**VI. SPECIAL NOTES:**Attendance:

Sault College is committed to student success. There is a direct correlation between academic performance and class attendance; therefore, for the benefit of all its constituents, all students are encouraged to attend all of their scheduled learning and evaluation sessions. This implies arriving on time and remaining for the duration of the scheduled session.

Significant learning takes place in the classroom through an interactive learning approach; therefore, it is an expectation that students attend classes regularly to contribute to the academic performance and development of professional skills.

By midterm the professor will calculate the attendance and a letter will be distributed to the students who require a plan to address the attendance concern. Students who have missed more than 40% of scheduled classes will meet with the professor to discuss the program and course expectations and create a plan which addresses attendance concerns.

Students are encouraged to communicate with the professor when absences are anticipated and immediately returning from an absence. It is the student's responsibility to catch up on any notes and material missed when absent.

A pattern of absences or lateness may result in academic consequences which may include failure in course, ineligibility for fieldwork component of the program, implementation of a learning/success contract, suspension or withdrawal from fieldwork.

### **Submission of Assignments**

Assignments are discussed when distributed. It is the responsibility of the student to seek clarification from the professor if absent when an assignment was distributed or if further clarification is requested related to the instructions or concepts.

Students must contact the professor **prior to the due date** to request consideration for an extension of an individual assignment. Valid and justifiable circumstances will be considered if granting an extension. Students will complete an Assignment Extension Request form and attach the completed form to the assignment.

Assignments are to be submitted electronically to the professor. The electronic copy provides verification of the date and time of submission. In addition a hardcopy of each assignment is to be submitted to the professor on the due date. The hardcopy will be marked by the professor. Assignments not submitted by hardcopy will not be graded until a hardcopy is provided to the professor.

Late assignments will be penalized 2% per day late and will be accepted for grading up to one week after the due date. Assignments submitted beyond one week past the due date will not be accepted.
