

COURSE OUTLINE: NRT135 - ORNITHOLOGY

Prepared: Bob Knudsen Approved: Sherri Smith, Chair, Natural Environment, Business, Design and Culinary

Course Code: Title	NRT135: ORNITHOLOGY					
Program Number: Name	5214: FISH/WILD CONSERVATN					
Department:	NATURAL RESOURCES PRG					
Semesters/Terms:	19W					
Course Description:	This course will explore the biological and ecological life requirements of important groups of birds of Canada. Topics will include avian anatomy and physiology, bird habits and behaviour, field identification of raptors, shore birds, game birds, and non-game species such as passerines by sight and/or sound.					
Total Credits:	3					
Hours/Week:	3					
Total Hours:	45					
Prerequisites:	There are no pre-requisites for this course.					
Corequisites:	There are no co-requisites for this course.					
Substitutes:	NRT113					
Vocational Learning Outcomes (VLO's) addressed in this course: Please refer to program web page for a complete listing of program outcomes where applicable.	 5214 - FISH/WILD CONSERVATN VLO 1 Demonstrate clear, concise and industry appropriate written, spoken and visual communication skills VLO 2 Identify, discuss, organize and assess common flora and fauna species found throughout Ontario, including biological characteristics VLO 3 Demonstrate the ability to follow standardized protocols to collect field data on fish and wildlife populations in a variety of weather and site conditions. 					
	 VLO 6 Understand the importance of managing fish and wildlife resources in Ontario and related federal, provincial and municipal legislation. VLO 7 Recognize the contributions and applications of various science disciplines in the understanding of natural environments. VLO 11 Analyze, evaluate and apply subjective and objective safety considerations. 					
Essential Employability Skills (EES) addressed in this course:	 EES 1 Communicate clearly, concisely and correctly in the written, spoken, and visual form that fulfills the purpose and meets the needs of the audience. EES 2 Respond to written, spoken, or visual messages in a manner that ensures effective communication. EES 3 Execute mathematical operations accurately. EES 4 Apply a systematic approach to solve problems. EES 5 Use a variety of thinking skills to anticipate and solve problems. EES 6 Locate, select, organize, and document information using appropriate technology and information systems. EES 7 Analyze, evaluate, and apply relevant information from a variety of sources.

	others. EES 9 Interact with others			e diverse opinions, values, belief systems, and contributions of in groups or teams that contribute to effective working a achievement of goals.			
				time and other resources to complete projects.			
	EES 11 Take responsibility f			for ones own actions, decisions, and consequences.			
General Education Themes:	Science and Technology						
Course Evaluation:	Passing Grade: 50%, D						
Other Course Evaluation & Assessment Requirements:	Attendance of all classes is imperative. A quiz will begin each class. This quiz will constitute approximately 10% of the final grade.						
Books and Required Resources:	Field Guide to the Birds of North America by Roger Tory Peterson Publisher: Houghton Mifflin Edition: 6						
Course Outcomes and	Course Outcome 1			Learning Objectives for Course Outcome 1			
Learning Objectives:			 1.1 Research required readings and the Internet to collect theories related to bird behavior. 1.2 Summarize different theories that explain activities such as: a) Migration b) Vocalization c) Territoriality d) Nest building
