I. COURSE DESCRIPTION:

"The person first, the disability second"! Foremost is conveyed the idea that each

child is seen as a unique individual possessing both skills and needs which will affect his learning potential. This course is designed to help students develop an understanding of various disabilities so that they may work with children effectively in an inclusive environment. Emphasis is placed on the caregiver/teacher's role in planning for individual needs while supporting the growth of the group, in the childcare setting. A team approach is advocated for successful inclusion of special needs children in integrated settings.

II. LEARNING OUTCOMES AND ELEMENTS OF THE PERFORMANCE:

1. Contrast Historical Trends Of Special Education To Current Methods Of Inclusion Based On A Collaborative/Developmental Model.

Elements of the Performance

- Explain the rationale for the current integrated approach to early education
- Outline the legislation which has influenced the education of special needs populations
- Define terms which relate to the education of children with special needs in inclusive settings
- Outline "normal" developmental sequences and the indicators of deviation

2. Delineate the Causal Factors for Specific Disabilities

Elements of the Performance:

- Identify the major categories of handicapping conditions affecting the development of young children
- Determine the causes and incidence for specific disabilities, and outline the impact on the child's development
- Explain the process of developing an IPP and the methods for task analysis

3. Investigate A Specific Area Of Exceptionality And Adapt Curriculum Activities For A Child Having This Specific Physical, Emotional/ Behavioural, or Intellectual Challenge.

Elements of the Performance:

- Examine in-depth the causes and characteristics of disabling conditions
- Choose one area of developmental disability and research it thoroughly using suggested texts and resources, as well as internet web searches
- Discuss the implications for the child's development as well as for the Early Childhood Educator

- Develop a hypothetical case file using the format provided
- Adapt a series of appropriate activities to accommodate for this preschool-aged child in the mainstream setting

4. Evaluate The Role of the Early Childhood Educator in Planning an Effective Learning Environment and in Fostering the Teacher-Parent Partnership

Elements of the Performance:

- Describe the characteristics of and the methods used by effective teachers
- Suggest ways for helping children with developmental problems expand attending skills, and increase self-care, and independence
- Define the concepts of enabling and empowering as related to families of children with disabilities
- Discuss ways to ease a child into a new program and outline the support services required
