Ends in View	Process					
The learner will be able to demonstrate a developed knowledge and critical understanding of health protection and illness prevention approaches in						

In response to public health requirements pertaining to the COVID19 pandemic, course delivery and assessment traditionally delivered in-class, may occur remotely either in whole or in part in the 2020-2021 academic year.

SAULT COLLEGE | 443 NORTHERN AVENUE | SAULT STE. MARIE, ON P6B 4J3, CANADA | 705-759-2554

relation to health care delivery in the context of hospitals and community setting, demonstrate the ability to use evidenced-based practice guidelines and literature to inform nursing practice in the context of classroom, hospital and community settings, demonstrate integrative thinking that includes relevant pathophysiology, pharmacology, laboratory values, evidenced-based practice guidelines, theoretical concepts, social determinants of health and community guidelines, demonstrate sound judgment in the use of these concepts and content in a variety of learning contexts including nursing clinical settings and display confidence and growing competencies in their practice

Active learning is the philosophical approach in this course. Engaging in a variety of learning strategies such as discussion, class presentation, case study analysis, debate, team work, critical reflection and clinical practice learners will develop the ability to apply their knowledge and clinical practice learners will develop the ability to apply their knowledge to specific contexts. The emphasis on critical thinking and integration of knowledge prepares learners for competent and safe nursing practice.

Evaluation Process and Grading System:

Evaluation Type	Evaluation Weight
Final exam	50%
Midterm exam	40%
Quiz	10%

Date:

August 17, 2020

Addendum:

Please refer to the course outline addendum on the Learning Management System for further information.
