Course Outcomes and Learning Objectives:

Course Outcome 1	Learning Objectives for Course Outcome 1
1. Using the nursing process and a case study approach, discuss health promotion, health protection strategies and safety strategies for each stage from infancy to late adulthood.	1.1 Discuss the impact of lifestyle choices on health promotion and health protection (including nutrition, activity/exercise, and wellness). 1.2 Discuss the importance of culture as a factor in health promotion and health protection. 1.3 Discuss normal physical changes associated with aging throughout the life span 1.4 Discuss age-appropriate health promotion and health screening. 1.5 Discuss age-related safety issues and safety strategies. 1.6 Identify health promotion/maintenance strategies for the infancy to late adulthood periods. 1.7 Discuss the role of the practical nurse in holistic health promotion from infancy to late adulthood. 1.8 Consider the determinants of health when planning health promotion and health protection strategies. 1.9 Develop a concept map and teaching plan for a common health concern for a specific age group.
Course Outcome 2	Learning Objectives for Course Outcome 2
2. Using the nursing process and a case study approach, identify health protection and safety strategies for at risk individuals and their families from infancy to late adulthood.	2.1 Discuss strategies to address age related health challenges throughout the life span from infancy to elderly client. Exemplars related to each stage of life will support discussions.
Course Outcome 3	Learning Objectives for Course Outcome 3
3. Describe the experience of the woman during the transition from prenatal to postpartum.	3.1 Describe normal physiological changes in the pregnant woman. 3.2 Discuss the normal psychosocial concerns of the pregnant woman. 3.3 Explain the purpose for prenatal screening and diagnostic tests. 3.4 Discuss the impact of teratogens on prenatal development. 3.5 Describe normal physiological changes in the postpartum woman. 3.6 Discuss the psychosocial adaptation of the childbearing family. 3.7 Explore the scope of the role of the practical nurse during the perinatal period. 3.8 Discuss health teaching needs for the childbearing family during the antepartum, intra-partum and post partum periods.

Course Outcome 4	Learning Objectives for Course Outcome 4
4. Describe the use of a functional health pattern framework in assessing families throughout the lifespan.	4.1 Define family. 4.2 Describe traditional family types/changing family types. 4.3 Identify the stages of family development. 4.4 Discuss the impact of culture on the family. 4.5 Discuss frameworks utilized in family assessment. 4.6 Apply a framework to assess a family. 4.7 Discuss health promotion and health protection strategies for families. 4.8 Discuss the role of the practical nurse in assisting individuals to be responsible in achieving/maintaining family health. 4.9 Develop a health promotion/health protection plan for a family.
Course Outcome 5	Learning Objectives for Course Outcome 5
5. Examine adaptations to care for hospitalized pediatric patients.	5.1 Describe the child experience of hospitalization. 5.2 Discuss health care adaptations for the hospitalized child and family.
Course Outcome 6	Learning Objectives for Course Outcome 6
6. Discuss the concepts of grieving and loss, as a natural process in the development of an individual.	6.1 Define grief. 6.2 Define loss. 6.3 Explore the variety of life situations in which individuals experience grief and loss. 6.4 Identify culturally sensitive approaches when caring for terminally ill patients and patients experiencing grief and loss. 6.5 Discuss principles of palliative care. 6.6 Describe the role of the nurse in promoting comfort for terminally ill clients. 6.7 Explore the role of the practical nurse in supporting clients experiencing grief and loss. 6.8 Describe care of the family after death.
Course Outcome 7	Learning Objectives for Course Outcome 7
7. Utilize principles of teaching-learning to promote optimal health, wellness and safety of the client.	7.1 Provide information to facilitate decision-making related to the individual's health, wellness and safety of the individual. 7.2 Develop a plan to promote health and wellness of the client considering the determinants of health. 7.3 Apply principles of teaching and learning to promote clients health and wellness. 7.4 Implement a relevant and age appropriate health teaching plan to promote the health and wellness of the client. 7.5 Implement health teaching at the individual's level of understanding. 7.6 Examine the effectiveness of the teaching plan for the client.

Evaluation Process and Grading System:

Evaluation Type	Evaluation Weight	Course Outcome Assessed
Teaching Learning Assignment	20%	

	Test #1	30%	
	Test #2	30%	
	Test #3	20%	

Date: November 9, 2018
