# SAULT COLLEGE OF APPLIED ARTS AND TECHNOLOGY SAULT STE. MARIE, ON 

## COURSE OUITINE

COURSE TITLE: Technical Mathematics

CODE NO: MTH 142-5
SEMESTER: One

PROGRAM: Mechanical/Electrical/Electronics/Computer Architecturai/Civil Technician

AUTHOR: J. McGauley

DATE: June 1997

APPROVED;

TOTAL CREDITS:

PREREQUISITES: None

SUBSTITUTE(S): MTH 119, MTH 120, MTH 612

LENGTH OF COURSE:
I. COURSE DESCRIPTION:

This first level mathematics course for engineering technology programs begins With a review of fundamental concepts including arithmetic operations. This is followed by several algebra topics - functions and graphs, linear equations, factoring, fractions and quadratic equations. A brief treatment of trigonometry of right triangles is aiso included.

The goals of this course are, first to show that mathematics does play a most important role in the development and understanding of the various fields of technology and, secondly to ensure that students acquire the mathematical and critical thinking skills necessary to analyze and solve engineering technology problems.

## STUDENT PERFORMANCE OBJECTIVES:

After studying each of the following topics, the student shouid be able to:
Topic 1: Basic Algebraic Operations

1. Perform basic arithmetic operations on signed numbers.
2. Take powers, roots, and reciprocals of signed numbers and algebraic quantities.
3. Convert numbers between decimal and scientific notation.
4. Simpiify expressions by removing grouping symbols and combining like terms.
5. Add, subtract, multiply, and divide algebraic expressions.
6. Solve simple linear equations, and solve literal equations for the indicated letter.

Topic 2: Functions and Graphs

1. Distinguish between relations and functions.
2. Graph points, relations and functions.
3. Solve equations graphically.

Topic 3: Trigonometric Functions

1. Convert angles between decimal degrees, radians, and degrees, minutes and seconds.
2. Find the trigonometric functions of an angle.
3. Find the missing sides and angles of a right triangle.
4. Solve practical problems involving the right triangle.

## Course Name

## II. STUDENT PERFORMANCE OBJECTIVES (Cbntinued):

## Topic 4: Systems of Linear Equations

1. Find an approximate graphical solution to a system of two equations.
2. Solve a system of two equations and two unknowns by the additionsubtraction methods and by the substitution method.
3. Solve a system of two equations and two unknowns orthree equations and three unknowns using detemninants.

## Topic 5: Factoring and Fractlons

1. Factor expressions by removing common factors.
2. Factor binomials that are the difference of the two squares.
3. Factor trinomials.
4. Reduce algebraicfractions.
5. Add, subtract, multlply and divide algebraicfractions.
6. Solve fractional equations.

Topic 6: Quadratic Equations

1. Solve quadratic equations by factoring, by completing the square, and the quadratic formula.
2. Graph quadratic equations.

## Topic 7: Exponents and Radicals

1. Use the laws of exponents to simpiify and combine expressions having integral exponents.
2. Simpiify radicals by removing perfect powers and by rationalizing the denominator.
3. Add, subtract, multiply and divide radicals.

## III. TOPICS TO BE COVERED:

1. Basic Algebraic Operations
2. Functions and Graphs
3. The Trigonometric Functions
4. Systems of Linear Equations
5. Factoring and Fractions
6. Quadratic Equations
7. Exponents and Radicals

## Approximate Time Frame

12 periods
7 periods
10 periods
6 periods
12 periods
6 periods
11 periods
IV. LEARNING ACTIVITIES:

| TOPIC NUMBER | TOPIC DESCRIPTION | REFERENCE CHAPTER ASSIGNMENTS |
| :---: | :---: | :---: |
| 1.0 | BASIC ALGEBRAIC OPERATIONS | Chapter 1 |
| 1.1 | Numbers and literal symbols | Questions: 1-36 Page 5 |
| 1.2 | Fundamental laws of algebra and order of operations | Questions: 1-52 Page 10 |
| 1.3 | Calculators and approximate numbers | Questions; 1-60 Page 15 |
| 1.4 | Exponents | Questions: 1-56 Page 21 |
| 1.5 | Scientific notation | Questions: 1-44 Page 23 |
| 1.6 | Roots and radicals | Questions: 1-36 Page 26 |
| 1.7 | Addition and subtraction of algebraic expressions | Questions: 1-44 Page 30 |
| 1.8 | Multiplication of algebraic expressions | Questions: 1-56 Page 32 |
| 1.9 | Division of algebraic expressions | Questions: 1-34 Page 35 |

