

**SAULT COLLEGE OF APPLIED ARTS AND TECHNOLOGY**

**SAULT STE. MARIE, ONTARIO**

Sault College

**COURSE OUTLINE**

**COURSE TITLE:** Design 6

**CODE NO. :** ADV 358-08                      **SEMESTER:** 09W

**PROGRAM:** Graphic Design

**AUTHOR:** Terry Hill

**DATE:** June 2008      **PREVIOUS OUTLINE DATED:** Jan 2008

**APPROVED:**

	<hr/>	<hr/>
	<b>CHAIR</b>	<b>DATE</b>
<b>TOTAL CREDITS:</b>	8 credits	
<b>PREREQUISITE(S):</b>	ADV 248	
<b>HOURS/WEEK:</b>	3 hours class time per week

**I. COURSE DESCRIPTION:**

This course is a continuation of Design 5. Participants develop further experience in applying various techniques learned in previous semesters. Emphasis is placed on solving very complex design problems while exploring areas of design specialization such as but not limited to advertising, packaging, branding, environmental graphics, and editorial design as well as portfolio building.

**II. LEARNING OUTCOMES AND ELEMENTS OF THE PERFORMANCE:**

Upon successful completion of this course, the student will demonstrate the ability to:

1. Identify design problems, plan and document design solutions

Potential elements of the performance

- Use provided documentation structure to document design problem statements
- Develop a project plan to guide design research and creativity
- Demonstrate an ability to follow plan to achieve creative solutions, document design process and record sources for design research
- Demonstrate an ability to defend design solutions by communicating a design rationale for any design project.
- Demonstrate an ability to include user testing methods as required in design process and document the results.

2. Demonstrate the ability to produce designs using Macintosh equipment and graphics software including the ability to produce images and multi-page formatting

Potential Elements of the Performance:

- Distinguish between software packages and make appropriate decisions as to what software is to be used to complete the project efficiently
- Create professional presentations using the equipment in the Macintosh lab
- Demonstrate analytical ability in problem solving regarding technological and design parameters and their limitations.

3. Demonstrate the ability to use design principles effectively and be able to create those designs in a manner that is reproducible

- Demonstrate the use of classic design principles covered in other semesters including balance, proportion, unity, sequence and contrast
- Demonstrate an ability to create designs for reproduction using skills learned in previous semesters as well as organize files for electronic output
- Demonstrate the ability to define and work within technological and project restrictions and time limitations
- Make effective design presentations as per instructor specifications regarding project directions and craftsmanship

4. Successfully manage large projects that encompass multiple design and illustration disciplines

Potential Elements of the Performance:

- Demonstrate the ability to sufficiently research an assignment to understand the content of the assignment, the target audience, production restrictions
- Apply research skills to search out and examine similar existing design solutions for comparison
- Practice and develop time management and project management skills
- Develop project presentations that encompass a variety of disciplines such as page layout, illustration, design, production graphics
- Render preliminary stages to communicate ideas effectively to others

5. Apply appropriate, effective, and professional practices in the classroom studio setting.

Potential Elements of the Performance:

- Demonstrate organizational skills such as scheduling, prioritizing, planning, and time management.
- Demonstrate the ability to work within project restrictions and time limitations.
- Make effective design presentations, as per instructor specifications regarding directions and quality.
- Demonstrate an ability to accept constructive criticism and implement suggested changes to design projects

### III. TOPICS:

1. Research and design documentation skills
2. Application of consistent typographical treatments to multi page documents
3. Application of design principles and practices to packaging corporate image, and advertising assignments
4. Effective use of research skills to define creative parameters of projects
5. Effective communication to target markets
6. Effective use of planning stages and time management
7. Creating professional presentations and Project management
- 8.. Professional practices

### IV. REQUIRED RESOURCES/TEXTS/MATERIALS:

Students will be required to use a variety of tools and supplies based on their individual approach to solving a design problem. Items from the portfolio kit purchased in semester I may be used as well as additional supplies can be purchased from the campus shop or local office supply stores. It is encouraged that students incorporate the use of digital cameras, and file transfer media such as CDR, iPods, or memory sticks to move files from home computer environments to the mac lab and to outside print sources.

