I. COURSE DESCRIPTION:

In this course, students will continue the formulation of specific treatment and home care programs for individuals with acute, subacute and chronic medical conditions. Students will design comprehensive treatment plans which integrate basic treatment and advanced massage techniques, remedial exercise, hydrotherapy and home care programs.. A case study approach will be used to foster critical thinking and decision making skills.

II. LEARNING OUTCOMES AND ELEMENTS OF THE PERFORMANCE:

Upon successful completion of this course, the student will be able to:

A. Use critical thinking and problem solving strategies to analyze client information and form a clinical impression

Elements of the Performance

- 1. Consolidate assessment routines applicable to client presentation.
 - a) health history and interview
 - b) palpation
 - c) observation
 - d) specific orthopaedic and neurological testing
 - e) muscle strength, length and pain testing
- 2. Amalgamate assessment findings with current and accurate knowledge of the presumed condition.
 - a) select, critically read and apply research in massage and pathology as available and appropriate
- 3. Recognize elements which may contraindicate or suggest modifications to treatment.
- B. Describe treatment strategies for acute, sub-acute and chronic medical conditions, including:
 - 1) principles of treatment
 - 2) basic and advanced massage techniques
 - 3) remedial exercise
 - 4) hydrotherapy
 - 5) home care

MASSAGE THEORY	VI
COURSE NAME	

II. LEARNING OUTCOMES AND ELEMENTS OF PERFORMANCE:

- C. Determine implications for massage therapy treatment strategies and techniques given possible complicating factors.
 - 1. Determine the implications of a variety of medications and drugs.
 - a) analgesics
 - b) anti-inflammatories (both steroid and nsaids)
 - c) anit-coagulants
 - d) anti-depressants
 - e) alcohol/nicotine/marijuana
 - 2. Determine the implications of the following medical conditions.
 - a) Multiple System
 - Diabetes
 - Chronic renal failure
 - HIV infection
 - Cancer
 - Mental health conditions
 - b) Circulatory
 - Edema, including CHF/Pulmonary Edema
 - Atherosclerosis
 - Hypotension
 - Myocardial infarction
 - Conductive disturbances of the heart
 - c) Central Nervous System
 - Epilepsy
 - d) Integumentary System
 - Decubitus ulcers

MASSAGE THEORY	VI
COURSE NAME	

II. LEARNING OUTCOMES AND ELEMENTS OF PERFORMANCE:

- D. Given any determined implications, design a logical and defensible <u>holistic</u> treatment plan and home care plan for individuals in all stages (acute, sub-acute and chronic) for the following conditions or pathologies. Plans will integrate massage techniques, hydrotherapy and remedial exercise.
 - 1. Multiple System
 - Conditions associated with pregnancy
 - 2. Circulatory
 - Hypertension
 - Renaud's disease/phenomenon
 - Varicosities/thrombosis
 - 3. Respiratory
 - Chronic bronchitis
 - Asthma
 - Emphysema
 - Sinusitis
 - 4. Central Nervous System
 - Musculoskeletal complications of CVA (Hemiplegia)
 - Spinal cord injuries (para/quadriplegia)
 - Cerebral palsy
 - Parkinsonism (Rigidity)
 - Multiple Sclerosis
 - Poliomyelitis
 - 5. Peripheral Nervous System
 - Ulnar, median, radial paralysis
 - Erb's and Klumpke's paralysis
 - Sciatic, peroneal, tibial paralysis
 - Facial nerve paralysis (Bell's Palsy)
 - Neuralgia/neuritis
 - Intercostal and trigeminal neuralgia
 - Nerve compression/entrapment syndrome (ie Thoracic outlet, piriformis, carpal tunnel syndromes)
 - 6. Integumentary System
 - Scars/wounds/burns
- E. Discuss appropriate consultations and referrals with colleagues and other members of an interdisciplinary team.

III. TOPICS:

- a. Assessment Strategies
- b. Treatment Strategies
 - specific pathologies/conditions
- c. Contraindications and Precautions
- d. Referral Strategies

IV. REQUIRED RESOURCES/TEXTS/MATERIALS:

Rattray, F. (1995). <u>Massage Therapy: An Approach to Treatment</u> 2nd Edition, Toronto Massage Therapy Texts and Maverick Consultants.

Hertling and Kessler (1996). <u>Management of Common Musculoskeletal Disorders</u>. 3rd Edition, Lippincott

V. EVALUATION PROCESS/GRADING SYSTEM:

The evaluation methods will be determined and discussed with students the first two weeks of class.

Grading

- 1. The pass mark for this course is 60%. The letter grades for this course will be assigned in accordance with those established by Sault College.
- 2. Students who miss scheduled tests during the semester will not be allowed to write on another day.
- 3. If the instructor has been appropriately notified of your absence for the test, the test you miss will count for the same percentage as you receive on the final exam. If you have not notified your instructor, you will receive a grade of "0" for the missed test.
- 4. Each student must write the final exam and complete any required assignments.

V. EVALUATION PROCESS/GRADING SYSTEM:

The following semester grades will be assigned to students in postsecondary courses:

		Grade Point
<u>Grade</u>	Definition	Equivalent
A+	90 - 100%	4.00
A	80 - 89%	3.75
В	70 - 79%	3.00
С	60 - 69%	2.00
R (Repeat)	59% or below	0.00
CR (Credit)	Credit for diploma requirements has been	
	awarded.	
S	Satisfactory achievement in field placement	
	or non-graded subject areas.	
U	Unsatisfactory achievement in field	
	placement or non-graded subject areas.	
Х	A temporary grade. This is used in limited	
	situations with extenuating circumstances	
	giving a student additional time to complete	
	the requirements for a course (see Policies &	
	Procedures Manual – Deferred Grades and	
	Make-up).	
NR	Grade not reported to Registrar's office. This	
	is used to facilitate transcript preparation	
	when, for extenuating circumstances, it has	
	been impossible for the faculty member to	
	report grades.	
	Toport grades.	

VI. SPECIAL NOTES:

Special Needs:

If you are a student with special needs (e.g. physical limitations, visual impairments, hearing impairments, or learning disabilities), you are encouraged to discuss required accommodations with your instructor and/or the Special Needs office. Visit Room E1204 or call Extension 493, 717, or 491 so that support services can be arranged for you.

Retention of course outlines:

It is the responsibility of the student to retain all course outlines for possible future use in acquiring advanced standing at other postsecondary institutions.

VI. SPECIAL NOTES:

Plagiarism:

Students should refer to the definition of "academic dishonesty" in *Student Rights and Responsibilities*. Students who engage in "academic dishonesty" will receive an automatic failure for that submission and/or such other penalty, up to and including expulsion from the course, as may be decided by the professor. In order to protect students from inadvertent plagiarism, to protect the copyright of the material referenced, and to credit the author of the material, it is the policy of the department to employ a documentation format for referencing source material.

The Professor reserves the right to change the information contained in this course outline depending on the needs of the learner and the availability of resources.

Substitute course information is available in the Registrar's office.

VII. PRIOR LEARNING ASSESSMENT:

Students who wish to apply for advanced credit in the course should consult the instructor.

VIII. DIRECT CREDIT TRANSFERS:

Students who wish to apply for direct credit transfer (advanced standing) should obtain a direct credit transfer form from the Dean's secretary. Students will be required to provide a transcript and course outline related to the course in question.
