| **Course Outcomes and Learning Objectives:** | ## Course Outcome 1.<br><br>Describe function, performance and uses of various fiber types<br><br>## Learning Objectives 1.<br><br>Synthetic fibre<br>• Natural fibre |

# COURSE OUTLINE

# HST747

Prepared: Hairstyling Department    Approved: Martha Irwin

- Natural hair types, including:
o Remy
o yak
o Chinese
o Indian
o European

## Course Outcome 2.

Interpret consultation results to determine type of hair addition service to be performed.

## Learning Objectives 2.

Determine addition type
- Determine fibre type
- Determine attachment method
- Determine length of addition
o Match addition to natural hair based on: colour
o density
o texture
- Determine alterations to be applied to addition according to design, such as:
o colouring
o cutting to shape
o cutting to blend
o styling

## Course Outcome 3.

Perform procedural steps to fit and apply selected hair additions such as wig, hair piece, weft or extensions.

## Learning Objectives 3.

Determine size or quantity of additions based on head measurements
- Choose attachment method
- Attach or fit to head:
o select products, tools and equipment required

COURSE OUTLINE

HST747

Prepared: Hairstyling Department    Approved: Martha Irwin

o alter additions
o follow manufacturer's directions
o perform visual inspection

## Course Outcome 4.

Describe and perform the procedural steps to colour hair additions

## Learning Objectives 4.

Describe how hair colour and lightening theory and procedures are adapted to addition types and fibre types
   • Describe the procedures to colour hair additions
   • Prepare additions for colour application
   • Demonstrate product application and removal, ensuring protection of the integrity of the addition

## Course Outcome 5.

Cut and blend hair additions to desired shape, length and thickness.

## Learning Objectives 5.

Select tools and procedures to cut additions according to fibre type:
o razors
o shears
o texturizing shears
o wig blocks
o t-pins

   • Describe and demonstrate how the following cutting techniques and procedures are adapted for hair additions:
o combing techniques
o sectioning techniques layering techniques
o simulating natural appearance
o visual inspection for accuracy
o thinning and texturizing techniques

COURSE OUTLINE

HST747

Prepared: Hairstyling Department    Approved: Martha Irwin

### Course Outcome 6.

Perform the procedural steps to style additions.

### Learning Objectives 6.

Identify and select relevant styling tools, products and procedures according to fibre type
  • Describe wear and deterioration
  • Demonstrate styling techniques and procedures that are specially adapted to additions:
o securing addition to remain stationary during procedure
o combing techniques
o sectioning techniques
o blending techniques
o final finishing or fitting

### Course Outcome 7.

Describe maintenance and home care procedures of additions.

### Learning Objectives 7.

Describe wear and deterioration
  • Describe products, tools and equipment for repair
  • Describe how to re-attach or repair additions
  • Describe how to clean according to manufacturer's directions and fibre type
  • Describe home care procedures to client:
o explain necessity for regular salon maintenance
o explain how to clean addition according to fibre type and following manufacturer's directions
o explain safe and effective brushing/combing/styling techniques

### Course Outcome 8.

Remove hair additions to maintain the integrity of the natural hair.

# COURSE OUTLINE

## HST747

Prepared: Hairstyling Department    Approved: Martha Irwin

### Learning Objectives 8.

Describe precautions for removing hair addition
- Describe detachment tools and products
- Select product, tools and equipment for addition removal
- Demonstrate procedures for removing addition
- Perform visual inspection of natural hair`s integrity after removal

**Date:** Wednesday, August 30, 2017

Please refer to the course outline addendum on the Learning Management System for further information.
