I. COURSE DESCRIPTION:

This course involves the study of health, safety, and nutrition in relation to the needs of young children. Early childhood educators must possess the attitude, knowledge, and skills essential for promoting the physical, emotional, and social well-being of children and their families. Responding to children's physical, emotional, and social health needs is an integral part of the early childhood educator's everyday responsibilities. This course will include a focus on health promotion and preventative health measures. Students will gain knowledge of specific legislation (provincial and municipal) related to health, safety and nutritional issues for a licensed child care centre.

II. LEARNING OUTCOMES AND ELEMENTS OF THE PERFORMANCE:

(Generic Skills Learning Outcomes placement on the course outline will be determined and communicated at a later date)

A. Learning Outcomes:

- 1) Establish and maintain safe and healthy environments which meet requirements of current legislation, regulatory bodies and Programme policies
- 2) Explain the importance of modeling appropriate behaviours in the areas of health, safety, and nutrition when caring for children
- 3) Describe effective techniques to manage and prevent both chronic and acute ill-health conditions among young children
- 4) Identify the critical elements for ensuring child safety in child care facilities.
- 5) Outline the nutritional guidelines for young children and plan and evaluate nutritional meals for children in child care settings

Learning Outcomes with Elements of the Performance:

1) Establish and maintain safe and healthy environments which meet requirements of current legislation, regulatory bodies and Programme policies

CODE NO.

ED 125

Elements of the performance:

Ensure a healthy and safe environment in accordance with agency policy and governmental guidelines

- 3 -

- Meet the nutritional requirements of the children identified through planning and consultation with parents and relevant professionals
- > Ensure the well-being of groups of children
- Ensure that specific health needs of individual children are met
- > Plan and monitor safe environments for children
- Respond appropriately to unsafe and emergency situations

2) Explain the importance of modeling appropriate behaviours in the areas of health, safety, and nutrition when caring for children.

Elements of the performance:

- Demonstrate awareness of health and safety policies in community placements
- Identify the impact of personal health practice on the early childhood educator
- Demonstrate the ability to establish health and safety policies for staff

3) Describe effective techniques to manage and prevent both chronic and acute ill-health conditions among young children

Elements of the Performance:

- Convey accurate information about chronic and acute illnesses in childhood
- Demonstrate the ability to provide a learning environment conducive to children with illnesses.

4) Identify the critical elements for ensuring child safety in childcare facilities

Elements of the performance:

- > Explore child safety in the classroom
- ➤ Identify the adult role in ensuring a safe child environment
- > Explore working with parents to ensure maximum child safety

CODE NO.

5) Outline the nutritional guidelines for young children and be able to plan and evaluate nutritional meals for children in child care settings

Elements of the performance:

- Meet the nutritional requirements of the children identified through planning and consultation with parents and relevant professionals
- ➤ Demonstrate a working knowledge of the recommended dietary allowances set out in the D.N.A.
- Communicate an awareness of nutritional needs for infants through to age twelve.
- > Demonstrate the ability needed to plan, order, and cook, as well as serve snacks and meals for children in licensed childcare.
- Work co-operatively as a member of the team in order to facilitate the smooth operation of the meal preparation
- ➤ Demonstrate the ability to evaluate the experience that includes: menu, recipes, quantities of food required, approximate cost.

III. TOPICS:

Note: These topics sometimes overlap several areas of skill development and are not necessarily intended to be explored in isolated learning units nor in the order below

- Health of the Young Child
- > Creating a Safe Environment
- Foods and Nutrients
- Nutrition in the Preschool and Elementary School Years

IV. REQUIRED RESOURCES/TEXTS/MATERIALS:

Health, Safety, and Nutrition for the Young Child (4th Ed.) Marotz, Cross, Rush, Delmar Publishers Day Nurseries Act

CODE NO.

V. EVALUATION PROCESS/GRADING SYSTEM:

Cooking and evaluation

15%

Each student will be assigned a date to cook, and serve in either the C.D.C. or Maycourt Children's Centre. This experience will be evaluated using the criteria discussed in class. The evaluation is due **no later** than one (1) week prior to the cooking experience.

Menu planning

15%

Using DNA requirements, each student will plan and record 2/3 of the child's daily nutritional needs. Taking into account the principals discussed in class, this menu must be planned for one week and appropriate for preschool children in a licenced Day Care. Recipes will be needed. Mar 22 /02

In Class Assignments

20%

Using text book and handouts

Tests (x2) each

15%

Fact Sheet - for Parents

5%

(Each student will create and design a parent friendly fact sheet dealing with health, safety or nutritional needs of children in childcare)

Fact Sheet - for Teachers

5%

(Each student will create and design a fact sheet for staff in order to be able to identify and handle health, safety or nutritional needs of children in childcare)

Presentation (in-class)

5%

(Present your fact sheets and recommendations to classmates - come prepared with hand outs for each class member at time of presentation - this fact sheet will be used to assemble a <u>Health and Safety Section in Administration Project</u>)

Attendance and participation are an essential element in this process Attendance will be taken and is worth 5% of final grade.

