Interview assignment	30%
Tests	40%

Course Outcomes and Learning Objectives:

Course Outcome 1.

Identify social work values, ethics and standards of practice universal to social service work practice with all individuals, families, groups and communities.

Learning Objectives 1.

- a) Demonstrate the incorporation of social work values and standards of practice into applied practice
- b) Demonstrate ability to apply social work concepts and principles to understanding strengths and challenges of diverse populations
- c) Demonstrate an understanding of and ability to apply anti-oppressive practice principles
- d) Demonstrate an understanding of the social construction of ageism, homophobia and ableism and ability to apply effective social work methods to confront and address stigma

Course Outcome 2.

Identify and utilize interventions that respect diversity and promote strengths, well-being and facilitate positive change in each population studied within SSW Scope of Practice

Learning Objectives 2.

- a) Assess, in collaboration with populations served, the social/emotional needs of individuals and groups
- b) Demonstrate knowledge of community agencies and programs designed to meet the needs of the identified populations
- c) Plan selected strategies to foster therapeutic relationships
- d) Identify community resources, services offered and referral methods

COURSE OUTLINE

SSW209

Prepared: Judi Gough, MSW,RSW Approved: Martha Irwin, Chair, Community Services and Interdisciplinary Studies

- e)Identify appropriate assessment tools within scope of practice of social service work
- f)Conduct an interview using interviewing skills and knowledge of the population

Course Outcome 3.

Understand the strengths and challenges for each population studied utilizing an ecological framework

Learning Objectives 3.

- a)Utilize a biopsychosocial-spiritual and multi-level (micro, mezzo and macro) approach to assess and plan supports and interventions
- b)Demonstrate ability to understand risk and protective factors relevant to each population
- c)Identify and articulate strengths and challenges, risk and protective factors relevant to social service practice and support of individuals, families and communities
- d)Identify and understand the social determinants of health that impact each population

Course Outcome 4.

Understand and discuss strategies that promote client advocacy and community education to enhance the resilience, strengths and abilities of each population studied

Learning Objectives 4.

- a) Demonstrate ability to use professional literature and research to locate credible data on populations served
- b) Demonstrate ability to identify and address areas of strengths and risk within each population
- c) Identify existing community resources available to each population

Course Outcome 5.

Perform ongoing self-assessment to enhance professional competence

Learning Objectives 5.

Prepared: Judi Gough, MSW,RSW Approved: Martha Irwin, Chair, Community Services and Interdisciplinary Studies

- a)Develop working awareness of personal values and beliefs in relation to populations served
- b)Integrate self-assessment into regular practice by expressing in verbal or written form personal thoughts and reactions to course materials in a professional, respectful manner
- c)Develop a personal plan to address potential biases that may negatively impact on professional practice or that are incongruent with social work ethics and values
