

Semesters/Terms:	20W, 20S				
Course Description:	This course will deal with various friction and anti-friction type bearings, dynamic and static type seals and Lubrication both oil and grease. The student will learn the different styles of bearings used today including design, working conditions, loading, fits, preparation, installation, failure types and preventative maintenance. The student will learn about the importance of correct seal type, design, application installation and maintenance. The student will learn about lubrication types, properties and various applications.				
Total Credits:	2				
Hours/Week:	2				
Total Hours:	30				
Prerequisites:	There are no pre-requisites for this course.				
Corequisites:	There are no co-requisites for this course.				
Substitutes:	MCH226				
Vocational Learning Outcomes (VLO's) addressed in this course:	4039 - MECH. ENG. TN-MANUFA				
	VLOT	guidelines.			
Please refer to program web page for a complete listing of program outcomes where applicable.	VLO 2	Apply quality control and quality assurance procedures to meet organizational standards and requirements.			
	VLO 3	Comply with current health and safety legislation, as well as organizational practices and procedures.			
	VLO 4	LO 4 Apply sustainability best practices in workplaces.			
	VLO 5	5 Use current and emerging technologies to support the implementation of mechanical engineering projects.			
	VLO 6	96 Analyze and solve mechanical problems by applying mathematics and fundamentals of mechanical engineering.			
	VLO 7	7 Interpret, prepare and modify mechanical engineering drawings and other related technical documents.			
	VLO 8	O 8 Contribute to the design and the analysis of mechanical components, processes and systems applying fundamentals of mechanical engineering.			
	VLO 9	LO 9 Manufacture, assemble, maintain and repair mechanical components according to required specifications.			
	VI O 10	Verify the specifications of materials, processes and operations to support the design			

VLO 10 Verify the specifications of materials, processes and operations to support the design and production of mechanical components.

SAULT COLLEGE | 443 NORTHERN AVENUE | SAULT STE. MARIE, ON P6B 4J3, CANADA | 705-759-2554

- VLO 11 Contribute to the planning, implementation and evaluation of projects.
- VLO 12 Develop strategies for ongoing personal and professional development to enhance work performance.

4040 - MACHINE SHOP

- VLO 1 Complete all work in compliance with current legislation, standards, regulations and guidelines.
- VLO 2 Contribute to the application of quality control and quality assurance procedures to meet organizational standards and requirements.
- VLO 3 Comply with current health and safety legislation, as well as organizational practices and procedures.
- VLO 4 Support sustainability best practices in workplaces.
- VLO 5 Use current and emerging technologies to support the implementation of mechanical and manufacturing projects.
- VLO 7 Contribute to the interpretation and preparation of mechanical drawings and other related technical documents.
- VLO 8 Perform routine technical measurements accurately using appropriate instruments and equipment.
- VLO 9 Assist in manufacturing, assembling, maintaining and repairing mechanical components according to required specifications.
- VLO 10 Select, use and maintain machinery, tools and equipment for the installation, manufacturing and repair of basic mechanical components.

5082 - MECH.TECH.IND.MAINT.

- VLO 1 Complete all work in compliance with current legislation, standards, regulations and guidelines.
- VLO 2 Contribute to the application of quality control and quality assurance procedures to meet organizational standards and requirements.
- VLO 3 Comply with current health and safety legislation, as well as organizational practices and procedures.
- VLO 4 Support sustainability best practices in workplaces.
- VLO 5 Use current and emerging technologies to support the implementation of mechanical and manufacturing projects.
- VLO 7 Contribute to the interpretation and preparation of mechanical drawings and other related technical documents.
- VLO 8 Perform routine technical measurements accurately using appropriate instruments and equipment.
- VLO 9 Assist in manufacturing, assembling, maintaining and repairing mechanical components according to required specifications.
- VLO 10 Select, use and maintain machinery, tools and equipment for the installation, manufacturing and repair of basic mechanical components.

Essential Employability Skills (EES) addressed in this course: EES 1 Communicate clearly, concisely and correctly in the written, spoken, and visual form that fulfills the purpose and meets the needs of the audience.

EES 2 Respond to written, spoken, or visual messages in a manner that ensures effective communication.

