I. COURSE DESCRIPTION:

The planning and implementation of recreational events is a key skill for Adventure Recreation and Parks students. Events are at the very fabric of communities, bringing people together for a variety of reasons including fun, fitness, education and competition. Events can also have an enormous financial impact by creating jobs, driving tourism and building sustainable infrastructure that can be used by future generations. This course will take students through the process of recreation event planning to prepare them for the opportunities that exist in their chosen field.

Students will examine a number of case studies to grasp the scope and impact of recreational events. These lessons will then be translated into a practical component through hosting a number of community based events. Students will be involved in all aspects of goal setting, planning, organizing and operating. Careful consideration will be given to community participation, volunteerism, logistics, media relations, finances, promotion, evaluation and risk management.

II. LEARNING OUTCOMES AND ELEMENTS OF THE PERFORMANCE:

Upon successful completion of this course, the student will demonstrate the ability to:

1. **Implement and evaluate event management planning procedures for an adventure based recreational event.**

Potential Elements of the Performance:

- Report on their personal involvement in an event.
- Recommend enhancements to the planning process based upon their volunteer experience
- Identify key steps in the event planning process
- Describe trends in volunteerism, fundraising, marketing, etc.
- Attend planning meetings and report on meeting techniques
- Understand the role of advisory boards and steering committees
- Use event-planning tools (guidebooks, checklists, etc.)
- Use relevant software

This learning outcome will constitute approximately 85% of the course.

2. **Describe, in a comprehensive manner, elements of recreation planning, which relate to the operation of private and /or**

municipal recreation facilities.Potential Elements of the Performance:

- Describe some of the key elements of resort/facility management including scheduling, staffing, infrastructure, reporting, training, licensing, regulations, risk management.
- List various marketing devices, media and venues, etc.
- Access support services (research data, small business consulting, marketing, etc.) from government agencies, travel and trade associations.
- Understand specific issues related to the use of crown land by private companies offering recreation experiences (land use permits, fees, the remote tourism industry)
- Participate in field trips to local recreational facilities

This learning outcome will constitute approximately 10% of the course

3. Analyze and discuss the many management challenges related to adventure recreation planning on conservation lands.Potential Elements of the Performance:

- Complete a case study summarizing recreation planning and an issues analysis for a municipal park or conservation area.
- Analyze the costs/benefits (financial and ecological) of recreational activities on conservation lands
- Recognize trends in recreation (i.e. mountain biking) and the implications for conservation land managers
- Examine ways to integrate multiple and sometimes conflicting uses
- Understand the role of stakeholder committees

This learning outcome will constitute approximately 5% of the course.
