1. Business/strategic planning
2. Proposal preparation process
3. Contract tendering process
4. Legislation and best practices
5. Skills, attributes and characteristics for a successful business/supervisor
6. New economic structures and opportunities for a successful business

IV. REQUIRED RESOURCES/TEXTS/MATERIALS:

There is no required text, however, students are encouraged to review lectures posted on LMS in advance and following class lectures.

Approach to learning:

Although there will be lectures, students are encouraged to participate and share their perspectives on the respective themes as much as possible. A significant proportion of classes will be dedicated to class activities based on readings and assignments. A portion of the evaluation for this course depends upon the student being able to demonstrate your comprehension of the materials by engaging in class discussions and activities on the respective themes, completing assignments, and raising questions about specific subject matter. Emphasis will be placed on creating a positive environment whereby students can express themselves without fear of criticism or judgment. This approach to learning recognizes that everyone has something to contribute to class discussions, and reduces the amount of lecture time for any given topic.

V. EVALUATION PROCESS/GRADING SYSTEM:

Assignments – 40%
Term Assignment – 50%
Class Participation – 10%

The following semester grades will be assigned to students:

1. Definition

*Grade Point
Equivalent*

A+	90 – 100%	4.00
A	80 – 89%	3.00
B	70 - 79%	2.00
C	60 - 69%	1.00
D	50 – 59%	0.00
F (Fail)	49% and below	

CR (Credit) Credit for diploma requirements has been awarded.

S Satisfactory achievement in field /clinical placement or non-graded subject area.

U Unsatisfactory achievement in field/clinical placement or non-graded subject area.

X A temporary grade limited to situations with extenuating circumstances giving a student additional time to complete the requirements for a course.

NR Grade not reported to Registrar's office.

W Student has withdrawn from the course without academic penalty.

VI. SPECIAL NOTES:

Attendance:

Sault College is committed to student success. There is a direct correlation between academic performance and class attendance; therefore, for the benefit of all its constituents, all students are encouraged to attend all of their scheduled learning and evaluation sessions. This implies arriving on time and remaining for the duration of the scheduled session.

Week 12	term project presentations	
Week 13	review	
Week 15	final exam	

Term Assignment

Develop and present a business plan for a non-profit environmental organisation. The organisation will have both a policy research and project orientation towards sustainable development. In other words, it will have office operations and field projects. The organisation will need to tender, or sub-contract for certain activities, and secure general operational and project specific staff and funding. The general area of work will be sustainable development; the specific business details is what you will convincingly develop and present in your business plan. The business is to be located in Sault Ste. Marie.

Prepare a business plan for the organisation.

- develop the mission, vision and values
- conduct a short environmental scan to identify the organisation's operational environment - current organisations and roles, issues, orientation of sector
- conduct a SWOT analysis
- develop the goals, strategies and objectives of the organisation
- identify funding sources and opportunities (this should address staffing, capital costs, operations and possible projects). Consider a variety of sources including grants, partnerships and collaborations, in-kind and fees-for-service.
- discuss relevant legislation and how it applies to registration, capital needs, personnel and operational issues
- prepare a report and presentation of the plan

Your group is to present the results to the class - feel free to be creative!
Each group is to prepare a report detailing the business plan.

To facilitate development of the business plan, each group will be required to submit stages of development of the plan throughout the term for feedback and comments. The final report and presentation will reflect the iterative process required to develop a business plan.

Due Dates:

NOTE: it is strongly advised to begin as soon as possible and not wait to the last minute!

Part 1: mission, vision and values statements (week 4)

Part 2: environmental scan/market analysis; SWOT analysis; goals, strategies and objectives (week 7)

Part 3: financial and funding sources; relevant legislation (week 9)

Presentations will be given during class in week 12

Reports are due one week later - week 13

Assignment 1

Prepare a tender (week 8)

Assignment 2

Discuss a resolution to an ethical dilemma (week 11)