**Required text:**

*Although there is no formal text for this course students will be expected to use library resources as their individual creative and design choices dictate.*

### V. EVALUATION PROCESS/GRADING SYSTEM:

Assignments will constitute 100% of the student's final grade in this course. Assignments will be evaluated according to the following, in accordance with college policies:  
This course will be evaluated in terms of a letter grade indicating overall performance in this class. All assignments are of equal weighting and the total sum of grades achieved by the student will be averaged to determine the final grade assessment  
All assignments are required to be successfully completed to meet the objectives of the course. A missing assignment is equivalent to course objectives not achieved, which results in an "F" ( Fail ) grade for the course.

**Assignment breakdown**

Process stages	
Assignment 1 developmental stages	15%
Assignment 2 developmental stages	15%
Assignment 3 developmental stages	20%
Portfolio finals 3 projects=	50%
assignments = 100% of grade	
average	/100
deductions (late assignments (-5%/week),	
absents over 3 (-10/class missed))	-%
final grade*	% - see course outline for
grade equivalent.	

The following semester grades will be assigned to students:

<b>Grade</b>	<b>Definition</b>	<b>Grade Point Equivalent</b>
A+	90 – 100%	4.00
A	80 – 89%	3.00
B	70 - 79%	2.00
C	60 - 69%	1.00
D	50 – 59%	0.00
F (Fail)	49% and below	
CR (Credit)	Credit for diploma requirements has been awarded.	
S	Satisfactory achievement in field /clinical placement or non-graded subject area.	
U	Unsatisfactory achievement in field/clinical placement or non-graded subject area.	
X	A temporary grade limited to situations with extenuating circumstances giving a student additional time to complete the requirements for a course.	
NR	Grade not reported to Registrar's office.	
W	Student has withdrawn from the course without academic penalty.	

**VI. SPECIAL NOTES:**Special Needs:

If you are a student with special needs (e.g. physical limitations, visual impairments, hearing impairments, or learning disabilities), you are encouraged to discuss required accommodations with your professor and/or the Special Needs office. Visit Room E1101 or call Extension 703 so that support services can be arranged for you.

Retention of Course Outlines:

It is the responsibility of the student to retain all course outlines for possible future use in acquiring advanced standing at other postsecondary institutions.

Communication:

The College considers **WebCT/LMS** as the primary channel of communication for each

course. Regularly checking this software platform is critical as it will keep you directly connected with faculty and current course information. Success in this course may be directly related to your willingness to take advantage of the **Learning Management System** communication tool.

Plagiarism:

Students should refer to the definition of “academic dishonesty” in *Student Code of Conduct*. Students who engage in academic dishonesty will receive an automatic failure for that submission and/or such other penalty, up to and including expulsion from the course/program, as may be decided by the professor/dean. In order to protect students from inadvertent plagiarism, to protect the copyright of the material referenced, and to credit the author of the material, it is the policy of the department to employ a documentation format for referencing source material.

Course Outline Amendments:

The professor reserves the right to change the information contained in this course outline depending on the needs of the learner and the availability of resources.

Substitute course information is available in the Registrar's office.

Tuition Default

Students who have defaulted on the payment of tuition (tuition has not been paid in full, payments were not deferred or payment plan not honoured) as of the first week of March will be removed from placement and clinical activities. This may result in loss of mandatory hours or incomplete course work. Sault College will not be responsible for incomplete hours or outcomes that are not achieved or any other academic requirement not met as of the result of tuition default. Students are encouraged to communicate with Financial Services with regard to the status of their tuition prior to this deadline to ensure that their financial status does not interfere with academic progress

**RECLAIMING AND RETAINING PAST ASSIGNMENTS**

For the development of student portfolios it is important that ALL past assignment work be reclaimed and retained by the student.

