I. COURSE DESCRIPTION:

This course focuses on the learner's personal discovery of self and self in relation to others. Through interaction and reflection, emphasis is placed on understanding how select concepts relate to and impact on our experiences with self and others.

II. LEARNING OUTCOMES AND ELEMENTS OF THE PERFORMANCE:

Ends-in-view:

This course introduces learners to a guided exploration of self. As opposed to 'self analysis', it focuses on illuminating aspects of self as a precursor to the development as a professional. The transformation from a self focus, towards being a nurse requires that the student continually reflects on the presence of self for an understanding of living the nursing role. As a complement to the learning process, Johns' (2006) concept of reflection will facilitate the expansion of the personal blueprints of thinking, to begin charting a way in becoming a nurse.

Process:

This course, through guidance and dialogue with others, especially with peers, is experientially based. Student learning emerges from various learning activities such as class and group discussions, as well as guided reflection. The learner is expected to think about self in relation to choices and behaviours as a basis for structuring the reflective process. The learner is expected to bring to each class preparatory and reflective work to help guide their learning.

Although the materials selected for classes facilitate self-directed learning, participation in preparatory and in-class work is highly recommended. The intent of the materials is to engage the learner in the challenge of becoming a nurse. As a learner in a professional school, he/she is encouraged to find 'critical peers' and to access other forums for collegial exchange. In relation to NURS1006, you will be required to write structured reflections based on Johns' (2006) model to be integrated within course assignments for NURS1206.

As the learner, you are encouraged to read this outline and the course assignment/learning activity package in complement with the student manual. Browse through the course information to get a sense of the course in its entirety. Note due dates assigned for the preparatory and assignment work. As you progress through this course, keep in contact with the course professor. This will help prevent confusion and alleviate concerns you may have regarding the course.

This course is supported by Learning Management System (LMS). Please check this course site frequently for updates.

V. EVALUATION PROCESS/GRADING SYSTEM:

Assignment # 1: 25% Assignment # 2: 30% Assignment # 3: 45%

Please refer to BScN Student Manual policies regarding assignments. The course assignment and learning activities' package provides assignment descriptions and due dates. All assignments are due at the beginning of class unless otherwise directed.

Late assignment/extension request program policies will be strictly followed. Extension requests must be made in writing prior to due date and time. Written requests via the course LMS are acceptable with permission from the course professor. Written requests must include the new due date and time. Extension penalties for non extenuating circumstances will be 10% per day including weekends and holidays. For example if an assignment is worth 25% then a deduction of 2.5 marks per day will be subtracted from the assignment final grade.

Assignment #1 (only) must be submitted to <u>www.turnitin.com</u> by the due date and time. Note: an assignment not handed in on time to turnitin will be considered a late assignment and program policies regarding late assignments will apply. In addition to handing in paper copies an electronic copy of each assignment needs to be emailed to the professor via LMS by the due date and time.

Punctual, regular attendance and having class preparatory work completed are highly recommended success strategies in this course and will facilitate quality learning experiences.

The following semester grades will be assigned to students in postsecondary courses:

		Grade Point
<u>Grade</u>	Definition	<u>Equivalent</u>
A+	90 - 100%	4.00
A	80 - 89%	4.00
В	70 - 79%	3.00
С	60 - 69%	2.00
D	50 – 59%	1.00
F (fail)	49% or below	0.00

CR (Credit)	Credit for diploma requirements has been awarded.
S	Satisfactory achievement in field placement
	or non-graded subject areas.
U	Unsatisfactory achievement in field
	placement or non-graded subject areas.
Х	A temporary grade. This is used in limited
	situations with extenuating circumstances
	giving a student additional time to complete
	the requirements for a course.
NR	Grade not reported to Registrar's office.
W	Student has withdrawn from the course without academic penalty.

NOTE:

For such reasons as program certification or program articulation, certain courses require minimums of greater than 50% and/or have mandatory components to achieve a passing grade.

It is also important to note, that the minimum overall GPA required in order to graduate from a Sault College program remains 2.0.

All <u>NURS</u> courses require 60% for a passing grade.

All <u>science courses</u>, including BIOL2105, BIOL2111, CHMI2220 and <u>elective</u> <u>courses</u> require 50% for a passing grade.

VI. SPECIAL NOTES:

Special Needs:

If you are a student with special needs (e.g. physical limitations, visual impairments, hearing impairments, or learning disabilities), you are encouraged to discuss required accommodations with your instructor and/or the Special Needs office. Visit Room E1101 or call Extension 2703 so that support services can be arranged for you.

Retention of course outlines:

It is the responsibility of the student to retain all course outlines for possible future use in acquiring advanced standing at other postsecondary institutions.

5

Communication:

The College considers *LMS* as the primary channel of communication for each course. Regularly checking this software platform is critical as it will keep you directly connected with faculty and current course information. Success in this course may be directly related to your willingness to take advantage of the *Learning Management System* communication tool.

Plagiarism:

Students should refer to the definition of "academic dishonesty" in *Student Code of Conduct.* Students who engage in "academic dishonesty" will receive an automatic failure for that submission and/or such other penalty, up to and including expulsion from the course/program, as may be decided by the professor/dean. In order to protect students from inadvertent plagiarism, to protect the copyright of the material referenced, and to credit the author of the material, it is the policy of the department to employ a documentation format for referencing source material.

Course outline amendments:

The Professor reserves the right to change the information contained in this course outline depending on the needs of the learner and the availability of resources.

Substitute course information is available in the Registrar's office.

VII. PRIOR LEARNING ASSESSMENT:

Students who wish to apply for advance credit transfer (advanced standing) should obtain an Application for Advance Credit from the program coordinator (or the course coordinator regarding a general education transfer request) or academic assistant. Students will be required to provide an unofficial transcript and course outline related to the course in question.
