### Course Evaluation:

Passing Grade: 60%, C

### Evaluation Process and Grading System:

Evaluation Type	Evaluation Weight
Change Assignment	20%
Final Exam	30%
Midterm Exam	30%
Nutrition Test	20%

### Books and Required Resources:

An Invitation to Health by Hales  
Publisher: Nelson Edition: 4th Canadian  
ISBN: 9780176531539

### Course Outcomes and Learning Objectives:

#### Course Outcome 1.

Examine the evolution of health care with a focus on Canada's health care delivery system and health care for future populations of Canadians.

#### Learning Objectives 1.

- Outline political and health care systems at international, national, provincial, regional and municipal levels.
- Examine trends in health care at international, national, provincial, regional and municipal levels.
- Explain why Canada is viewed as a "welfare state".
- Describe major events preceding Canada's National health Insurance Program.
- Explain the principles upon which the Canadian Model of Health is founded and differentiate between primary, secondary and tertiary levels of health care.
- Describe present and future populations of Canadians.

# COURSE OUTLINE

## PNG115

3

Prepared: Lynn Tomie Approved: Bob Chapman

Develop a vision for the future of health care in Canada.

### **Course Outcome 2.**

Examine the theoretical and conceptual frameworks of health.

### **Learning Objectives 2.**

Identify a personal definition of health and wellness.  
Compare various models of health and wellness.  
Examine different cultures and their approach to health and wellness.  
Explain the concepts of health promotion and health protection.  
Analyze the relationship between empowerment and health.  
Describe the meaning of lived experience in relationship to health.  
Develop personal strategies to promote and protect health.

### **Course Outcome 3.**

Examine the determinants of health and healthy lifestyles.

### **Learning Objectives 3.**

Explain how socio-economic status and education impact an individual's health.  
Defend the significance of an individual's biologic and genetic endowment and gender on person health.  
  
Explain the effects of the physical environment on an individual's and community's health status.  
Examine how culture, race and ethnicity are relevant in health care  
Explain the significance of an individual's perception of health, health practices and coping skills on his/her health.  
Examine present health services and how these impact present and future health statistics.  
Examine how health is viewed and impacted at different stages of the development cycle.  
Examine the role of the family in an individual's choice of health practices.

# COURSE OUTLINE

## PNG115

4

Prepared: Lynn Tomie Approved: Bob Chapman

### Course Outcome 4.

Identify indicators of physiological, psychological and spiritual health with the emphasis on the role of self-responsibility in health promotion

### Learning Objectives 4.

State the norms of health functioning for physiological needs (nutritional-metabolic pattern, elimination pattern, health perception/health maintenance pattern, sleep/rest pattern, activity/exercise pattern, cognitive/perceptual pattern).

Describe how health for physiological needs is impacted.

State the norms of health functioning for psychological needs (coping/stress tolerance pattern, self-perception/self-concept pattern, sexuality/reproductive pattern).

Describe how health for psychological needs is impacted.

State the norms of health functioning for spiritual needs (value/belief pattern).

Describe how health for spiritual needs is impacted.

### Course Outcome 5.

Apply behavioural change theory to personal situations.

### Learning Objectives 5.

Explain change theories and models.

Describe the stages of change.

Explain factors influencing behavioural change decisions.

Identify behavioural change techniques.

Discover strategies for dealing with resistance to change.

### Course Outcome 6.

Examine the nursing process and concept care mapping

### **Learning Objectives 6.**

Identify the five steps of the nursing process.  
Recognize problem solving actions throughout each step of the nursing process.  
Identify nursing interventions to achieve desired outcomes (goals).  
State nursing diagnoses/judgements about a client's functional state of health or response to a health problem.  
Discuss evaluation of a client's response to selected nursing interventions and achievement of expected outcomes (goals).  
Define and list the purposes of concept care maps.  
Identify steps to develop concept care maps.  
Identify how concept care maps are used during client care.

### **Course Outcome 7.**

Examine the critical thinking process

### **Learning Objectives 7.**

Define critical thinking.  
Explore the importance of critical thinking for nurses.  
Discuss the "Patterns of Knowing" as the core of nursing knowledge.  
Identify critical thinking skills and nursing attitudes.  
Evaluate own critical thinking skills.  
Relate critical thinking processes to the nursing process and concept care maps.  
Identify guidelines to enhance critical thinking.

### **Course Outcome 8.**

Assess the health needs of diverse groups within a community and identify health promotion and health protection strategies.

### **Learning Objectives 8.**

# COURSE OUTLINE

## PNG115

6

Prepared: Lynn Tomie    Approved: Bob Chapman

Define unique and vulnerable groups in communities.  
Discuss a framework used in the health assessment of a group within a community and explore factors that affect the health of a group (e.g. culture, economy, technology, politics, environment, heredity and determinants of health).  
Discuss health promotion and health protection strategies for a group within a community and develop a plan to promote health.  
Explain the rationale supporting Harm Reduction practices.  
Identify community resources that promote health.  
Explore a variety of health concerns that influence nursing practice within a community.  
Identify the role of the practical nurse in promoting and maintaining health.

**Date:**

Wednesday, August 30, 2017

Please refer to the course outline addendum on the Learning Management System for further information.