## IV. LEARNING ACTIVITIES (Continued);

| TOPIC NUMBER | TOPIC DESCRIPTION | REFERENCE CHAPTER ASSIGNMENTS |
| :---: | :---: | :---: |
| 1.10 | Equations | Questions: 1-36 |
|  |  | Page 38 |
| 1.11 | Fomnulas and literai equations | Questions: 1-36 |
|  |  | Page 41 |
| 1.12 | Review exercise | Questions: 1-104 |
|  |  | Paqe 46 |
| 2.0 | FUNCTIONS AND GRAPHS | Chapter 3 |
| 2.1 | Introduction to functions | Questions: 1-36 |
|  |  | Page 78 |
| 2.2 | Rectanguiar coordinates | Questions: 1-27 |
|  |  | Page 86 |
| 2.3 | The graph of a function | Questions: 1-32 |
|  |  | Page 91 |
| 2.4 | Solving equations graphically (optional) | Questions: 1-28 |
|  |  | Page 96 |
| 2.5 | Review exercise | Questions: 1-52 |
|  |  | Page 100 |
| 3.0 | THETRtGONOMETRIC FUNCTIONS | Chapter 4 |
| 3.1 | Angles | Questions: 1-44 |
|  |  | Page 107 |
| 3.2 | Defining the trig. functions | Questions: 1-32 |
|  |  | Page 111 |
| 3.3 | Values of the trig. functions | Questions: 1-40 |
|  |  | Page 115 |
| 3.4 | The right triangle | Questions; 1-28 |
|  |  | Page 119 |
| 3.5 | Applications of right triangies | Questions: 1-27 |
|  |  | Page 122 |
| 3.6 | Reviev^ exercise | Questions: 1-76 |
|  |  | Page 124 |
| 4.0 | SYSTEMS OF LINEAR EQUATIONS | Chapter 5 |
| 4,1 | Linear equations | Questions: 1-20 |
|  |  | Page 130 |
| 4.2 | Graphs of linear equations | Questions: 1-32 |
|  |  | Page 135 |
| 4.3 | Solving systems of two linear equations in two unknowns graphically | Questions: 1-28 |
|  |  | Page 138 |

## IV. LEARNING ACTIVITIES (Continued):

## TOPIC NUMBER

4.4 Solving systems of two linear equations in
two unknowns algebraically
4.5 Solving systems of two linear equations in two unknowns by determinants
4.6 Solving systems of three linear equations in three unknowns algebraically
4.7 Solving systems of three linear equations in three unknowns by determinants
4.8 Review exercise
5.0 FACTORING AND FRACTIONS
5.1 Special products
5.2 Common factor and difference of squares
5.3 Factoring trinomials
5.4 Sum and difference of cubes
5.5 Equivalent fractions
5.6 Multiplication and division of fractions
5.7 Addition and subtraction of fractions
5.8 Equations involving fractions
5.9 Review exercise
6.0 QUADRATIC EQUATIONS
6.1 Solution by factoring
6.2 Completing the square
6.3 The quadratic fonnula
6.4 The graph of the quadratic function

## V. REQUIRED RESOURCES / TEXTS / MATERIALS:

1. Text: Washington, "Basic Technicai Mathematics With Calculus", Sixth Edition, Metric Version, Benjamin/Cummings, 1995.
2. Calculator: (Recommended) SHARP Scientific Calculator EL-531G. The use of some kinds of calculators may be restricted during tests.
VI. EVALUATION PROCESS/GRADING SYSTEM;

MAJOR ASSIGNMENTS AND TESTS
While regular tests will normaily be scheduled and announced beforehand, there may be an unannounced test on current work at any time. Such tests, at the discretion of the Instructor, may be used for up to $30 \%$ of the overall mark.

