

COURSE OUTLINE: OPA110 - PT CLINICAL SKILLS I

Prepared: Joanna MacDougall Approved: Bob Chapman, Chair, Health

Course Code: Title	OPA110: PHYSIOTHERAPY CLINICAL SKILLS I
Program Number: Name	3022: OCCUP/PHYSIO/ASSIST
Department:	OTA/PTA ASSISTANT
Semesters/Terms:	21W
Course Description:	The purpose of this course is to provide the student with the ability to perform basic skills performed by a Physiotherapist Assistant. The student is introduced to essential competencies related to handling skills, therapeutic exercise, measurement of joint motion, bed mobility, transfers and assistive ambulation. The student will be expected to demonstrated competence in areas of safety, guarding, handling skills, set up and fit of assistive devices, as well as effective instruction, cuing and providing feedback to the client.
Total Credits:	3
Hours/Week:	3
Total Hours:	45
Prerequisites:	OPA101, OPA103, OPA104, OPA118
Corequisites:	There are no co-requisites for this course.
This course is a pre-requisite for:	OPA203, OPA209, OPA217, OPA228
Vocational Learning Outcomes (VLO's)	3022 - OCCUP/PHYSIO/ASSIST
addressed in this course: Please refer to program web page for a complete listing of program	VLO 1 Communicate appropriately and effectively, through verbal, nonverbal, written and electronic means, with clients, their families, and significant others, occupational therapists, physiotherapists, other health care providers, and others within the role of the therapist assistant.
outcomes where applicable.	VLO 2 Participate in the effective functioning of interprofessional health care teams within the role of the therapist assistant.
	VLO 3 Establish, develop, maintain, and bring closure to client-centred, therapeutic relationships within the role of the therapist assistant.
	VLO 4 Ensure personal safety and contribute to the safety of others within the role of the therapist assistant.
	VLO 5 Practice competently in a legal, ethical, and professional manner within the role of the therapist assistant.
	VLO 6 Document and complete client records in a thorough, objective, accurate, and nonjudgmental manner within the role of the therapist assistant.
	VLO 7 Develop and implement strategies to maintain, improve, and promote professional competence within the role of the therapist assistant.
	VLO 8 Perform effectively within the roles and responsibilities of the therapist assistant through the application of relevant knowledge of health sciences, psychosociological

In response to public health requirements pertaining to the COVID19 pandemic, course delivery and assessment traditionally delivered in-class, may occur remotely either in whole or in part in the 2020-2021 academic year.

		sciences, and healt	h conditions.	
	VLO 9	Perform functions of that contribute to the intervention/treatme	common to both physiotherapy and occupational therapy practices e development, implementation and modification of ent plans, under the supervision of and in collaboration with the oist and/or physiotherapist.	
	VLO 10	implementation, an	occupational performance by contributing to the development, d modification of intervention/treatment plans, under the in collaboration with the occupational therapist.	
	VLO 11	implementation, an	optimal physical function by contributing to the development, d modification of intervention/treatment plans, under the n collaboration with the physiotherapist.	
Essential Employability Skills (EES) addressed in this course:	EES 1	Communicate clearly, concisely and correctly in the written, spoken, and visual form that fulfills the purpose and meets the needs of the audience.		
	EES 2	Respond to written, spoken, or visual messages in a manner that ensures effective communication.		
	EES 6	Locate, select, orga and information sys	nize, and document information using appropriate technology tems.	
	EES 7	Analyze, evaluate,	and apply relevant information from a variety of sources.	
	EES 10	Manage the use of	time and other resources to complete projects.	
	EES 11	Take responsibility	for ones own actions, decisions, and consequences.	
Course Evaluation:	Passing	Grade: 60%, C		
	A minimu for gradu		2.0 or higher where program specific standards exist is required	
Other Course Evaluation & Assessment Requirements:			A & PTA diploma, Performance Based Evaluations require a gory of performance.	
Books and Required Resources:	Publishe	utic Exercise: Founda r: F.A. Davis Compar 80803658509	ations and Techniques (2017) by Kisner and Colby ny Edition: 7th	
	8 goniom		nt kit - provided by Supplies irometer to be purchased from college bookstore, also required to and measuring tape	
Course Outcomes and	Course	Outcome 1	Learning Objectives for Course Outcome 1	
Learning Objectives:	understa the PT a develop	onstrate an anding of the role of and PTA in the ment and entation of the nt plan.	 1.1. Identify the role of the Registered Physiotherapist in the initial and ongoing assessment of a clients condition and the implementation and monitoring of a treatment plan. 1.2 Identify the role of the Physiotherapist Assistant in assisting the Registered Physiotherapist to implement and monitor the treatment plan. 	
	Course	Outcome 2	Learning Objectives for Course Outcome 2	
	2. Demo	onstrate knowledge	2.1 Define Therapeutic Exercise and describe aspects of	

In response to public health requirements pertaining to the COVID19 pandemic, course delivery and assessment traditionally delivered in-class, may occur remotely either in whole or in part in the 2020-2021 academic year.

