SAULT COLLEGE OF APPLIED ARTS AND TECHNOLOGY SAULT STE. MARIE, ONTARIO

COURSE OUTLINE

COURSE TITLE: MOTION GRAPHICS TWO

CODE NO.: ADV319 SEMESTER: 6

PROGRAM: GRAPHIC DESIGN

AUTHOR: RITCHIE DONAGHUE

DATE: Dec 09 PREVIOUS OUTLINE DATED: Dec 08

APPROVED:

"B. Punch"

CHAIR DATE

TOTAL CREDITS: 6 CREDITS

PREREQUISITE(S): ADV 240, ADV 248

HOURS/WEEK: 3 HOURS IN CLASS PER WEEK

I. COURSE DESCRIPTION:

This course will build upon the skills learned using various industry standard software. Students will be required to develop a complete understanding of vector and raster based software packages as well as an intermediate understanding of animation for web based graphics using Macromedia MX Suite. There will be particular emphasis on industry standard methods of producing motion graphics that communicate for Acrobat, Web and Video Production. Students will develop advanced skills using Adobe Illustrator, Adobe Photoshop, Adobe Image Ready, Adobe InDesign and Adobe Acrobat.

II. LEARNING OUTCOMES AND ELEMENTS OF THE PERFORMANCE:

Upon successful completion of this course, the student will demonstrate the ability to:

1. Design and produce effective design solutions utilizing an advanced level of Raster-based software

Potential Elements of the Performance:

- •Create industry standard imagery using Adobe Photoshop software, with the ability to create work using advanced layer masking techniques
- •Create complex digital files, with the ability to select detailed image areas and use Adobe Photoshop software to develop advanced channel storage
- •Demonstrate the ability to use advanced layer masking and channel selections to create Quicktime animations

2. Design and produce advanced design solutions through the integration of Vector-based software with Raster-based software

Potential Elements of the Performance:

•Create professional level imagery for printed materials that fully utilizes the drawing capabilities of Adobe Illustrator and combines those capabilties with Adobe Photoshop

3. Develop complex design projects using advanced level software techniques

Potential Elements of the Performance:

•Demonstrate the ability to plan and execute a complex design solution that objectively utilize the most effective software

4. Adapt print imagery for digital (soft copy) applications Potential Elements of the Performance:

•Develop more advanced skills in the use of Macromedia MX studio suite for the production of web-based, animated or interactive design

5. Development of technical demonstrations on advanced sofware techniques

Potential Elements of the Performance:

- Develop presentation seminars that will demonstrate the utilization of a unique software technique
- Develop the ability to effectively explain techniques to others, ie. See one, do one, teach one!

6. Design and produce effective design solutions utilizing an advanced level of Raster-based software

Potential Elements of the Performance:

- •Create industry standard imagery using Adobe Photoshop software, with the ability to create work using advanced layer masking techniques
- •Create complex digital files, with the ability to select detailed image areas and use Adobe Photoshop software to develop advanced channel storage
- •Demonstrate the ability to use advanced layer masking and channel selections to create Quicktime animations

III. TOPICS:

- 1. Adobe Flash
- 2. Adobe Illustrator and Photoshop
- 3. Adobe Acrobat
- 4. Quick Time Formatting
- 5. Video Editing and Compilation
- 6. Independent software of students choice

IV. REQUIRED RESOURCES/TEXTS/MATERIALS:

No textbooks required

Research:

Students should bring their basic art supplies as purchased in their art supply kit to every class. Students will be given advance notice as to additional materials on a per project basis. Students must come to class with the proper materials to work in class weekly.

Students are encouraged to use extensive research methods for obtaining proper visual references in the brainstorm/ideation process for design problem-solving. Research materials are welcome in the classroom to assist in the development of images. However, the direct copying of research reference is strictly prohibited by copy infringement laws. Wherever possible, the student should use real life visual reference rather than relying on existing two-dimensional imagery.

V. EVALUATION PROCESS/GRADING SYSTEM:

Assignments = 100% of final grade

Assignments will constitute 100% of the student's final grade in this course. A missing assignment is equivalent to course objectives not achieved which results in an "F" (fail) grade for the course.

