Ends in View and Processes:

Ends in View	Process
Ends-in-view: 1. Develop heightened awareness of their own personal concepts of health and healthy living 2. Become aware of differences in beliefs, values, and perceptions about health held by others and how these differences influence the way people behave, throughout the lifespan, in relation to health 3. Explore the complexities of the change process in relation to transitions in the life cycle and in healthful living practices 4. Learn basic health assessment skills 5. Apply relational practice and group process concepts in the nursing practice setting through collaboration with clients, family and client/community groups 6. Participate in inter-professional, intra-professional and interdisciplinary learning experiences in class, laboratory and /or nursing practice settings	Process: In order to develop a conceptual and experiential understanding of the concepts and theories in this course, learners will be provided with learning activities in which they will need to personally engage. Experiences arising from learning activities will be shared with others in active dialogue so that people's experiences with health can be considered from praxis perspective. The teacher's responsibility is to guide and facilitate, the learner's responsibility is to use resources and to actively engage in dialogue and in the process of learning.

Evaluation Process and Grading System:

Evaluation Type	Evaluation Weight	Course Outcome Assessed
Final Exam	40%	
Scenario Testing	20%	
Test #1	20%	
Test #2	20%	

Date:

July 9, 2018