NOTE:

Students who miss a test must notify the professor in advance of the scheduled test and request a rewrite.(24 hour voice mail - x 572) Allowing the rewrite is at the professor's discretion if the student had provided a reasonable excuse for the absence. Requests for rewrites will be denied if made one week or more after the test date.

CODE NO.

Method of Assessment (grading method):

The following semester grades will be assigned to students in postsecondary courses:

		Grade Point
<u>Grade</u>	<u>Definition</u>	<u>Equivalent</u>
A+	90 - 100%	4.00
Α	80 - 89%	3.75
В	70 - 79%	3.00
С	60 - 69%	2.00
R (Repeat)	59% or below	0.00
CR (Credit)	Credit for diploma requirements has been awarded.	
S	Satisfactory achievement in field placement or non-graded subject areas.	
U	Unsatisfactory achievement in field	
	placement or non-graded subject areas.	
Χ	A temporary grade. This is used in limited	
	situations with extenuating circumstances	
	giving a student additional time to complete	
	the requirements for a course (see Policies &	
	Procedures Manual – Deferred Grades and Make-up).	
NR	Grade not reported to Registrar's office. This	
	is used to facilitate transcript preparation	
	when, for extenuating circumstances, it has	
	not been possible for the faculty member to	
	report grades.	

VI. SPECIAL NOTES:

Special Needs:

If you are a student with special needs (e.g. physical limitations, visual impairments, hearing impairments, or learning disabilities), you are encouraged to discuss required accommodations with your instructor and/or the Special Needs office. Visit Room E1204 or call Extension 493, 717, or 491 so that support services can be arranged for you.

Retention of course outlines:

It is the responsibility of the student to retain all course outlines for possible future use in acquiring advanced standing at other postsecondary institutions.

CODE NO.

Plagiarism:

Students should refer to the definition of "academic dishonesty" in *Student Rights and Responsibilities*. Students who engage in "academic dishonesty" will receive an automatic failure for that submission and/or such other penalty, up to and including expulsion from the course, as may be decided by the professor. In order to protect students from inadvertent plagiarism, to protect the copyright of the material referenced, and to credit the author of the material, it is the policy of the department to employ a documentation format for referencing source material.

Course outline amendments:

The Professor reserves the right to change the information contained in this course outline depending on the needs of the learner and the availability of resources.

Substitute course information is available in the Registrar's office.

VII. PRIOR LEARNING ASSESSMENT:

Students who wish to apply for advanced credit in the course should consult the instructor.

VIII. DIRECT CREDIT TRANSFERS:

Students who wish to apply for direct credit transfer (advanced standing) should obtain a direct credit transfer form from the Dean's secretary. Students will be required to provide a transcript and course outline related to the course in question.

Suggested Topics for Parent/Teacher Fact Sheets

Communicable Diseases and Health Issues

Chicken-pox Fifth Disease AIDS/HIV

Hand, Foot and Mouth Disease

Headlice Hepatitis A Hepatitis B

Infections in Schools and Daycare

Influenza Meningitis Mononucleosis

Pink-eye (Conjunctivitis)

Scabies Scarlet Fever Shingles

Universal Precautions

And Handwashing Whooping Cough Traumatic Head Injury Brucellosis

- 8 -

Childhood Teeth

Diphtheria

Food poisoning, all causes Gastroenteritis, institutional

Yellow Fever Hepatitis C Tetanus Herpes

Meningitis, acute Poliomyelitis, acute

Rabies Trichinosis Measles Mumps

Lyme Disease

Group A Streptci

The above are just a few suggestions for topics. Students must register their topic with the instructor so there are no duplications. Each student will research a health issue and prepare *two* fact sheets. One for *Parents* in a <u>language they will understand</u>. The other fact sheet for *Teachers* who work in the field and need to deal with the issue in a classroom setting. These fact sheets, will be professionally prepared, typed and duplicated for each class member. Each student will schedule a presentation time during class in order to present his/ her findings. The presentation will **NOT** consist of a reading of the fact sheets but a discussion with the class on your findings and recommendations. These sheets <u>must be retained</u> by each student in order to compile a resources package for parents and teachers. These sheets will be used to assemble a **Health and Safety Section in the Administration Project**.
