I. PHILOSOPHY/GOALS:

This course is designed to assist the graduating student to integrate knowledge and material from all previous courses in the Nursing Programme. It serves as an evaluation of Theory that has been presented, and prepares the student for his/her Provincial Registration Examinations.

Emphasis is placed on the legal, ethical and theoretical bases of nursing practice as it interfaces with the clinical experience in the co-requisite course.

II. STUDENT PERFORMANCE OBJECTIVES;

Upon successful completion of this course, the student will be able to:

discuss relationships within the health team which ensure mutual co-operation and support

discuss nursing care based on a respect for clients' rights

examine nursing care reflecting the ethical basis of nursing

examine nursing care reflecting the legal basis of nursing

determine multiple accountabilities in nursing practice

analyze the responsibility for own continuous learning.

analyze the responsibility for own continuous professional and personal development

compare and contrast elements of selected nursing theories

make application to write Provincial Registration Examinations.