DEDUCTIONS - LATES AND FAILS

Lates:

An assignment is considered late if it is not submitted at the time and date specified by the instructor.

A late assignment will be penalized by a 5% deduction for each week that it's late. The total late penalty Will be deduced from the final grade. Eg. 3 weeks late = 15% deduction from final grade.

Maximum grade for a late assignment is "C"

A late assignment which is not executed to a minimum D (satisfactory) level will be assigned a fail grade with additional penalties outlines below

Fail:

A fail grade (F) is assessed to an assignment that has not been executed to a minimum satisfactory "D" grade level or in which the directions have not been followed correctly.

A failed assignment must be entirely re-done or corrected according to the instructor's specific instructions and resubmitted within one week.

A failed assignment will be penalized by a 5% deduction from the final grade.

Maximum grade for a failed assignment is "C"

Failed assignments not submitted within the one week Time frame will be subject to 5% late deductions for each week they are overdue.

Resubmission policy.

Any assignment completed during this course may be submitted for re-evaluation if the following criteria are met by the student.

- a) an assignment that was initially submitted past the initial assigned deadline will not be eligible for re-evaluation.
- b) an assignment that initially achieved a fail grade must be resubmitted to achieve minimum project standards and will recieve a maximum C grade as indicated under the section for Lates and Fails in this outline.

- c) the resubmitted project must be accompanied by the original project and the original evaluation sheets (with written indication of grade breakdown) provided by the professor
- d) assignments may be resubmitted at any time during the semester. The final date for last resubmissions will be announced by the professor during class and usually are no later than two weeks prior to the end of the semester.
- e) Resubmitted assignments must identify the project and class, and be clearly marked "RESUBMISSION" when submitted
- f) it must be understood that resubmitted assignments are usually marked with greater scrutiny than first submissions to take into consideration the learning experiences, practice, and achievement of learning outcomes achieved by the student during later sessions in the semester.
- g) When comparing the original submission grade and the resubmission grade the student will receive benefit of the higher grade
- h) Assignments will not be accepted for resubmission to include preliminary studies. Preliminary studies should be completed before the commencement of work on final comprehensives and as such will only be considered for evaluation on or before the original submission. Assignments resubmitted to include preliminaries must be completely redone and have a new creative direction for evaluation.

Attendance:

Significant learning takes place in the classroom setting through an interactive learning approach; therefore students are expected to attend all classes and inform the instructor of an anticipated absence. Attendance is mandatory for this course to ensure the course requirements and objectives are met. A total absence of 3 classes for the semester will be tolerated. After 3 absences penalties will take effect, an additional 10% will be deducted from the final grade for this course per class missed. i.e. 4 classes missed = 10% deduction form final grade 5 classes missed = 20% deduction from final grade

Preliminary Studies:

- All assignments require preliminary or intermediate steps such as thumbnails, roughs, and preliminary comprehensive layouts.
- These intermediate steps are evaluated according to criteria established by the instructor and submitted according to established timelines. The final grade for each assignment will be an average of the grade achieved for all stages of the assignment. This reinforces the

importance of the preliminary stages of each project.

Reclaiming and Retaining Past Assignments

For the development of student portfolios it is important that ALL past assignment work be reclaimed and retained by the student.

It is the students, responsibility to reclaim assignments after they have been assessed. Marked assignments will be returned by faculty during classroom sessions and a notice will be posted at the front of the classroom noting that the assignment has been returned. If a student is absent on the day that work is returned the work will be held by faculty for a minimum of three weeks from the return date after which, due to a shortage of storage space, the work may be discarded

The following semester grades will be assigned to students:

		Grade Point
Grade	<u>Definition</u>	Equivalent
A+	90 – 100%	4.00
Α	80 – 89%	1.00
В	70 - 79%	3.00
С	60 - 69%	2.00
D	50 – 59%	1.00
F (Fail)	49% and below	0.00
CR (Credit)	Credit for diploma requirements has been	
	awarded.	
S	Satisfactory achievement in field /clinical	
	placement or non-graded subject area.	
U	Unsatisfactory achievement in	
	field/clinical placement or non-graded	
	subject area.	
X	A temporary grade limited to situations	
	with extenuating circumstances giving a	
	student additional time to complete the	
	requirements for a course.	
NR	Grade not reported to Registrar's office.	
W	Student has withdrawn from the course	
	without academic penalty.	