of the basic physiological effects of different types of exercise.	Physical Function (balance, cardiopulmonary fitness, coordination, flexibility, mobility, muscle performance, neuromuscular control, postural control and stability). 2.2 Define and classify different types of therapeutic exercise: passive, active, active assisted, resistive (isometric, isotonic, isokinetic, eccentric and concentric), endurance, aerobic etc. 2.3 Identify common physical impairments managed with therapeutic exercise. 2.4 Identify and describe impairment training versus functional/purposeful exercise. 2.5 Identify and describe different therapeutic exercise interventions to address aerobic conditioning, muscle performance (strength, power, endurance), range of motion and stretching (passive, active, active-assisted), neuromuscular control, postural control, stabilization, balance, relaxation, breathing.	
Course Outcome 3	Learning Objectives for Course Outcome 3	
3. Demonstrate knowledge and skill in the implementation, maintenance and monitoring of physiotherapy programs involving therapeutic exercise.	3.1 Recognize progression in exercise routines and explain the risks of over-loading or under-loading the clients exercises.3.2 Describe and demonstrate functional activities that may be	
Course Outcome 4	Learning Objectives for Course Outcome 4	
4. Demonstrate skill in the safe application of therapeutic exercise.	 4.1 Describe and explain grading versus progression in exercise routines. 4.2 Recognize changes in behaviour patterns: describe signs of distress and identify the actions to be taken (for example, changes in colour, breathing patterns, incontinence). 4.3 Identify variances from expected patient performance in exercise completion and ambulation and report these accurately to the supervising Physiotherapist (respiratory distress, complaints of pain, non-compliance, difficult patients). 4.4 Describe common data measurement methods used in gathering and reporting to the Physiotherapist. 	
Course Outcome 5	Learning Objectives for Course Outcome 5	
5. Demonstrate knowledge of and describe contraindications, precautions, and safety issues in the application of therapeutic exercise.	5.1 Identify precautions/contraindications to therapeutic exercise.5.2 Demonstrate the ability to safely implement patient transfers, assistive ambulation and range of motion exercise.	

In response to public health requirements pertaining to the COVID19 pandemic, course delivery and assessment traditionally delivered in-class, may occur remotely either in whole or in part in the 2020-2021 academic year.

Course Outcome 6	Learning Objectives for Course Outcome 6
6. Demonstrate an understanding of techniques for instruction of therapeutic exercise to individuals and groups.	 6.1 Identify the key components and structure of a group exercise class. 6.2 Participate in a therapeutic group exercise class and observe and report on the instructional techniques of the class leader. 6.3 Observe and report on methods to modify the instructional technique according to the needs of the individual, group or the setting.
Course Outcome 7	Learning Objectives for Course Outcome 7
7. Demonstrate skill in the safe use of assistive ambulation devices, transfer techniques and bed mobility in clinical situations.	 7.1 Identify and demonstrate levels of assistance and strategies to improve safety during therapeutic activities, transfers and ambulation. 7.2 Identify assistive ambulation devices and varying levels of weight bearing. 7.3 Demonstrate the ability to appropriately select, fit and adjust of crutches, canes and walkers. 7.4 Demonstrate the ability to instruct a client to employ a variety of assistive ambulation patterns (including ascending and descending stairs), depending on the assistive device, weight bearing status and level of assistance required. 7.5 Identify environmental and architectural risk factors to ambulation as well as strategies to prevent falls and decrease the risk of injury in a fall. 7.6 Observe and recognize client response, including significant departures from the expected patterns in patient response to therapeutic activities, mobility and ambulation, and report them accurately to the Physiotherapist. 7.7 Explain the benefits and purpose of mobility and the consequence of immobilization (pressure ulcers, edema, DVT, contractures). 7.8 Describe the management and consequences of short term and long term positioning. 7.9 Explain and demonstrate preventative exercises (ie. For DVT). 7.10 Demonstrate clinical reasoning and skill with respect to patient positioning and bed mobility.
Course Outcome 8	Learning Objectives for Course Outcome 8
8. Demonstrate knowledge and skill related to the assessment of joint motion.	 8.1 Define and describe goniometry. 8.2 Explain the essential components of reliable, valid goniometry. 8.3 Identify normal ranges of movement and the concepts of end-feel for most synovial joints. 8.4 Demonstrate the ability to measure joint range of motion using a goniometer.
Course Outcome 9	Learning Objectives for Course Outcome 9
9. Demonstrate an understanding of cardio-respiratory conditions	9.1 Identify the impairments of common cardio-respiratory conditions and the goals of treatment in the Physiotherapy management of these.

In response to public health requirements pertaining to the COVID19 pandemic, course delivery and assessment traditionally delivered in-class, may occur remotely either in whole or in part in the 2020-2021 academic year.

	and the role of the PTA in the physiotherapy management of these conditions.	 9.2 Describe the application of therapeutic exercise and mobility as it relates to the Physiotherapy management of cardio-respiratory conditions. 9.3 Define and demonstrate: postural drainage, deep breathing and coughing, manual percussion, mechanical vibration, breathing exercises (diaphragmatic, pursed lip). 9.4 Recognize signs of respiratory distress and the appropriate management by the PTA. 9.5 Recognize changes in sputum production and when to report this to the Registered Physiotherapist.
	Course Outcome 10	Learning Objectives for Course Outcome 10
	10. Demonstrate the ability to describe and document physiotherapy interventions carried out by the PTA.	 10.1 Describe and draw therapeutic exercises prescribed by the Physiotherapist for use by a client in a home exercise program. 10.2 Demonstrate the ability to select appropriate exercises from a database/software program. 10.3 Produce instructional information for a clients home exercise program, both written and electronically.
Evaluation Process and Grading System:	Evaluation Type	Evaluation Weight
	Lab Activities	10%

Grading System:	Evaluation Type	Evaluation Weight
	Lab Activities	10%
	Performance Based Evaluation	40%
	Quizzes	10%
	Written Tests and Exams	40%
Date:	August 13, 2020	

Addendum: Please refer to the course outline addendum on the Learning Management System for further information.
