THE SAULT COLLEGE OF APPLIED ARTS AND TECHNOLOGY SAULT STE. MARIE, ON

COURSE OUTLINE

Course Title: Computer Mathematics
Code No.: Mth 122-4 Semester: One
Program: Computer Programmer, Computer Engineering, Computer Network, Computer System Support

Author: The Mathematics Department
Date: August 2007 Previous Outline Dated: August 2006
Approved: $\qquad$
Dean
Date
Total Credits: 4
Prerequisite(s): None
Hours/Week: 3

For additional information, please contact Colin Kirkwood, Dean School of Technology, Skilled Trades, and Natural Resources, (705) 759-2554, Ext. 2688

## I. COURSE DESCRIPTION:

This course presents mathematics needed in computer studies. Emphasis is placed on developing logical thinking skills and an algorithmic approach to problem-solving.

## II. LEARNING OUTCOMES:

After studying each of the indicated topics, the student should be able to perform the objectives that follow:

## Topic 1: Basic Algebra Review

1. Number sets
2. Properties of integers and real numbers
3. Exponents and radicals
4. Order of operations
5. Inequalities and absolute values
6. Metric measurement

## Topic 2: Number Systems

1. Number systems
2. Review decimal number system
3. Binary number system
4. Octal number system
5. Hexadecimal number system
6. Conversion between number systems
7. Binary addition
8. Complementation
9. Binary subtraction
10. Hexadecimal addition and subtraction

## Topic 3: Computer Considerations

1. Scientific digits, accuracy, precision, rounding
2. Scientific notation
3. Normalized exponential form
4. Integer representation
5. Floating point representation

## II. LEARNING OUTCOMES (Continued):

## Topic 4: Sets

1. Sets and elements
2. Subsets
3. Operations on sets
4. Venn diagrams
5. Basic properties of sets

## Topic 5: Logic

1. Simple and compound statements
2. Truth tables: AND, OR, NOT, NAND, NOR, EOR
3. Conditional and bi-conditional statements
4. Properties of logic
5. Logical implication

## Topic 6: Boolean Algebra

1. Circuits
2. Combination off switches
3. Properties of networks
4. Simplification of networks
5. Logic circuits
III. TOPICS TO BE COVERED:

## Approximate Time Frame

1. Basic Algebra
2. Number Systems
3. Computer Considerations
4. Sets
5. Logic
6. Boolean Algebra

6 hours
9 hours
6 hours
9 hours
9 hours
9 hours

Total: 48 hours

| UNIT NUMBER | NO. OF HOUR S | TOPIC DESCRIPTION | REFERENCE CHAPTER ASSIGNMENTS |

## IV. REQUIRED RESOURCES / TEXTS / MATERIALS:

1. Textbook: "Mathematics for Data Processing", Robert N. McCullough, Third Edition, Prentice-Hall.
2. Calculator: (Recommended) SHARP Scientific Calculator EL-546V. The use of some kinds of calculators may be restricted during tests.

## V. EVALUATION PROCESS/GRADING SYSTEM:

## MAJOR ASSIGNMENTS AND TESTS

While regular tests will normally be scheduled and announced beforehand, there may be an unannounced test on current work at any time. Such tests, at the discretion of the instructor, may be used for up to $\mathbf{3 0 \%}$ of the overall mark.

The instructor will provide you with a list of test dates and other required evaluation information for your class section. Tests may be scheduled out of regular class time.

## ATTENDANCE

It is your responsibility to attend all classes during the semester. Research indicates there is a high correlation between attendance and student success.

If you are absent from class, it is your responsibility to find out what work was covered and assigned and to complete this work before the next class. Your absence indicates your acceptance of this responsibility.

Unexcused absence from a test may result in a mark of zero ("0"). Absence may be excused on compassionate grounds such as verified illness or bereavement. On return from an excused absence, you should ask your instructor to schedule the writing of a make-up test. Failure to do so will be considered as an unexcused absence.

## V. EVALUATION PROCESSIGRADING SYSTEM (continued):

METHOD OF ASSESSMENT (GRADING METHOD)

| Grade | Definition | Grade Point <br> Equivalent |
| :--- | :---: | :---: |
| A+ | $90-100 \%$ | 4.00 |
| A | $80-89 \%$ | 3.00 |
| B | $70-79 \%$ | 2.00 |
| C | $60-69 \%$ | 1.00 |
| D | $50-59 \%$ | 0.00 |
| F (Fail) | $49 \%$ and below |  |

CR (Credit) Credit for diploma requirements has been awarded.
S Satisfactory achievement in field /clinical placement or non-graded subject area.
U Unsatisfactory achievement in field/clinical placement or non-graded subject area.
X A temporary grade limited to situations with extenuating circumstances giving a student additional time to complete the requirements for a course.
NR Grade not reported to Registrar's office. W Student has withdrawn from the course without academic penalty.