🔊 SAULT COLLEGE | 443 NORTHERN AVENUE | SAULT STE. MARIE, ON P6B 4J3, CANADA | 705-759-2554

	EES 3	Execute mathematical operations accurately.					
	EES 4	Apply a systematic approach to solve problems.					
	EES 5	Use a variety of thir	king skills to anticipate and solve problems.				
	EES 6	Locate, select, orga and information sys	nize, and document information using appropriate technology tems.				
	EES 7	Analyze, evaluate, a	and apply relevant information from a variety of sources.				
	EES 8	Show respect for th others.	e diverse opinions, values, belief systems, and contributions of				
	EES 9	Interact with others in groups or teams that contribute to effective working relationships and the achievement of goals.					
	EES 10	Manage the use of time and other resources to complete projects.					
	EES 11	Take responsibility	/ for ones own actions, decisions, and consequences.				
Course Evaluation:	Passing Grade: 50%, D						
Other Course Evaluation & Assessment Requirements:	Grade Definition Grade Point Equivalent A+ 90 - 100% 4.00 A 80 - 89% B 70 - 79% 3.00 C 60 - 69% 2.00 D 50 - 59% 1.00 F (Fail)49% and below 0.00 CR (Credit) Credit for diploma requirements has been awarded. S Satisfactory achievement in field /clinical placement or non-graded subject area. U Unsatisfactory achievement in field/clinical placement or non-graded subject area. X A temporary grade limited to situations with extenuating circumstances giving a student additional time to complete the requirements for a course. NR Grade not reported to Registrar's office. W Student has withdrawn from the course without academic penalty.						
Books and Required Resources:	Millwright Manual by British Columbia Publisher: Queens Printer ISBN: 0-7718-9473-2 Safety Boots, Safety Glasses						
Course Outcomes and Learning Objectives:	Course	Outcome 1	Learning Objectives for Course Outcome 1				
	1. Upon completion the stude Identify t and uses bearings	successful on of this course, ent will be able to he various styles s of Friction type .:	 1.1 Describe each styles of bearing housing 1.2 Define dimensions for housings and bearings 1.3 List Friction bearing materials 1.4 Identify different housing designs 1.5 Describe babbitt bearings 1.6 Calculate bearing Clearances 1.7 Describe various methods of Thrust control 				
	Course	Outcome 2	Learning Objectives for Course Outcome 2				
	2. Upon completion the stude Identify t	successful on of this course, ent will be able to he various styles of	2.1 Classify Anti-friction bearing components2.2 Classify different types of anti-friction bearings2.3 Describe the load conditions for each style of bearing2.4 Explain the bearing size and classifications				

SAULT COLLEGE | 443 NORTHERN AVENUE | SAULT STE. MARIE, ON P6B 4J3, CANADA | 705-759-2554

	anti-friction type b	earings.					
	Course Outcome	9 3	Learning Objectives for Course Outcome 3				
	3. Upon successfu completion of this the student will be Demonstrate insta removing bearings	ul course, able to alling and s	 3.1 Perform shaft and housing checks 3.2 Install bearings on various types of fits 3.3 Use different accessories to remove bearings 3.4 Install tapered-bore bearings 3.5 Calculate and correctly set bearing clearances 3.6 Install and remove Pillow blocks of different designs 				
	Course Outcome	9 4	Learning Objectives for Course Outcome 4				
	4. Upon successfu completion of this the student will be Demonstrate the maintenance of al Bearings and Hou	ul course, able to I types of using.	 4.1 Understand the importance of keeping bearings clean 4.2 Understand the importance of keeping bearings in good condition 4.3 Apply good maintenance practices 				
	Course Outcome	9 5	Learning Objectives for Course Outcome 5				
	5. Upon successful completion of this the student will be Identify various St and their application	ul course, able to atic Seals ons	 5.1 Understand what a static seal is 5.2 Understand what a Gasket is 5.3 Understand what an O-Ring is 5.4 Explain the different types of Sealants 5.5 Demonstrate how to install and remove static seals 				
	Course Outcome	9 6	Learning Objectives for Course Outcome 6				
	6. Upon successfu completion of this the student will be Identify various Dy Seals and their ap	ul course, able to ynamic oplications	 6.1 Understand what a dynamic seal is 6.2 Identify the various contact Seals 6.3 Identify the various clearance Seals 6.4 Demonstrate how to install and remove dynamic seals 				
	Course Outcome	97	Learning Objectives for Course Outcome 7				
	7. Upon successfu completion of this the student will Ur Lubrication princip the properties of O Grease.	ul course, nderstand bles and Dil and	 7.1 Understand the properties of oil 7.2 Understand the properties of grease 7.3 Understand oil lubrication 7.4 Understand grease lubrication 7.5 Demonstrate the safe handling of lubricants 				
Evaluation Process and Grading System:	Evaluation Type Evaluation Weight						
	Assignments	gnments 40%					
	Tests 60%						
Date:	August 27, 2019						
Addendum:	Please refer to the course outline addendum on the Learning Management System for further information.
