SAULT COLLEGE OF APPLIED ARTS AND TECHNOLOGY					
SAULT STE. MARIE, ONTARIO					
Sault College					
COURSE OUTLINE					
COURSE TITLE:	TIMBER CR	UISING			
CODE NO. :	NRT 106		SEMESTER:	2	
PROGRAM:	FORESTRY	TECHNICIAN			
AUTHOR:	BOB CURR	ELL			
DATE:	Jan. 2008	PREVIOUS OUT	LINE DATED:	Dec. 2005	
APPROVED:				2005	
TOTAL CREDITS:	3	Chair		DATE	
PREREQUISITE(S):					
HOURS/WEEK:	3

COURSE DESCRIPTION:

I. Effective forest management and harvest planning is based on accurate field inventories of the composition of the forest. This course examines methods of obtaining such information, through hands on training. Various cruising methodologies including fixed area plot measurement and point sampling will be carried out in the field. Compilation of forest inventory data, will be taught.

NRT 119; Forest Mensuration is a pre-requisite.

II. LEARNING OUTCOMES AND ELEMENTS OF THE PERFORMANCE:

Upon successful completion of this course, the student will demonstrate the ability to:

1. Carry out accurate inventories of forest trees

Potential Elements of the Performance:

- Explain the concepts of timber cruising, forest inventories and growth and yield.
- Carry out prism, fixed area and strip cruises complete with the associated compilations
- Understand how to design a timber inventory

This learning outcome will make up 45% of the course's grade

2. Properly compile, summarize and report inventory results

Potential Elements of the Performance

- Compile complete, legible cruise tallies
- Summarize results using appropriate calculations

This learning outcome will make up 20% of the course's grade

3. Demonstrate the ability to use Electronic Data Recorders in forestry applications.

Potential Elements of the Performance:

• Record data using Personal Data Assistants (PDAs)

This learning outcome will make up 10% of the course's grade

4. Calculate the number of trees per hectare, basal area per hectare and timber volume per hectare.

Potential Elements of the Performance:

- Understand the concepts of stems per hectare, basal area per hectare and tree volume per hectare.
- Apply mathematical formulae to calculate trees per hectare, basal area per hectare and volume per hectare

This learning outcome will make up 15% of the course's grade

5. Carry out Forest Resource Inventory (FRI) data collection

Potential Elements of the Performance:

- Lay out an FRI ground plot on maps and aerial photos
- Locate and establish an FRI ground plot using maps and aerial photos

This learning outcome will make up 10% of the course's grade

III. TOPICS:

- 1. Tree Height and Diameter review, The measurement of tree growth and age
- 2. Types of Timber Sampling Techniques
 - Strip cruising
 - Fixed area plots
 - Point sampling
- 3. Timber Cruise Compilations
- 4. Laying Out a Forest Inventory
- 5.

Electronic Data Recorders

6. Forest Resource Inventory ground plots

IV. REQUIRED RESOURCES/TEXTS/MATERIALS:

NRT126 Forest Measurements Study Guide

Suunto MC-1 compass or equivalent

Calculator

V. EVALUATION PROCESS/GRADING SYSTEM:

Tests (2)

30%

Field exercises and compilations 50%

- Strip cruise
- Prism cruise
- Fixed area plot cruise
- FRI ground plot

Homework Assignments

20%

- Each cruise report must be completed to a minimum 70% mark or it must be rewritten.
- Up to 20% may be deducted (5% per instance) for documented mishandling or failure to return equipment

The following semester grades will be assigned to students in postsecondary courses:

Grade	Definition	Grade Point Equivalent
A+ A	90 – 100% 80 – 89%	4.00
A B C D F (Fail)	70 - 79% 60 - 69% 50 - 59% 49% and below	3.00 2.00 1.00 0.00
CR (Credit)	Credit for diploma requirements has been awarded.	
S	Satisfactory achievement in field /clinical placement or non-graded subject area.	
U	Unsatisfactory achievement in field/clinical placement or non-graded subject area.	

Х	A temporary grade limited to situations
	with extenuating circumstances giving a
	student additional time to complete the
	requirements for a course.
NR	Grade not reported to Registrar's office.
W	Student has withdrawn from the course
	without academic penalty.

VI. SPECIAL NOTES:

Special Needs:

If you are a student with special needs (e.g. physical limitations, visual impairments, hearing impairments, or learning disabilities), you are encouraged to discuss required accommodations with your professor and/or the Special Needs office. Visit Room E1101 or call Extension 493 so that support services can be arranged for you.

Retention of Course Outlines:

It is the responsibility of the student to retain all course outlines for possible future use in acquiring advanced standing at other postsecondary institutions.

Plagiarism:

Students should refer to the definition of "academic dishonesty" in *Student Rights and Responsibilities*. Students who engage in "academic dishonesty" will receive an automatic failure for that submission and/or such other penalty, up to and including expulsion from the course/program, as may be decided by the professor/dean. In order to protect students from inadvertent plagiarism, to protect the copyright of the material referenced, and to credit the author of the material, it is the policy of the department to employ a documentation format for referencing source material.

Course Outline Amendments:

The professor reserves the right to change the information contained in this course outline depending on the needs of the learner and the availability of resources.

Substitute course information is available in the Registrar's office.

ATTENDANCE

Attendance and active participation in each field lab is mandatory in order to receive a grade for that field lab assignment unless there are exceptional circumstances.

ASSIGNMENTS

All assignments must be submitted by 4:00 pm. on the due date. There will be a 10%/day penalty for late assignments.

VII. PRIOR LEARNING ASSESSMENT:

Students who wish to apply for advanced credit in the course should consult the professor. Credit for prior learning will be given upon successful completion of a challenge exam or portfolio.

VIII. DIRECT CREDIT TRANSFERS:

Students who wish to apply for direct credit transfer (advanced standing) should obtain a direct credit transfer form from the Dean's secretary. Students will be required to provide a transcript and course outline related to the course in question.