Grade Point
Equivalent
4.00
3.00
2.00
0.00
\(\left.$$
\begin{array}{ll}\text { CR (Credit) } & \begin{array}{l}\text { Credit for diploma requirements has been } \\
\text { awarded. } \\
\text { Satisfactory achievement in field /clinical } \\
\text { placement or non-graded subject area. }\end{array}
$$ <br>

S Unsatisfactory achievement in\end{array}\right\}\)| Uneld/clinical placement or non-graded |

| fied |
| subject area. |
| A temporary grade limited to situations |
| with extenuating circumstances giving a |
| student additional time to complete the |
| NR | | requirements for a course. |
| :--- |
| Grade not reported to Registrar's office. |
| Student has withdrawn from the course |
| without academic penalty. |

| Course: MTH 122-4 |  |  |
| :--- | :--- | :--- |
| Evaluation Device | Topics Covered <br> (reference topic numbers <br> from the course outline) | \% weight of Final Average |
| Test 1 | 1 | $10 \%$ |
| Test 2 | 2 | $20 \%$ |
| Test 3 | 3 | $10 \%$ |
| Test 4 | 6 | $20 \%$ |
| Test 5 | 4 | $20 \%$ |
| Test 6 | 5 | $20 \%$ |

The method of calculating your weighted average will be defined by your instructor. Since grades are based upon averages, it follows that good marks in some tests can compensate for a failing mark in another test.

## Make-Up Test (if applicable)

An " $X$ " grade may be assigned at the end of the regular semester if you have met ALL of the following criteria for the course:

- an overall average between $40 \%$ and $49 \%$ was achieved
- at least $50 \%$ of the tests were passed
- at least $80 \%$ of the scheduled classes were attended
- at least $80 \%$ of quizzes and assignments were submitted
- all of the topic tests were written

If you are assigned an "X" grade, you may convert it to a "D" grade by writing a make-up test on topics agreed to by the instructor. This test will be available at the time agreed to by your instructor.

At the end of the regular term, it is your responsibility to obtain your results from your instructor and, in the event of an " $X$ " grade, to inquire when the make-up test will be available.

The score you receive on this make-up test will replace your original test score and be used to re-calculate your weighted average. If the re-calculated average is $50 \%$ or greater, a " $D$ " grade will be assigned. If the re-calculated average is $49 \%$ or less, an "F" grade will be assigned.
"F" and "X" Grades at the end of the Semester
If an " $X$ " grade is not cleared by the specified date, it will become an "F" grade. Except for extenuating circumstances, an " $X$ " grade in Math will not be carried into the next semester.

## VI. <br> SPECIAL NOTES:

## Special Needs:

If you are a student with special needs (e.g. physical limitations, visual impairments, hearing impairments, or learning disabilities), you are encouraged to discuss required accommodations with your professor and/or the Special Needs office. Visit Room E1101 or call Extension 2703 so that support services can be arranged for you.

## Retention of Course Outlines:

It is the responsibility of the student to retain all course outlines for possible future use in acquiring advanced standing at other postsecondary institutions.

Communication:
The College considers WebCT/LMS as the primary channel of communication for each course. Regularly checking this software platform is critical as it will keep you directly connected with faculty and current course information. Success in this course may be directly related to your willingness to take advantage of the Learning Management System communication tool.

## Plagiarism:

Students should refer to the definition of "academic dishonesty" in Student Code of Conduct. Students who engage in academic dishonesty will receive an automatic failure for that submission and/or such other penalty, up to and including expulsion from the course/program, as may be decided by the professor/dean. In order to protect students from inadvertent plagiarism, to protect the copyright of the material referenced, and to credit the author of the material, it is the policy of the department to employ a documentation format for referencing source material.

Course Outline Amendments:
The professor reserves the right to change the information contained in this course outline depending on the needs of the learner and the availability of resources.

Substitute course information is available in the Registrar's office.

## VII. PRIOR LEARNING ASSESSMENT:

Students who wish to apply for advanced credit in the course should consult the professor or the Coordinator, Mathematics Department. Credit for prior learning will be given upon successful completion of a challenge exam or portfolio.

## There is a MTH122 Challenge exam in place.

## VIII. DIRECT CREDIT TRANSFERS:

Students who wish to apply for direct credit transfer (advanced standing) should obtain a direct credit transfer form from the Dean's secretary. Students will be required to provide a transcript and course outline related to the course in question.
