

COURSE OUTLINE: CSD221 - JAVA II

Prepared: Fred Carella

Approved: Corey Meunier, Chair, Technology and Skilled Trades

Course Code: Title				
Department: COMPUTER STUDIES	Course Code: Title	CSD221: JAVA II		
Semesters/Terms: 19W	Program Number: Name	2090: COMPUTER PROGRAMMER		
Course Description: This course introduces students to the concepts of Object-Oriented Programming and applies them in practical problem-solving exercises. The course presently uses the Java programming language and the Netbeans IDE as the development environment. This course builds on the skills developed in previous courses, in Java, C++ and Python. Total Credits: 4 Hours/Week: 4 Total Hours: 60 Prerequisites: CSD211 Corequisites: There are no co-requisites for this course. This course is a pre-requisite for: CAR300, CSD309, CSD318, CSD322 Vocational Learning Outcomes (VLO's) addressed in this course: Please refer to program web page for a complete listing of program outcomes where applicable. VLO 3 Perform routine maintenance on a database. VLO 4 Apply knowledge of networking concepts to develop, deploy, and maintain program code. VLO 6 Use relevant methodologies, policies, and standards to develop secure program code. VLO 8 Conform to workplace expectations found in information technology (IT) environments. Essential Employability Skills (EES) addressed in this course: EES 1 Communicate clearly, concisely and correctly in the written, spoken, and visual form that fulfills the purpose and meets the needs of the audience. EES 2 Respond to written, spoken, or visual messages in a manner that ensures effective communication. EES 4 Apply a systematic approach to solve problems. EES 6 Locate, select, organize, and document information using appropriate technology and information systems. EIS 9 Interact with others in groups or teams that contribute to effective working relationships and the achievement of goals.	Department:	COMPUTER STUDIES