It is the students' responsibility to reclaim assignments after they have been assessed. Marked assignments will be returned by faculty during classroom sessions. If a student is absent on the day that work is returned the work will be held by faculty for a minimum of three weeks from the return date after which, due to a shortage of storage space, the work may be discarded

**Preliminary Studies:**

- All assignments require preliminary or intermediate steps such as thumbnails, roughs, and preliminary comprehensive layouts.
- These intermediate steps are evaluated according to criteria established by the instructor and submitted according to established timelines. The final grade for each assignment will be an average of the grade achieved for all stages of the assignment. This reinforces the importance of the preliminary stages of each project.

**Deductions – Lates and F grades**

**Lates:**

An assignment is considered late if it is not submitted at the time and date specified by the

instructor.

A late assignment will be penalized by a 5% deduction for each week that its late. The total late penalty Will be deducted from the final grade. Eg. 3 weeks late = 15% deduction from final grade. Maximum grade for a late assignment is "C"

A late assignment which is not executed to a minimum C (satisfactory) level will be assigned an incomplete grade with additional penalties outlines below.

### **Fail (F) grades**

A failing grade is assessed to an assignment which has not been executed to a minimum satisfactory "D" grade level or in which the directions have not been followed correctly.

A failing grade assignment must be entirely re-done or corrected according to the instructor's specific instructions and resubmitted within a timeframe specified by the Professor.

A failing grade assignment will be penalized by a 5% deduction from the final grade. Maximum grade for a resubmitted failing grade assignment is "C"

Failed (F grade) assignments not submitted by the specified deadline will be subject to 5% late deductions for each week they are overdue.

### **Homework**

This is an eight credit course delivered in a 3 hour format. A minimum of five hours homework per week can be expected with more time needed on larger assignments.

### **Attendance**

Significant learning takes place within the classroom environment. It is imperative that student attend and be present for each class in its entirety.

A total of three absences will be tolerated during the semester with no penalty. It is the student's responsibility to catch up on missed work.

Absences in excess of three per semester will be penalized by a 10% deduction from the final grade for each class missed.

Attendance will be taken by the professor at the start of each class and at the midpoint of each class. Students leaving class early will be considered absent for one half class. Students arriving to class after the opening lecture given at the start of each class will also be considered absent for half of a class.

### **Resubmission policy.**

Any assignment completed during this course may be submitted for re-evaluation if the following criteria are met by the student.

- a) an assignment that was initially submitted past the initial assigned deadline will not be eligible for re-evaluation.
- b) an assignment that initially achieved a fail grade must be resubmitted to achieve minimum project standards and will receive a maximum C grade as indicated under the section for Lates and Fails in this outline.
- c) the resubmitted project must be accompanied by the original project and the original evaluation sheets (with written indication of grade breakdown) provided by the professor
- d) assignments may be resubmitted at any time during the semester. The final date for last resubmissions will be announced by the professor during class and usually are no later than two weeks prior to the end of the semester.
- e) Resubmitted assignments must identify the project and class, and be clearly marked

“RESUBMISSION” when submitted

f) it must be understood that resubmitted assignments are usually marked with greater scrutiny than first submissions to take into consideration the learning experiences, practice, and achievement of learning outcomes achieved by the student during later sessions in the semester.

g) When comparing the original submission grade and the resubmission grade the student will receive benefit of the higher grade

h) Assignments will not be accepted for resubmission to include preliminary studies. Preliminary studies should be completed before the commencement of work on final comprehensives and as such will only be considered for evaluation on or before the original submission.

Assignments resubmitted to include preliminaries must be completely re-done and have a new creative direction for evaluation.

## **VII. PRIOR LEARNING ASSESSMENT:**

Students who wish to apply for advance credit transfer (advanced standing) should obtain an Application for Advance Credit Form from the program coordinator (for course-specific courses), or the course coordinator (for general education courses), or the program’s academic assistant. Students will be required to provide an unofficial transcript and course outline related to the course in question.

Credit for prior learning will also be given upon successful completion of a challenge exam or portfolio
