a short order station mise-en-place
 - List and identify major order items
 - Describe the production management required for quantity sandwich making
 - Describe hot and cold sandwiches

2. Demonstrate a working knowledge of principles of preparing stocks & soups

Potential Elements of the Performance:

• List and describe various aromatics and their use in the kitchen

- Describe the main differences between potherbs and culinary spices
- Describe storage procedures
- Differentiate 15 of the most common herbs and spices and their uses
- List and describe the principles of basic stock cookery
 - Describe the methods of preparing:
 - Fonds brun (estouffade)
 - Fonds de volaille
 - Fumet de poisson
 - Describe the use of vegetable and game stocks
 - Describe the cooling and storage principles of stocks and discuss various substitutes
 - Define essence and glaze as applied to stock cookery
- List and describe thickening agents, their preparation and uses
 - Roux (white, blonde, brown)
 - Butter
 - Beurre manié
 - Liaison
 - Cream
 - Starch
- List and describe soups according to category and appropriate serving techniques
 - Clear, purée and cream, specialty/international
 - Describe the storage of soups to maintain quality and avoid bacterial growth
 - List and describe convenience food or substitutes that relate to stocks
- 3. Demonstrate a working knowledge of the principles of sauce cookery

Potential Elements of the Performance:

- Identify classical hot sauces
- Describe and/or diagram their structure
- Explain the relationship between basic and derivative sauces and describe their uses
- Describe the use and purpose of a reduction in sauce making
 - White (béchamel, velouté) derivatives reduction
 - Brown (espagnole, demi glace) derivatives –reduction
 - Glace de viande reduction
 - Glace de poisson

•

- Tomato derivatives
- Gravies jus de rôti and jus lié
- Explain the nature of an emulsion
 - Describe how to emulsify butter and egg yolks

- Describe the method of preparing sauce
 - Hollandaise
 - Béarnaise
- List and describe the method of preparing compound butters and their uses
- List and describe classical sauce families
 - Explain the relationship between basic and derivative sauces and describe their uses
 - Vinaigrette
 - Mayonnaise
- List and describe non-derivative sauces and describe their uses
- Discuss various sauce convenience products, and reconstitution of sauces
- Identify the appropriate storage method for sauces to maintain quality and sanitation

4. Demonstrate a working knowledge of breakfast and short order cookery

Potential Elements of the Performance:

- Define the role of eggs in the kitchen
 - State the composition and grade of eggs
 - Describe 8 methods of cooking eggs
- List and identify the major breakfast items
 - State the portion sizes of all breakfast meats
- State the principles for the preparation of hot non-alcoholic beverages
 - Describe the methods of preparation and temperatures required for coffee, tea and hot chocolate

5. Demonstrate a working knowledge of vegetables and farinaceous cookery

Potential Elements of the Performance:

- Identify various pasta products
 - Differentiate between fresh and dry pasta
 - Describe various pasta dishes, holding and storage in the cooked and uncooked states
- Describe various types of rice and grains
 - State the methods of preparation of rice and grains
 - Describe various rice and grain dishes
- Define the role of the potato and other vegetables in the kitchen
 - State the origins and various types of potato and applications
 - Define vegetable and describe the cooking functions under the headings:

- Colour (pigmentation)
- Texture
- Botanical part (leaf, stem, flower, root, pod, legume, fungi)
- Define garnitures and their role
 - Describe 10 classical French garnitures
 - State the purpose of garnishing
- 6. Demonstrate a working knowledge of meat, poultry and fish structure and cookery

Potential Elements of the Performance:

