

COURSE OUTLINE

MCH144

Prepared: Neal Moss Approved:

Course Code: Title	MCH144: MACHINE SHOP PRACTICAL I
Program Number: Name	4039: MECH. ENG. TN-MANUFA
Department:	MECHANICAL TECHNIQUES PS
Semester/Term:	17F
Course Description:	This course will focus on the students hands on ability and skill to safely operate and use various machines and hand tools used in the mechanical trades. Students will be applying their theoretical knowledge to performing layout and manufacturing components from drawings. Special attention will be placed on safe work habits and accurate measurement.
Total Credits:	4
Hours/Week:	4
Total Hours:	60
Substitutes:	MCH133
This course is a pre-requisite for:	MCH145, MCH259
Essential Employability Skills (EES):	#2. Respond to written, spoken, or visual messages in a manner that ensures effective communication. #3. Execute mathematical operations accurately. #4. Apply a systematic approach to solve problems. #5. Use a variety of thinking skills to anticipate and solve problems. #6. Locate, select, organize, and document information using appropriate technology and information systems. #7. Analyze, evaluate, and apply relevant information from a variety of sources. #10. Manage the use of time and other resources to complete projects. #11. Take responsibility for ones own actions, decisions, and consequences.
General Education Themes:	Science and Technology
Course Evaluation:	Passing Grade: 50%, D
Other Course Evaluation & Assessment Requirements:	Attendance: Students who do not attend a minimum of 75% (12) of the scheduled classes will be given an F

grade for this course. After 3 missed classes students lose the full 20% for the Attendance/Housekeeping portion of marks.

Due to Safety concerns of this course, after 3 safety violations, the student will be removed from the class and receive an F grade.

Grade
Definition Grade Point Equivalent
A+ 90 - 100% 4.00
A 80 - 89%
B 70 - 79% 3.00
C 60 - 69% 2.00
D 50 - 59% 1.00
F (Fail) 49% and below 0.00

CR (Credit) Credit for diploma requirements has been awarded.
S Satisfactory achievement in field /clinical placement or non-graded subject area.
U Unsatisfactory achievement in field/clinical placement or non-graded subject area.
X A temporary grade limited to situations with extenuating circumstances giving a student additional time to complete the requirements for a course.
NR Grade not reported to Registrar's office.
W Student has withdrawn from the course without academic penalty.

Evaluation Process and Grading System:

Evaluation Type	Evaluation Weight
Attitude/ Attendance/ Housekeeping	20%
Projects	80%

Books and Required Resources:

Machining Fundamentals by Walker
Publisher: Goodhear-Wilcox

Machining Fundamentals Workbook by Walker
Publisher: Goodheart-Wilcox

Course Outcomes and Learning Objectives:

Course Outcome 1.

Work safe in a shop environment whether running machines or doing bench work.

Learning Objectives 1.

Potential Elements of the Performance:

- Practice all shop safety rules.
- Wear and use proper safety equipment.
- Operate machines in a safe manner.
- Practice safe working habits.
- Protect themselves and others

Course Outcome 2.

Use all of the various measuring tools to verify dimensions of machined parts.

Learning Objectives 2.

Potential Elements of the Performance:

- Use measuring tools such as scales, inside and outside micrometers, vernier calipers and Dial gauges.
- Use transfer measuring tools such as inside and outside calipers, telescopic gauges, small hole gauges and dividers.

Course Outcome 3.

Perform basic layout using various tools and methods

Learning Objectives 3.

Potential Elements of the Performance:

- Perform layout using combination set, scales, protractors, height gauges, surface gauges and dividers.
- Mark layout using scribes, prick and centre punches.

Course Outcome 4.

Safely operate various grinders used in industry.

Learning Objectives 4.

- Operate pedestal grinders.
- Operate hand grinders.
- Safely change grinding wheels.
- Safely change grinding and cut-off discs
- Safely dress grinding wheels.

Course Outcome 5.

Select and operate different types of drill presses.

Learning Objectives 5.

- Operate radial arm drill
- Operate drill press

Course Outcome 6.

Safely operate various cutoff and band saws.

Learning Objectives 6.

- Operate horizontal band saw.
- Operate vertical contour band saw.
- Operate electric chop saw.
- Inspect and change blades as required.
- Select proper speeds and feeds.

Course Outcome 7.

Safely perform bench work.

Learning Objectives 7.

- Proper use and care of files.
- Proper care and use of hack saws.

Course Outcome 8.

Safely operate metal cutting lathes using assorted work holding devices.

Learning Objectives 8.

- Use and care of 3 jaw and 4 jaw independent chucks.
- Select different centres such as live, dead or bell.
- Care and use of collet chucks and mandrels.
- Setup and use steady and follower rests.

Course Outcome 9.

Safely perform various machining operations on the lathe.

Learning Objectives 9.

- Operate lathe performing facing, turning and boring.
- Using calculations and formulas select proper speeds and feeds.
- Using proper formulas perform threading and taper turning.
- Safely perform knurling, grooving and parting off.

Date:

Monday, December 18, 2017

Please refer to the course outline addendum on the Learning Management System for further information.
