# I. COURSE DESCRIPTION:

Learners examine assumptions underlying a variety of teaching and learning perspectives and methodologies. Through reflection, learners explore personal beliefs and values in relation to these assumptions. Through praxis and building on concepts in Professional Growth I and II, learners experience teaching/learning opportunities with a focus on health protection. *Students are strongly advised to be enrolled in the concurrent 3<sup>rd</sup> Year Nursing Practice Course*. Prerequisite: NURS2057. (lec 3) cr 3.

# II. LEARNING OUTCOMES AND ELEMENTS OF THE PERFORMANCE:

#### **Ends-in-View**

- 1. Opportunities will be provided for participants to experiment in teaching and learning and to explore and experience the role of educator with individuals and groups in a variety of contexts. Through active discussion and personal reflection participants will examine and critique educational theories and their relevance to nursing.
- 2. Throughout the course, the focus will be on the acquisition and application of evidence –informed practice, personal meaning-making, and the personal and professional transitions that occur when moving back and forth as both learner and educator.

## **Process**

This course is designed to promote professional growth as a teacher and a learner, with examination and exploration of teaching/learning concepts, theories and methodologies. As a nurse educator, teaching/learning is an intrinsic part of the educator role, whether it is with a single client, a family, a community group or peers. Conceptual and experiential understanding of course concepts is developed during interactive class discussions, and the sharing of personal reflections. Praxis will occur in both the classroom and clinical settings.

## **III. TOPICS:**

Through the use of a variety of learning activities, the course content will reflect the following concepts:

- Paradigm shifts in education and learning. Historical beliefs/vision
- Exploring theoretical and personal perspectives on teaching and learning
- Factors affecting assessment of the learner (Assessment)
- Assessing the need to know, setting ends-in-view, negotiated learner (planning)
- Ways of being as nurse teacher, involved in mutual planning (process)
- Ways of facilitating as nurse teacher, creating the teaching moment, managing structure and complexity (strategies)
- Ways of facilitating as nurse teacher, pragmatic principles of teaching
- Assessing for personal meaning (evaluation of self and learners)

Others topics may be added as student/faculty needs suggest.

### NOTE:

For such reasons as program certification or program articulation, certain courses require minimums of greater than 50% and/or have mandatory components to achieve a passing grade.

It is also important to note, that the minimum overall GPA required in order to graduate from a Sault College program remains 2.0.

All <u>NURS</u> courses require 60% for a passing grade.

Elective courses require 50% for a passing grade.

Mid Term grades are provided in theory classes and clinical/field placement experiences. Students are notified that the midterm grade is an interim grade and is subject to change.

# VI. SPECIAL NOTES:

#### Attendance:

Sault College is committed to student success. There is a direct correlation between academic performance and class attendance; therefore, for the benefit of all its constituents, all students are encouraged to attend all of their scheduled learning and evaluation sessions. This implies arriving on time and remaining for the duration of the scheduled session. If there are extenuating circumstances bearing upon a student's absence, the instructor should be notified. Absences in excess of 20% may jeopardize receipt of credit for the course.

This course's D2L, its features, and its contents are for the exclusive use of nursing students registered in this section of this course. The information contained herein is privileged and confidential. Any unauthorized use, dissemination, or copying is strictly prohibited.