At the discretion of the instructor, there may be a mid-term exam and there may be a final exam, each of which can contribute up to $30 \%$ of the overall mark.

The instructor will provide you with a list of test dates. Tests may be scheduled out of regular ciass time.

## VI. EVALUATION PROCESS/GRADING SYSTEM (Cbntinued):

## ATTENDANCE

It is your responsibiiity to attend all classes during the semester. Research indicates there is a high correiation between attendance and student success.

If you are absent from dass, it is your responsibiiity to find out from your instructor what work was covered and assigned and to complete this work before the next dass, Your absence indicates your acceptance of this responsibiiity.

Unexcused absence from a test may result in a mark of zero ("0"). Absence may be excused on compassionate grounds such as verified illness or bereavement. On retum from an excused absence, you should ask your instructor to Schedule the writing of a make-up test. Faiiure to do so will be considered as an unexcused absence.

## METHOD OF ASSESSMENT (GRADING METHOD)

A+ Consistently outstanding (90\%-100\%)

A Outstanding Achievement (80\%-89\%)
B Consistently above average achievement (70\%-79\%)
0 Satisfactory or acceptable achievement in al! areas subject to assessment (55\%-69\%)
X or R A temporary grade, limited to situations ( $45 \%-54 \%$ ) With extenuatling circumstances, giving a student additional time to complete course requirements (See below)
R Repeat - The student has not achieved ( $0 \%$ - 44\%) the objectives of the course, and the course must be repeated
GR Credit exemption
The method of calculating your weighted average wil! be defined by your instructor. Since grades are based upon averages, it follows that good marks in some tests can compensate for a failing mark in another test.

## Make-Up Test (if applicable)

An " X " grade may be assigned at the end of the regular semester if you have met ALL of the following criteria:

- an overall average between $45 \%$ and $54 \%$ was achieved
- at least $50 \%$ of the tests were passed
- at least $80 \%$ of the scheduled classes were attended
- all of the topic tests were written

## Vi. EVALUATION PROCESS/GRADING SYSTEM (Continued):

if you are assigned an " X " grade, you may convert it to a " C " grade by writing a make-up test on topics agreed to by the instructor. This test will be available at the time agreed to by your instructor.

At the end of the regular term, it is your responsibility to obtain your resuJts from your instructor and, in the event of an " X " grade, to inquire when the make-up test will be available.

The score you receive on this make-up test will replace your original test score and be used to re-caiculate your weighted average. If the re-calculated average is $55 \%$ or greater, a "C" grade will be assigned. If the re-calculated average is $54 \%$ or less, an "R" grade will be assigned.

## "R" and "X" Grades at the end of the Semester

If an " X " grade is not cieared by the specified date, it will become an "R" grade. Except for extenuating circumstances, an " X " grade in Math will not be carried into the next semester.

## "R" Grades during the Semester

A student with a falling grade and poor attendance (less than 80\% attendance) may be given an "R" at any time during the semester.

## VII. SPECIAL NOTES:

Students with special needs (e.g. physical limitations, visual impairments, hearing impairments, leaming disabilities), are encouraged to discuss required accommodations with the professor and/or contact the Special Needs Office.

## Advanced Standing

Students who have completed an equivalent post-secondary course must bring relevant documents to the Coordinator, Mathematics Department:

- a copy of course outline
- a copy of the transcript verifying successful completion of the equivalent course

Note: A copy of the transcript must be on file in the Registrar^s Office.

## VIII, PRIOR LEARNING ASSESSMENT:

Students who wish to apply for advanced credit in the course should consult the instnjctor or the Prior Leaming Assessment Office (E2203).