VI. SPECIAL NOTES:

Course Outline Amendments:

The professor reserves the right to change the information contained in

this course outline depending on the needs of the learner and the availability of resources.

Retention of Course Outlines:

It is the responsibility of the student to retain all course outlines for possible future use in acquiring advanced standing at other postsecondary institutions.

Prior Learning Assessment:

Students who wish to apply for advance credit transfer (advanced standing) should obtain an Application for Advance Credit from the program coordinator (or the course coordinator regarding a general education transfer request) or academic assistant. Students will be required to provide an unofficial transcript and course outline related to the course in question. Please refer to the Student Academic Calendar of Events for the deadline date by which application must be made for advance standing.

Credit for prior learning will also be given upon successful completion of a challenge exam or portfolio.

Substitute course information is available in the Registrar's office.

Disability Services:

If you are a student with a disability (e.g. physical limitations, visual impairments, hearing impairments, or learning disabilities), you are encouraged to discuss required accommodations with your professor and/or the Disability Services office. Visit Room E1101 or call Extension 2703 so that support services can be arranged for you.

Communication:

The College considers **WebCT/LMS** as the primary channel of communication for each course. Regularly checking this software platform is critical as it will keep you directly connected with faculty and current course information. Success in this course may be directly related to your willingness to take advantage of the **Learning Management System** communication tool.

Plagiarism:

Students should refer to the definition of "academic dishonesty" in *Student Code of Conduct*. A professor/instructor may assign a sanction as defined below, or make recommendations to the Academic Chair for disposition of the matter. The professor/instructor may (i) issue a verbal reprimand, (ii) make an assignment of a lower grade with explanation, (iii) require additional academic assignments and issue a lower grade upon completion to the maximum grade "C", (iv) make an automatic assignment of a failing grade, (v) recommend to the Chair dismissal from the course

with the assignment of a failing grade. In order to protect students from inadvertent plagiarism, to protect the copyright of the material referenced, and to credit the author of the material, it is the policy of the department to employ a documentation format for referencing source material.

Student Portal:

The Sault College portal allows you to view all your student information in one place. **mysaultcollege** gives you personalized access to online resources seven days a week from your home or school computer. Single log-in access allows you to see your personal and financial information, timetable, grades, records of achievement, unofficial transcript, and outstanding obligations, in addition to announcements, news, academic calendar of events, class cancellations, your learning management system (LMS), and much more. Go to https://my.saultcollege.ca.

Electronic Devices in the Classroom:

Students who wish to use electronic devices in the classroom will seek permission of the faculty member before proceeding to record instruction. With the exception of issues related to accommodations of disability, the decision to approve or refuse the request is the responsibility of the faculty member. Recorded classroom instruction will be used only for personal use and will not be used for any other purpose. Recorded classroom instruction will be destroyed at the end of the course. To ensure this, the student is required to return all copies of recorded material to the faculty member by the last day of class in the semester. Where the use of an electronic device has been approved, the student agrees that materials recorded are for his/her use only, are not for distribution, and are the sole property of the College.

Attendance:

Sault College is committed to student success. There is a direct correlation between academic performance and class attendance; therefore, for the benefit of all its constituents, all students are encouraged to attend all of their scheduled learning and evaluation sessions. This implies arriving on time and remaining for the duration of the scheduled session. It is the departmental policy that once the classroom door has enclosed, the learning process has begun. Late arrivers will not be granted admission to the room.

Tuition Default:

Students who have defaulted on the payment of tuition (tuition has not been paid in full, payments were not deferred or payment plan not honoured) as of the first week of November will be removed from

placement and clinical activities. This may result in loss of mandatory hours or incomplete course work. Sault College will not be responsible for incomplete hours or outcomes that are not achieved or any other academic requirement not met as of the result of tuition default. Students are encouraged to communicate with Financial Services with regard to the status of their tuition prior to this deadline to ensure that their financial status does not interfere with academic progress.
