ENDOCRINOLOGY

NUR 404

Course Name

Course Number

COURSE DESCRIPTION:

This unit is devoted to individual hormonal effects, their impact on major body systems, and endocrine stress response. Major endocrine pathological conditions including diabetes insipidus, inappropriate secretion of anti-diuretic hormone, adrenal crisis, diabetic ketoacidosis and hyperosmolar crisis are discussed in relation to appropriate nursing management. A systematic assessment is incorporated.

COURSE OBJECTIVES

COURSE CONTENT

1. Outline the hormones secreted by endocrine glands and discuss the effects of each hormone

Identify the endocrine response to stress.

Discuss each of the major pathological conditions of the endocrine system in relation to changes in body function.

Outline appropriate nursing care of the patient with an endocrine disorder-

Systematically assess endocrine function.

Hormonal Effect

1. Thyroid hormones
2. Pituitary hormones
3. Parathyroid hormones
4. Adrenal hormones, cortex-medulla
5. Pancreatic Secretions

Endocrine Response to Stress

Pathological Conditions

1. Diabetes Insipidus
2. Inappropriate secretion of Antidiuretic Hormone
3. Thyroid Storm
4. Adrenal Crisis
5. Diabetic Ketoacidosis
6. Hyperosmolar Coma
7. Hypoglycemic Reaction

Nursing Care of a Patient With Endocrine Disorders

Assessment of the Endocrine System

METHOD OF ASSESSMENT (GRADING METHOD):

1. Test 1 (worth 20% of final mark)
 - anatomy
 - physiology
 - hormonal effects
2. Test 2 (worth 35% of final mark)
 - diabetes insipidus
 - syndrome of inappropriate ADH secretion
 - assessment of endocrine function
 - nursing care of the endocrine patient
 - hypoglycemia
 - diabetes mellitus Type I and Type II
3. Test 3 (worth 45% of final mark)
 - diabetic ketoacidosis
 - hyperosmolar, hypoglycemic, non-ketotic coma
 - thyroid storm
 - adrenal crisis
 - nursing care of endocrine patient
 - hormonal effects
 - hypoglycemia
 - diabetes insipidus
 - syndrome of inappropriate ADH secretion

A minimum achievement level of 70% is required.

GRADING SCALE: .

A+	90-100%
A	80-89%
B	70-79%
C	60-69%
R	Repeat Objectives not met

NOTE: Tests are the property of Sault College

HOURS: Four weeks (Total of 12 hours - 3 hours per week)

TEXTBOOKS:

Alspach J., Williams S., Core Curriculum For Critical Care Nursing,
3rd. Ed., W.B. Saunders Co., Toronto, 1985

Harvey, M.A., Study Guide to Core Curriculum for Critical Care
Nursing, W.B. Saunders Co., Toronto, 1986

METHODOLOGY: (consists of)

- .Lecture
- .Audio-Visual
 - Slide/Tape
(Diabetes Mellitis
Library #SLP 36)
 - Overheads
- .Tests (3)
- .Group Work
- .Homework and Reading Assignments
