# SAULT COLLEGE OF APPLIED ARTS AND TECHNOLOGY

# SAULT STE. MARIE, ONTARIO

# **COURSE OUTLINE**

COURSE TITLE:	Design 2			
CODE NO. :	ADV 135	SEMESTER: (	06	
PROGRAM:	Graphic Design	ı		
AUTHOR:	Terry Hill			
DATE:	May 13	PREVIOUS OUTLINE DATED:	Dec 12	
APPROVED:		"Colin Kirkwood"	May 23/13	
		DEAN	DATE	
TOTAL CREDITS:	4			
PREREQUISITE(S):	ADV 125			
HOURS/WEEK:	3			
<b>Copyright ©2013 The Sault College of Applied Arts &amp; Technology</b> Reproduction of this document by any means, in whole or in part, without prior written permission of Sault College of Applied Arts & Technology is prohibited. For additional information, please contact Colin Kirkwood, Dean School Environment, Design and Business Programs				

(705) 759-2554, Ext. 2688

## I. COURSE DESCRIPTION:

Design 2 is a continuation of Design 1. Further exploration of creative approaches and documenting design process will be a focus of this course. Students will be challenged with approaches to design research, ethnographic studies, observational exercises and incorporating visual language into series based visual solutions to problems identified.

## II. LEARNING OUTCOMES AND ELEMENTS OF THE PERFORMANCE:

Upon successful completion of this course, the student will demonstrate the ability to:

 Demonstrate an ability to identify design problems, conduct appropriate research, document process and write effective rationales <u>Potential Elements of the Performance</u>: Practice clearly identifying a design problem to explore Employ SMART objectives in design solutions Practice literary review research methods

Practice ethnographic research techniques when appropriate Support design solutions through research via writing effective rationale

#### 2. Demonstrate an understanding of design in a 3 dimensional situation

Potential Elements of the Performance:

Demonstrate an ability to organize a series of final comprehensives into a logical order

Demonstrate an ability to develop a plan to create a 3 dimensional design solution Demonstrate an ability to approach design problems in a wholistic manner

# 3. Demonstrate an ability to use visual language to communicate concepts to others

Potential Elements of the Performance:

Demonstrate the ability to evoke a variety of emotions in the viewer. Demonstrate the ability to communicate abstract concepts using colour.shape, form, texture and incorporation of type and imagery into design solutions

4. Develop an ability to use documented design process to communicate design concept to others

#### Potential Elements of the Performance:

Demonstrate an understanding of the importance of all stages of traditional design processes including ideas, thumbnails, roughs, semi-comprehensives, and final comprehensives

Demonstrate the ability to make judgements on the appropriate level of accuracy and detail required at each stage of development

5. Demonstrate an understanding of creative thinking techniques

Develop an ability to be openminded to new ideas Demonstrate an ability to develop ideas without prejudgement Demonstrate an ability to apply visual research in creative development Demonstrate an ability to employ different creative techniques such as but not limited to mind mapping, research driven design, free association, visual research. Practice the ability to take creative chances and discuss them in a group setting with confidence

#### III. TOPICS:

- 1. Documenting design process
- 2. Presentation techniques, importance of accuracy and cleanliness
- 3. Observational exercises
- 4. Literary reviews and ethnographic research
- 5. 3 dimensional design
- 6 Creative thinking and problem solving– various approaches
- 7. Peer review process sharing of ideas

## IV. REQUIRED RESOURCES/TEXTS/MATERIALS:

A wide assortment of items provided in the portfolio kit will be used in this course. Students are expected to restock consumable items for their kits and purchase additional supplies as their creative solutions warrant.

\* <u>Note:</u> Due to the lack of proper health and safety features of the design studio, no oil based paints or solvents are to be used in this course. Only water based acrylic paints will be used.

Students will need to purchase # 27 illustration board, mounting board and cover stock for all the design presentations throughout this course. These items are available in the College's Campus Shop.

## V. EVALUATION PROCESS/GRADING SYSTEM:

#### Assignments = 100% of final grade

Final evaluation for this course will be a letter grade as outlined below. Assignments will be weighted equally and will constitute 100% of the student's final grade. A missing assignment is equivalent to course objectives not achieved which results in an "F" (fail) grade for the course.

