

COURSE OUTLINE: CUL151 - CUL COST CONTROL

Prepared: Sarah Birkenhauer

Approved: Sherri Smith, Chair, Natural Environment, Business, Design and Culinary

Course Code: Title	CUL151: CULINARY COST CONTROL
Program Number: Name	1071: CULINARY SKILLS 2078: CULINARY MANAGEMENT
Department:	CULINARY/HOSPITALITY
Semesters/Terms:	19W
Course Description:	Whether you manage or own a restaurant, operate a catering business or embrace the food truck craze, there are fundamental management skills that apply to all foodservice operations. This essential course introduces students to management principles and the theoretical applications of food, beverage and labour cost controls. Students will examine various aspects used within the industry to evaluate, monitor and maintain appropriate control policies and procedures through the various functioning centres of purchasing, receiving, storing and issuing. Additionally, students will develop standard recipes and requisitions, practice menu engineering, examine break-even analysis and perform yield tests, cost/sale and inventory calculations.
Total Credits:	3
Hours/Week:	3
Total Hours:	45
Prerequisites:	There are no pre-requisites for this course.
Corequisites:	There are no co-requisites for this course.
Vocational Learning Outcomes (VLO's) addressed in this course:	1071 - CULINARY SKILLS VLO 4 ensure the safe operation of the kitchen and all aspects of food preparation to promote healthy work spaces and the responsible, efficient use of resources. VLO 5 support the development of menu options that reflect knowledge of nutrition and food ingredients, promote general health and well-being, respond to a range of nutritional needs and preferences and address modifications for special diets, food allergies and intolerances, as required. VLO 6 apply fundamental business principles and recognized industry costing and control practices to food service operations to promote a fiscally responsible operation VLO 7 apply basic knowledge of sustainability, ethical and local food sourcing, and food security to food preparation and kitchen management, recognizing the potential impacts on food production, consumer choice and operations within the food service industry. VLO 10 develop strategies for continuous personal and professional learning to ensure currency with and responsiveness to emerging culinary techniques, regulations, and practices in the food service industry.
Please refer to program web page for a complete listing of program outcomes where applicable.	2078 - CULINARY MANAGEMENT VLO 4 ensure the safe operation of the kitchen and all aspects of food preparation to promote healthy work spaces, responsible kitchen management and efficient use of

resources.

- VLO 5 create menus that reflect knowledge of nutrition and food ingredients, promote general health and well-being, respond to a range of nutritional needs and preferences and address modifications for special diets, food allergies and intolerances, as required.
- VLO 6 apply business principles and recognized industry costing and control practices to food service operations to manage and promote a fiscally responsible operation.
- VLO 7 apply knowledge of sustainability*, ethical and local food sourcing, and food security to food preparation and kitchen management, recognizing the potential impacts on food production, consumer choice and operations within the food service industry.
- VLO 10 develop strategies for continuous personal and professional learning to ensure currency with and responsiveness to emerging culinary techniques, regulations, and practices in the food service industry.
- VLO 12 contribute to the business management of a variety of food and beverage operations to foster an engaging work environment that reflects service excellence.

Essential Employability Skills (EES) addressed in this course:

- EES 1 Communicate clearly, concisely and correctly in the written, spoken, and visual form that fulfills the purpose and meets the needs of the audience.
- EES 2 Respond to written, spoken, or visual messages in a manner that ensures effective communication.
- EES 3 Execute mathematical operations accurately.
- EES 4 Apply a systematic approach to solve problems.
- EES 5 Use a variety of thinking skills to anticipate and solve problems.
- EES 6 Locate, select, organize, and document information using appropriate technology and information systems.
- EES 7 Analyze, evaluate, and apply relevant information from a variety of sources.
- EES 8 Show respect for the diverse opinions, values, belief systems, and contributions of others.
- EES 9 Interact with others in groups or teams that contribute to effective working relationships and the achievement of goals.
- EES 10 Manage the use of time and other resources to complete projects.
- EES 11 Take responsibility for ones own actions, decisions, and consequences.

Course Evaluation:

Passing Grade: 50%, D

Books and Required Resources:

Principles of Food, Beverage & Labour Cost Controls by Dittmer
Publisher: Wiley Edition: 2nd Canadian
ISBN: 9781118798171

Course Outcomes and Learning Objectives:

Course Outcome 1	Learning Objectives for Course Outcome 1
1. Demonstrate an understanding of cost and sale concepts.	1.1 Define and give examples of costs. 1.2 Calculate sales to determine monthly, weekly and daily food and labour costs. 1.3 Discuss cost to sale relationships and perform cost to sale ratio calculations.
Course Outcome 2	Learning Objectives for Course Outcome 2
2. Discuss the importance of	2.1 Examine the control process in the food and beverage

	standards within the food and beverage operation.	operation. 2.2 Define the term standard and its purpose in a food and beverage cost control system. 2.3 Discuss variance to determine when corrective action is necessary. 2.4 Explain why cost benefit analysis is important when making control decisions.
	Course Outcome 3	Learning Objectives for Course Outcome 3
	3. Perform trade related calculations, develop a budget and cost volume profit analysis.	3.1 Explain the importance of standard purchasing specifications and standard recipes. 3.2 Calculate yield, production loss, cost per servable weight and cost factor. 3.3 Practice recipe costing, calculate standard portion cost and determine quantities to purchase. 3.4 Prepare a budget and calculate a break-even and cost volume profit analysis.
	Course Outcome 4	Learning Objectives for Course Outcome 4
	4. Calculate selling prices and menu engineering worksheets.	4.1 Identify variables that impact a food and beverage operation as related to menu pricing. 4.2 Identify and apply several methods for pricing menu items. 4.3 Discuss the importance of menu engineering, use a menu engineering worksheet and provide an analysis for menu items.
	Course Outcome 5	Learning Objectives for Course Outcome 5
	5. Explain the importance of effective purchasing, receiving and storage.	5.1 Identify practices that can be implemented for effective procurement and receiving systems. 5.2 Describe how to maintain inventory quality. 5.3 Calculate inventory valuation using various methods. 5.4 Calculate cost of food issued and determine cost of goods sold. 5.5 Calculate inventory turnover and explain its use as a management tool. 5.6 Practice forecasting production requirements.
	Course Outcome 6	Learning Objectives for Course Outcome 6
	6. Define labour cost control and recognize the importance of scheduling staff and managing productivity.	6.1 Review employee compensation, identify and explain determinants of labour cost. 6.2 Define and explain the purpose of labour cost control. 6.3 Explain the significance of establishing performance standards and standard procedures. 6.4 Identify techniques of measuring labour productivity. 6.5 Prepare a staff schedule based on forecasting information.

Evaluation Process and Grading System:

Evaluation Type	Evaluation Weight	Course Outcome Assessed
Assignments	30%	All
Final Assessment	10%	All
Quizzes	30%	All
Tests	30%	All

Date:

June 25, 2018
