

COURSE OUTLINE: PNG130 - NURSING THEORY II

Prepared: Barbara Thompson

Approved: Bob Chapman, Chair, Health

Course Code: Title	PNG130: NURSING THEORY II
Program Number: Name	3024: PRACTICAL NURSING
Department:	PRACTICAL NURSING
Semesters/Terms:	21W, 21S
Course Description:	<p>The course exposes the learner to health promotions and health problems affecting both pregnant women and children and life stages from infancy to older adulthood. The impact of various common health problems at different stages of the life cycle and their functional outcomes in terms of morbidity, mortality, psychological wellbeing, reproduction and growth will be highlighted.</p> <p>The learner will become familiar with the health and nutritional problems related to growth and development, assessment of the well-child and the antenatal period. Using a case study approach, learners will focus on health promotion disease prevention and health protection strategies for selected individuals throughout the lifespan. These concepts will be studied as they apply to individuals, families, groups and communities. Vulnerable populations and the impacts of the determinants of health will be discussed as they relate to population health.</p>
Total Credits:	3
Hours/Week:	3
Total Hours:	45
Prerequisites:	PNG115, PNG116
Corequisites:	There are no co-requisites for this course.
This course is a pre-requisite for:	PNG233, PNG234, PNG236, PNG238
Vocational Learning Outcomes (VLO's) addressed in this course:	<p>3024 - PRACTICAL NURSING</p> <p>VLO 1 Communicate therapeutically with clients and members of the health care team.</p> <p>VLO 2 Assess clients across the life span, in a systematic and holistic manner.</p> <p>VLO 3 Plan safe and competent nursing care, based upon a thorough analysis of available data and evidence-informed practice guidelines.</p> <p>VLO 4 Select and perform nursing interventions using clinical judgment, in collaboration with the client and, where appropriate, the health care team, that promote health and well-being, prevent disease and injury, maintain and/or restore health, promote rehabilitation, and/or provide palliation.</p> <p>VLO 5 Evaluate the outcomes resulting from all interventions in the nurse-client interaction and modify the plan of care as required.</p> <p>VLO 6 Act equitably and justly with clients and members of the health care team.</p> <p>VLO 7 Adapt to a variety of health care settings, using different leadership skills and styles as appropriate to each setting.</p>
Please refer to program web page for a complete listing of program outcomes where applicable.	

In response to public health requirements pertaining to the COVID19 pandemic, course delivery and assessment traditionally delivered in-class, may occur remotely either in whole or in part in the 2020-2021 academic year.

SAULT COLLEGE | 443 NORTHERN AVENUE | SAULT STE. MARIE, ON P6B 4J3, CANADA | 705-759-2554

	VLO 8	Contribute to creating a healthy and safe work environment in a variety of health care settings.				
	VLO 9	Practise in a self-regulated, professional and ethical manner, complying with relevant legislation and with the standards of both the regulatory body and the practice setting to provide safe and competent client care.				
Essential Employability Skills (EES) addressed in this course:	EES 1	Communicate clearly, concisely and correctly in the written, spoken, and visual form that fulfills the purpose and meets the needs of the audience.				
	EES 2	Respond to written, spoken, or visual messages in a manner that ensures effective communication.				
	EES 4	Apply a systematic approach to solve problems.				
	EES 5	Use a variety of thinking skills to anticipate and solve problems.				
	EES 6	Locate, select, organize, and document information using appropriate technology and information systems.				
	EES 7	Analyze, evaluate, and apply relevant information from a variety of sources.				
	EES 8	Show respect for the diverse opinions, values, belief systems, and contributions of others.				
	EES 9	Interact with others in groups or teams that contribute to effective working relationships and the achievement of goals.				
	EES 10	Manage the use of time and other resources to complete projects.				
	EES 11	Take responsibility for ones own actions, decisions, and consequences.				
Course Evaluation:	Passing Grade: 60%, A minimum program GPA of 2.0 or higher where program specific standards exist is required for graduation.					
Other Course Evaluation & Assessment Requirements:	College of Nurses of Ontario (CNO) Registered Practical Nurse (RPN) Entry-to-Practice Competencies (ETPs) ETP 8, 9, 11, 16, 22, 24, 26, 28, 37, 43, 47, 48, 49, 56