The following semester grades will be assigned to students:

<u>Grade</u> A+	Definition 90 – 100%	Grade Point <u>Equivalent</u> 4.00
A	80 - 89%	
B C	70 - 79% 60 - 69%	3.00 2.00
D	50 - 59%	1.00
F (Fail)	49% and below	0.00
CR (Credit)	Credit for diploma requirements has been awarded.	
S	Satisfactory achievement in field /clinical placement or non-graded subject area.	
U	Unsatisfactory achievement in	
	field/clinical placement or non-graded subject area.	
Х	A temporary grade limited to situations with extenuating circumstances giving a	
	student additional time to complete the	
NR W	requirements for a course. Grade not reported to Registrar's office. Student has withdrawn from the course without academic penalty.	

## VI. SPECIAL NOTES:

#### Attendance:

Sault College is committed to student success. There is a direct correlation between academic performance and class attendance; therefore, for the benefit of all its constituents, all students are encouraged to attend all of their scheduled learning and evaluation sessions. This implies arriving on time and remaining for the duration of the scheduled session.

## VI. COURSE OUTLINE ADDENDUM:

The provisions contained in the addendum located on the portal form part of this course outline.

## VII. DEDUCTIONS – LATES AND FAILS

# All assignments must be submitted to a satisfactory level to achieve credit for this course

#### Lates:

An assignment is considered late if it is not submitted at the time and date specified by the instructor. The maximum grade a late assignment will be assessed is a C (65%) grade.

If an assignment deadline is missed the student MUST immediately negotiate a new deadline with the instructor. If a renegotiated deadline is missed the maximum allowable grade is 50% D when the assignment is submitted for evaluation.

A late assignment which is not executed to a minimum D (satisfactory) level will be assigned a fail grade with additional penalties outlined below.

#### Fail:

A fail grade (F) is assessed to an assignment which has not been executed to a minimum satisfactory "D" grade level or in which the directions have not been followed correctly.

Upon achieving a Fail(F) grade (below 50%) the student must meet with the instructor **immediately** to negotiate a revised deadline. The assignment must be redone to passing standard by the new deadline to achieve credit for the assignment.

Maximum grade for a failed assignment is "C" (65%)

If failed assignments are not submitted by the negotiated deadline the late penalty policy will apply.

#### **Preliminary Studies:**

Most assignments require preliminary or intermediate steps such as thumbnails, roughs, and preliminary comprehensive layouts.

These intermediate steps are evaluated according to criteria established by the instructor and submitted according to established timelines. The final grade for each assignment will be an average of the grade achieved for all stages of the assignment. This reinforces the importance of the preliminary stages of each project.

Check your evaluation criteria for each assignment to assess the need for preliminaries.

- Any assignment completed during this course may be submitted for re-evaluation if the following criteria are met by the student.
- an assignment that was initially submitted past the initial assigned deadline will not be eligible for re-evaluation.
- an assignment that initially achieved a fail grade must be resubmitted to achieve minimum project standards and will receive a maximum C grade as indicated under the section for Lates and Fails in this outline.
- the resubmitted project must be accompanied by the original project and the original evaluation sheets (with written indication of grade breakdown) provided by the professor
- assignments may be resubmitted at any time during the semester. The final date for last resubmissions will be announced by the professor during class and usually are no later than two weeks prior to the end of the semester.
- Resubmitted assignments must identify the project and class, and be clearly marked "RESUBMISSION" when submitted
- it must be understood that resubmitted assignments are usually marked with greater scrutiny than first submissions to take into consideration the learning experiences, practice, and achievement of learning outcomes achieved by the student during later sessions in the semester.
- When comparing the original submission grade and the resubmission grade the student will receive benefit of the higher grade
- Assignments will not be accepted for resubmission to include preliminary studies. Preliminary
  studies should be completed before the commencement of work on final comprehensives and as
  such will only be considered for evaluation on or before the original submission. Assignments
  resubmitted to include preliminaries must be completely re-done and have a new creative
  direction for evaluation.