- Identify types of meat and suggest cooking methods
 - Describe meat structure
 - Describe the slaughter process
 - Describe aging (dry, cryovac)
 - Identify classifications of meat (beef, veal, pork, lamb, poultry)
 - Identify grades of beef, veal, pork, lamb, poultry
 - Identify prime cuts (beef, veal, pork, lamb)
 - Identify subprimal cuts and their culinary uses
 - Describe various cooking methods (roast, roast-stuffed, grill, pan fry, sauté, braised, pie, fricassee, blanquette, stew, pot roast)
- Identify the kinds and classes of poultry and suggest cooking methods
 - Describe the handling and storage of fresh and frozen poultry
 - Explain how to avoid the health hazards associated with poultry
 - Describe various cooking methods for poultry (roast, sauté, poach, grill, pan fry, fricassee, pies)
 - Describe the preparation of forcemeat and the hazards of cooking a stuffed bird
- Describe the role of fish and shellfish in the kitchen
 - State the basic fish types:
 - Round and flat
 - Oily and lean
 - Salt and fresh
 - Discuss cuts of fish
 - Describe the methods of cleaning fish:
 - Differentiate between
 - mollusks and crustaceans
 - cephalopods
 - amphibians
 - Describe the problems relating to hygiene and storage (state methods of judging freshness and quality of fish and shellfish)
 - Describe methods of cooking fish and shellfish

III. TOPICS:

- 1. Cookery fundamentals
- 2. Principles of preparing stocks and soups
- 3. Principles of sauce cookery
- 4. Breakfast and short order cookery
- 5. Vegetables and farinaceous cookery
- 6. Meat, poultry, and fish structure and cookery

IV. REQUIRED RESOURCES/TEXTS/MATERIALS:

"Professional Cooking", 8th edition, Wayne Gisslen "Professional Cooking Study Guide", 8th edition, Wayne Gisslen

V. EVALUATION PROCESS/GRADING SYSTEM:

Students will be graded in Theory Component as follows:

Theory test # 1	25%
Theory test # 2	25%
Final Assessment	50% (homework assignments 20%,
	attendance 5% & final test 25%)

Total:

100%

The following semester grades will be assigned to students in postsecondary courses:

<u>Grade</u>	Definition	Grade Point <u>Equivalent</u>
A+	90 - 100%	4.00
А	80 - 89%	4.00
В	70 - 79%	3.00
С	60 - 69%	2.00
D	50 - 59 %	1.00
F (Fail)	49% or below	0.00
CR (Credit)	Credit for diploma requirements has been	
	awarded.	
S	Satisfactory achievement in field	
	placement or non-graded subject areas.	
U	Unsatisfactory achievement in field	
	placement or non-graded subject areas.	
Х	A temporary grade limited to situations	
	with extenuating circumstances giving a	
	student additional time to complete the	
	requirements for a course.	
NR	Grade not reported to Registrar's office.	
W	Student has withdrawn from the course	
	without academic penalty	

If a faculty member determines that a student is at risk of not being academically successful, the faculty member may confidentially provide that student's name to Student Services in an effort to help with the student's success. Students wishing to restrict the sharing of such information should make their wishes known to the coordinator or faculty member.

VI. SPECIAL NOTES:

Attendance:

Sault College is committed to student success. There is a direct correlation between academic performance and class attendance; therefore, for the benefit of all its constituents, all students are encouraged to attend all of their scheduled learning and evaluation sessions. This implies arriving on time and remaining for the duration of the scheduled session. It is the departmental policy that once the classroom door has been closed, the learning process has begun. Late arrivers will not be granted admission to the room.

Dress Code:

All students are required to wear their uniforms while in the Hospitality and Tourism Institute, both in and out of the classroom. (Without proper uniform, classroom access will be denied)

Testing Absence:

If a student is unable to write a test for medical reasons on the date assigned, the following procedure is required:

- In the event of an emergency on the day of class, the student may require documentation to support the absence and must telephone the College to identify the absence. The college has a 24 hour electronic voice mail system (759-2554) Ext. 2588.
- The student shall provide the Professor with advance notice preferably in writing or e-mail of his/her need to miss the test with an explanation which is acceptable to the professor.
- The student may be required to document the absence at the discretion of the Professor.
- All decisions regarding whether tests shall be re-scheduled will be at the discretion of the Professor. In cases where the student has contacted the professor and where the reason is not classified as an emergency, i.e. slept in, forgot, etc., the highest achievable grade is a "C". In cases where the student has not contacted the professor, the student will receive a mark of "0" on that test.

VII. COURSE OUTLINE ADDENDUM:

The provisions contained in the addendum located in D2L and on the portal form are part of this course outline.
